quentin tarantino on true romance: High Contrast Sharon Willis, 1997 In *High Contrast*, Sharon Willis examines the dynamic relationships between racial and sexual difference in Hollywood film from the 1980s and 1990s. Seizing on the way these differences are accentuated, sensationalized, and eroticized on screen--most often with little apparent regard for the political context in which they operate--Willis restores that context through close readings of a range of movies from cinematic blockbusters to the work of the new auteurs, Spike Lee, David Lynch, and Quentin Tarantino. Capturing the political complexity of these films, Willis argues that race, gender, and sexuality, as they are figured in the fantasy of popular film, do not function separately, but rather inform and determine each other's meaning. She demonstrates how collective anxieties regarding social difference are mapped onto big budget movies like the *Die Hard* and *Lethal Weapon* series, *Basic Instinct*, *Fatal Attraction*, *Thelma and Louise*, *Terminator 2*, and others. Analyzing the artistic styles of directors Lynch, Tarantino, and Lee, in such films as *Wild at Heart*, *Pulp Fiction*, and *Do the Right Thing*, she investigates how these interactions of difference are linked to the production of specific authorial styles, and how race functions for each of these directors, particularly in relation to gender identity, erotics, and fantasy.

quentin tarantino on true romance: The Pyrotechnic Insanitarium Mark Dery, 2007-12-01 A wide-ranging collection of essays on millennial American culture that "marshals a vast pop vocabulary with easy wit" (The New York Times Book Review). From the far left to the far right, on talk radio and the op-ed page, more and more Americans believe that the social fabric is unraveling. Celebrity worship and media frenzy, suicidal cultists and heavily armed secessionists: modern life seems to have become a "pyrotechnic insanitarium," Mark Dery says, borrowing a turn-of-the-century name for Coney Island. Dery elucidates the meaning to our madness, deconstructing American culture from mainstream forces like Disney and Nike to fringe phenomena like the Unabomber and alien invaders. Our millennial angst, he argues, is a product of a pervasive cultural anxiety—a combination of the social and economic upheaval wrought by global capitalism and the paranoia fanned by media sensationalism. The *Pyrotechnic Insanitarium* is a theme-park ride through the extremes of American culture of which The Atlantic has written, "Mark Dery confirms once again what writers and thinkers as disparate as Nathanael West, Fyodor Dostoyevsky, Sigmund

Freud, and Oliver Sacks have already shown us: the best place to explore the human condition is at its outer margins, its pathological extremes.” “Dery is the kind of critic who just might give conspiracy theory a good name.” —Wired

quentin tarantino on true romance: Generation Tarantino Andrew J. Rausch, 2025-07-10 In iconic films like *Reservoir Dogs* and *Pulp Fiction*, Quentin Tarantino personified the spirit of '90s filmmaking, boldly forging his own opportunities rather than waiting for the movie industry to come knocking on his door. He and his fellow travelers-directors like Richard Linklater (*Dazed and Confused*), John Singleton (*Boyz n the Hood*), Guillermo del Toro (*The Devil's Backbone*), David Fincher (*Seven*), Robert Rodriguez (*Desperado*), Kevin Smith (*Clerks*), Noah Baumbach (*Kicking and Screaming*), Wes Anderson (*Rushmore*), Paul Thomas Anderson (*Boogie Nights*), Christopher Nolan (*Following*), Darren Aronofsky (*Requiem for a Dream*), and Sofia Coppola (*The Virgin Suicides*)-established their maverick-style careers by breaking norms, creating new standards, and building on the techniques of the films that preceded them, pushing the artistic boundaries of cinema to new heights. Breaking free from the blockbuster bloat of the 1980s, Generation Tarantino in some ways recalled the era of an earlier wave of pioneers-of Scorsese, Spielberg, Coppola, Altman, and De Palma. But they were uniquely of their time, capturing the attitude of young adults in the 1990s: breaking the rules, setting new standards, mixing tones and genres in a way that no one had before. These were directors who wouldn't take no for an answer. *Generation Tarantino: The Last Wave of Young Turks in Hollywood* is an examination of the films, careers, and artistic styles of the most significant filmmakers to emerge during the 1990s. With interviews from filmmakers, screenwriters, cameramen, producers, and actors, this is a book about a generation of directors who raised the artistic bar and changed cinema forever.

quentin tarantino on true romance: *The Twenty-First-Century Western* Douglas Brode, Shea T. Brode, 2019-12-12 Focusing on twenty-first century Western films, including all major releases since the turn of the century, the essays in this volume cover a broad range of aesthetic and thematic aspects explored in these films, including gender and race. As diverse contributors focus on the individual subgenres of the traditional Western (the gunfighter, the Cavalry vs. Native American

conflict, the role of women in Westerns, etc.), they share an understanding of the twenty-first century Western may be understood as a genre in itself. They argue that the films discussed here reimagine certain aspects of the more conventional Western and often reverse the ideology contained within them while employing certain forms and clichés that have become synonymous internationally with Westerns. The result is a contemporary sensibility that might be referred to as the postmodern Western.

