robert redford indecent proposal: *Why Women Have Sex* Cindy M. Meston, David M. Buss, 2009-09-29 An unparalleled exploration of the mysteries underlying women's sexuality that rivals the culture-shifting Kinsey Report, from two of America's leading research psychologists Do women have sex simply to reproduce or display their affection? When University of Texas at Austin clinical psychologist Cindy M. Meston and evolutionary psychologist David M. Buss joined forces to investigate the underlying sexual motivations of women, what they found astonished them. Through the voices of real women, Meston and Buss reveal the motivations that guide women's sexual decisions and explain the deep-seated psychology and biology that often unwittingly drive women's desires—sometimes in pursuit of health or pleasure, or sometimes for darker, disturbing reasons that a woman may not fully recognize. Drawing on more than a thousand intensive interviews conducted solely for the book, as well as their pioneering research on physiological response and evolutionary emotions, *Why Women Have Sex* uncovers an amazingly complex and nuanced portrait of female sexuality. They delve into the use of sex as a defensive tactic against a mate's infidelity (protection), as a ploy to boost self-confidence (status), as a barter for gifts or household chores (resource acquisition), or as a cure for a migraine headache (medication). *Why Women Have Sex* stands as the richest and deepest psychological understanding of female sexuality yet achieved and promises to inform every woman's (and her partner's) awareness of her relationship to sex and her sexuality.

Women stars in Hollywood were invariably in two categories, said director Otto Preminger. One group was of women who were exploited by men, and the other, much smaller group was of women who survived by acting like men. Beginning with silent film vamp Theda Bara and continuing with icons like Greta Garbo, Marilyn Monroe and Raquel Welch, this study of film industry misogyny describes how female stars were maltreated by a sexist studio system--until women like Katharine Hepburn and Bette Davis fought for parity. The careers of Doris Day, Brigitte Bardot, Carole Landis, Frances Farmer, Dorothy Dandridge, Inger Stevens and many others are examined, along with more recent actresses like Demi Moore and Sharon Stone. Women who worked behind the scenes, writing screenplays, producing and directing without due credit, are also covered.

robert redford indecent proposal: An Apple a Day Caroline Taggart, 2011-03-03 From Old Testament proverbs to modern phrases like the best things in life are free, *An Apple a Day* takes a fun look at expressions that have stood the test of time. Read through from start to finish or search through the list of hundreds of the most common proverbs, arranged from A to Z for easy reference. You'll learn about each proverb's surprising origins, why some are valid and others are not, the derivation and meanings behind them, and their relevance in today's society. Includes entries like: Two heads are better than one: Like the less-familiar Four eyes see better than two, this proverb extols the benefits of having someone else help you make up your mind-and it's a view that goes back to at least the fourteenth century. But while it is always useful to have a second opinion (A sounding board? Someone else to blame?) it might also be worth bearing in mind the disadvantages of design or decision-making by committee: something that really pleases no one. So whereas two heads may well be better than one, three could be a crowd. Laughter is the best medicine: This idea is an ancient one and is found in, appropriately, the book of Proverbs: A merry heart doeth good like a medicine: but a broken spirit drieth the bones. It has prompted a surprising amount of research, with the result that some scientists claim that laughter has the same benefits as a mild workout-it stretches muscles, sends more oxygen to the tissues, and generally makes you feel healthier. One study even claims that laughing heartily for 10-15 minutes burns 50 calories. But let's pause for thought here. The world may laugh with you over a joke or a rerun of Seinfeld, but if you make a habit of laughing heartily for 10-15 minutes for no apparent reason, the world is going to think you are nuts and cross the street to avoid you. It may be worth striving for a happy medium. An apple a day keeps the doctor away: A common British folk saying, this is one of the few proverbs that can be taken at face value. All it means is that apples are good for you. The Romans knew this and so did the Anglo-Saxons, who listed the crabapple as one of the nine healing plants given to the world by the god Woden. They probably didn't know, as we now do, that apples contain fiber, antioxidants, and sundry vitamins and minerals that help to prevent osteoporosis, heart disease, and various forms of cancer. But they did know that they were cooling, cleansing, and soothing, whether taken as a natural diuretic or applied externally to inflammations. An anonymous medieval text called *The Haven of Health* recommended eating an apple to relieve your feelings if you were going to bed alone, while Ayurvedic medicine says that apples cure headaches and promote vitality. So the jury is out on whether or not apples are good for your sex life, but they are certainly good for pretty much everything else. Guaranteed to amuse and inform, this is the perfect gift for any language lover.
