Its early foundations likely coincided with Hythe's growth as a significant port and trading center during the Middle Ages.

The church's dedication to St. Leonard, the patron saint of prisoners and prisoners of war, hints at its role in serving the needs of seafarers and traders who relied on Hythe's maritime connections. During its early years, the church would have been a modest structure, constructed primarily from local materials such as flint and stone.

st leonards church hythe: All in the Downs Shirley Collins, 2020-06-23 A memoir from one of Britain's legendary singers, folklorists, and music historians. A legendary singer, folklorist, and music historian, Shirley Collins has been an integral part of the folk-music revival for more than sixty years. In her new memoir, *All in the Downs*, Collins tells the story of that lifelong relationship with English folksong—a dedication to artistic integrity that has guided her through the triumphs and tragedies of her life. *All in the Downs* combines elements of memoir—from her working-class origins in wartime Hastings to the bright lights of the 1950s folk revival in London—alongside reflections on the role traditional music and the English landscape have played in shaping her vision. From formative field recordings made with Alan Lomax in the United States to the “crowning glories” recorded with her sister Dolly on the Sussex Downs, she writes of the obstacles that led to her withdrawal from the spotlight and the redemption of a new artistic flourishing that continues today with her unexpected return to recording in 2016. Through it all, Shirley Collins has been guided and supported by three vital and inseparable loves: traditional English song, the people and landscape of her native Sussex, and an unwavering sense of artistic integrity. *All in the Downs* pays tribute to these passions, and in doing so, illustrates a way of life as old as England, that has all but vanished from this land. Generously illustrated with rare archival material.
