sunset on third street: Tokyo Evelyn Schulz, Barbara E. Thornbury, 2017-10-17 Tokyo: Memory, Imagination, and the City is a collection of eight essays that explore Tokyo urban space from the perspective of memory in works of the imagination—novels, short stories, poetry, essays, and films. Written by scholars of Japanese studies based in England, Germany, Japan, and the United States, the book focuses on texts produced in Japan since the 1980s. The closing years of the Showa period (1926-1989) were a watershed decade of spatial transformation in Tokyo. It was also a time (in Japan, as elsewhere) when conversations about the nature of memory—historical, cultural, collective, and individual—intensified. The contributors to the volume share the view that works of the imagination are constitutive elements of how cities are experienced and perceived. Each of the essays responds to the growing interest in studies on Tokyo with a literary-cultural orientation.

sunset on third street: *Japanese Media at the Beginning of the 21st Century* Katsuyuki Hidaka, 2016-12-01 Hailed by Japanese critics as a milestone in the study of contemporary Japanese media, this book explores the contemporary 'boom' in Japanese media representations of the recent past. Recent years have seen the production of an unprecedented number of films, animation, manga, and television programmes representing a deeply nostalgic longing for the Japanese heyday of high economic growth in the 1960s and occasionally the 1970s known in Japan as the Shōwa '30s and '40s. Hidaka provides a comprehensive account of an under researched contemporary Japanese media phenomenon by exploring why this nostalgia has been sparked at this particular historical juncture and how that period is represented in the Japanese media today. The book accomplishes this through a detailed textual and narrative analysis of representative films and television programmes, in relation to their social and cultural context. While these nostalgic media renderings are seen by many critics as innocuous, this study demonstrates that they do not show a simple yearning for the period, but reflects a growing discontent with Japanese post-war society. In this regard, this book concludes that the current nostalgia wave is a critical reaction to the recent past as it seeks to revise historiography through a processes of introspection within popular conceptions of the meta narrative of 'nostalgia'. Winner of the Japan Communication Association 2015 Outstanding Book Award.

sunset on third street: Cinema of Discontent Tomoyuki Sasaki, 2022-12-01 From the mid-1950s to the mid-1970s, Japan experienced an unprecedented level of economic growth, transforming itself from a war-devastated country to a global economic power. Our image of postwar Japan has been shaped by this event, and we tend to see its history as a story of great national success. *Cinema of Discontent* challenges this view and details the tensions generated by massive and intense capitalist development through analyses of popular cinema produced during the era of high-speed growth. The films discussed in this book, directed by Kawashima Yūzō, Masumura Yasuzō, Inoue Akira, Ezaki Mio, and Kumashiro Tatsumi, attracted broad audiences yet remain understudied. *Cinema of Discontent* contextualizes these films in relation to the politics, economy, intellectual discourse, and cultural texts of the time. By doing so, it demonstrates how these films address problems immanent to Japan's postwar capitalism, including uneven development, increasing corporate control over individuals, precarious and contingent work, and militarized peace and prosperity.

sunset on third street: Contemporary Sino-Japanese Relations on Screen Griseldis Kirsch, 2015-05-28 Japan and China look back on a history of friendship as well as friction, particularly in recent decades. As the People's Republic of China's economy began to grow in the 1990s, so did its political weight within Asia and its economical relevance for Japan. Covering the years from 1989 to 2005, this book looks at Sino-Japanese relations through film and television drama in the crucial time of China's ascent to an economic superpower in opposition to Japan's own ailing economy. It provides an overview of how Japan views China through its visual media, offers explanations as to how oppositions between the two countries came to exist, and how and why certain myths about China have been conveyed. Griseldis Kirsch argues that the influence of visual media within society cannot be underestimated, nor should their value be lessened by them being perceived as part of 'popular culture'. Drawing on examples from a crucial 16 years in the history of post-war Japan and China, she explores to what extent these media were influenced by the political discourse of their time. In doing so, she adds another layer to the on-going debate on Sino-Japanese relations, bringing together disciplines such as media studies, history and area studies and thus filling a gap in existing research.

sunset on third street: *Divided Lenses* Michael Berry, Chiho Sawada, 2017-12-31 *Divided Lenses: Screen Memories of War in East Asia* is the first attempt to explore how the tumultuous years between 1931 and 1953 have been recreated and renegotiated in cinema. This period saw traumatic conflicts such as the Sino-Japanese War, the Pacific War, and the Korean War, and pivotal events such as the Rape of Nanjing, Pearl Harbor, the Battle of Iwo Jima, and the bombings of Hiroshima and Nagasaki, all of which left a lasting imprint on East Asia and the world. By bringing together a variety of specialists in the cinemas of East Asia and offering divergent yet complementary perspectives, the book explores how the legacies of war have been reimagined through the lens of film. This turbulent era opened with the Mukden Incident of 1931, which signaled a new page in Japanese militaristic aggression in East Asia, and culminated with the Korean War (1950–1953), a protracted conflict that broke out in the wake of Japan's post-World War II withdrawal from Korea. *Divided Lenses* explores the ways in which events of the intervening decades have continued to shape politics and popular culture throughout East Asia and the world. The essays in part I examine historical trends at work in various national cinemas, including China, Taiwan, Japan, Korea, and the United States. Those in part 2 focus on specific themes present in the cinema portraying this period—such as comfort women in Chinese film, the Nanjing Massacre, or nationalism—and how they have been depicted or renegotiated in contemporary films. Of particular interest are contributions drawing from other forms of screen culture, such as television and video games. *Divided Lenses* builds on the growing interest in East Asian cinema by examining how these historic conflicts have been imagined, framed, and revisited through the lens of cinema and screen culture. It will interest later generations living in the shadow of these events, as well as students and scholars in the fields of cinema studies, cultural studies, cold war studies, and World War II history.