quentin tarantino on true romance: Neo-Noir as Post-Classical Hollywood Cinema Robert Arnett, 2020-08-31 Neo-Noir as Post-Classical Hollywood Cinema suggests the terms "noir" and "neo-noir" have been rendered almost meaningless by overuse. The book seeks to re-establish a purpose for neo-noir films and re-consider the organization of 60 years of neo-noir films. Using the notion of post-classical, the book establishes how neo-noir breaks into many movements, some based on time and others based on thematic similarities. The combined movements then form a mosaic of neo-noir. The time-based movements examine Transitional Noir (1960s-early 1970s), Hollywood Renaissance Noir in the 1970s, Eighties Noir, Nineties Noir, and Digital Noir of the 2000s. The thematic movements explore Nostalgia Noir, Hybrid Noir, and Remake and Homage Noir. Academics as well as film buffs will find this book appealing as it deconstructs popular films and places them within new contexts.

Nominated, 2024 Edgar Allan Poe Award in the category of best critical/biographical, Mystery Writers of America Shortlisted, 2024 Agatha Awards - Best Mystery Nonfiction, Malice Domestic Posthumous Winner - 2023 IFCA Book Prize, International Crime Fiction Association Narrative innovation is typically seen as the domain of the avant-garde. However, techniques such as nonlinear timelines, multiple points of view, and unreliable narration have long been part of American popular culture. How did forms and styles once regarded as “difficult” become familiar to audiences? In *Perplexing Plots*, David Bordwell reveals how crime fiction, plays, and films made unconventional narrative mainstream. He shows that since the nineteenth century, detective stories and suspense thrillers have allowed ambitious storytellers to experiment with narrative. Tales of crime and mystery became a training ground where audiences learned to appreciate artifice. These genres demand a sophisticated awareness of storytelling conventions: they play games with narrative form and toy with audience expectations. Bordwell examines how writers and directors have pushed, pulled, and collaborated with their audiences to change popular storytelling. He explores the plot engineering of figures such as Raymond Chandler, Agatha Christie, Dashiell Hammett, Patricia Highsmith, Alfred Hitchcock, Dorothy Sayers, and Quentin Tarantino, and traces how mainstream storytellers and modernist experimenters influenced one another’s work. A sweeping, kaleidoscopic account written in a lively, conversational style, *Perplexing Plots* offers an ambitious new understanding of how movies, literature, theater, and popular culture have evolved over the past century.

quentin tarantino on true romance: Although Of Course You End Up Becoming Yourself

David Lipsky, 2010-04-13 NOW A MAJOR MOTION PICTURE, STARRING JASON SEGAL AND JESSE EISENBERG, DIRECTED BY JAMES PONSOLDT An indelible portrait of David Foster Wallace, by turns funny and inspiring, based on a five-day trip with award-winning writer David Lipsky during Wallace’s *Infinite Jest* tour In David Lipsky’s view, David Foster Wallace was the best young writer in America. Wallace’s pieces for Harper’s magazine in the ’90s were, according to Lipsky, “like hearing for the first time the brain voice of everybody I knew: Here was how we all talked, experienced, thought. It was like smelling the damp in the air, seeing the first flash from a storm a mile away. You knew something gigantic was coming.” Then Rolling Stone sent Lipsky to join Wallace on the last leg of his book tour for *Infinite Jest*, the novel that made him internationally famous. They lose to each other at chess. They get iced-in at an airport. They dash to Chicago to catch a make-up flight. They endure a terrible reader’s escort in Minneapolis. Wallace does a reading, a signing, an NPR appearance. Wallace gives in and imbibes titanic amounts of hotel television (what he calls an “orgy of spectatorship”). They fly back to Illinois, drive home, walk Wallace’s dogs. Amid these everyday events, Wallace tells Lipsky remarkable things—everything he can about his life, how he feels, what he thinks, what terrifies and fascinates and confounds him—in the writing voice Lipsky had come to love. Lipsky took notes, stopped envying him, and came to feel about him—that grateful, awake feeling—the same way he felt about *Infinite Jest*. Then Lipsky heads to the airport, and Wallace goes to a dance at a Baptist church. A biography in five days, *Although Of Course You End Up Becoming Yourself* is David Foster Wallace as few experienced this great American writer. Told in his own words, here is Wallace’s own story, and his astonishing, humane, alert way of looking at the world; here are stories of being a young writer—of being young generally—trying to knit together your ideas of who you should be and who other people expect you to be, and of being young in March of 1996. And of what it was like to be with and—as he tells it—what it was like to become David Foster Wallace. If you can think of times in your life that you’ve treated people with extraordinary decency and love, and pure uninterested concern, just because they were valuable as human beings. The ability to do that with ourselves. To treat ourselves the way we would treat a really good, precious friend. Or a tiny child of ours that we absolutely loved more than life itself. And I think it’s probably possible to achieve that. I think part of the job we’re here for is to learn how to do it. I know that sounds a little pious. —David Foster Wallace