sunset on third street: *Bending Adversity* David Pilling, 2015-02-24 “[A]n excellent book...” —The Economist Financial Times Asia editor David Pilling presents a fresh vision of Japan, drawing on his own deep experience, as well as observations from a cross section of Japanese citizenry, including novelist Haruki Murakami, former prime minister Junichiro Koizumi, industrialists and bankers, activists and artists, teenagers and octogenarians. Through their voices, Pilling's *Bending Adversity* captures the dynamism and diversity of contemporary Japan. Pilling's exploration begins with the 2011 triple disaster of earthquake, tsunami, and nuclear meltdown. His deep reporting reveals both Japan's vulnerabilities and its resilience and pushes him to understand the country's past through cycles of crisis and reconstruction. Japan's survivalist mentality has carried it through tremendous hardship, but is also the source of great destruction: It was the nineteenth-century struggle to ward off colonial intent that resulted in Japan's own imperial endeavor, culminating in the devastation of World War II. Even the postwar economic miracle—the manufacturing and commerce explosion that brought unprecedented economic growth and earned Japan international clout might have been a less pure victory than it seemed. In *Bending Adversity* Pilling questions what was lost in the country's blind, aborted climb to #1. With the same rigor, he revisits 1990—the year the economic bubble burst, and the beginning of Japan's “lost decades”—to ask if the turning point might be viewed differently. While financial struggle and national debt are a reality, post-growth Japan has also successfully maintained a stable standard of living and social cohesion. And while life has become less certain, opportunities—in particular for the young and for women—have diversified. Still, Japan is in many ways a country in recovery, working to find a way forward after the events of 2011 and decades of slow growth. *Bending Adversity* closes with a reflection on what the 2012 reelection of Prime Minister Shinzo Abe, and his radical antideflation policy, might mean for Japan and its future. Informed throughout by the insights shared by Pilling's many interview subjects, *Bending Adversity* rigorously engages with the social, spiritual, financial, and political life of Japan to create a more nuanced representation of the oft-misunderstood island nation and its people. The Financial Times “David Pilling quotes a visiting MP from northern England, dazzled by Tokyo's lights and awed by its bustling prosperity: ‘If this is a recession, I want one.’ Not the least of the merits of Pilling's hugely enjoyable and perceptive book on Japan is that he places the denunciations of two allegedly “lost decades” in the context of what the country is really like and its actual achievements.” The Telegraph (UK) “Pilling, the Asia editor of the Financial Times, is perfectly placed to be our guide, and his insights are a real rarity when very few Western

journalists communicate the essence of the world's third-largest economy in anything but the most superficial ways. Here, there is a terrific selection of interview subjects mixed with great reportage and fact selection... he does get people to say wonderful things. The novelist Haruki Murakami tells him: "When we were rich, I hated this country"... well-written... valuable." Publishers Weekly (starred): A probing and insightful portrait of contemporary Japan.

It explores the subtler, culturally determined motives of its director, writers, and characters, including ancient Japanese myth, Buddhism, Shinto, and the trauma of war beyond the often-discussed atomic bombings of Hiroshima and Nagasaki. It also discusses how traditional Japanese stagecraft makes the alien situation feel familiar to the film's domestic audience--a usually overlooked aspect. In addition, the book includes two chapters on the most recent cinematic commentaries, Shin Godzilla and Godzilla Minus One.

sunset on third street: Examining Japan's Lost Decades Yoichi Funabashi, Barak Kushner, 2015-04-10 This book examines five features of Japan's 'Lost Decades': the speed of the economic decline in Japan compared to Japan's earlier global prowess; a rapidly declining population; considerable political instability and failed reform attempts; shifting balances of power in the region and changing relations with Asian neighbouring nations; and the lingering legacy of World War Two. Addressing the question of why the decades were lost, this book offers 15 new perspectives ranging from economics to ideology and beyond. Investigating problems such as the risk-averse behaviour of Japan's bureaucracy and the absence of strong political leadership, the authors analyse how the delay of 'loss-cutting policies' led to the 1997 financial crisis and a state of political gridlock where policymakers could not decide on firm strategies that would benefit national interests. To discuss the rebuilding of Japan, the authors argue that it is first essential to critically examine Japan's 'Lost Decades' and this book offers a comprehensive overview of Japan's recent 20 years of crisis. The book reveals that the 'Lost Decades' is not an issue unique to the Japanese context but has global relevance, and its study can provide important insights into challenges being faced in other mature economies. With chapters written by some of the world's leading Japan specialists and chapters focusing on a variety of disciplines, this book will be of interest to students and scholars in the areas of Japan studies, Politics, International Relations, Security Studies, Government Policy and History.
