the wizard of oz judy: Camp! Paul Baker, 2023-09-05 By the bestselling author of *Fabulosa!* and *Outrageous!*, this reappraisal of camp across time and in all its glorious forms shows how this inescapable part of popular culture has also played an important role in equality movements as a form of protest or resistance. 'The following things have seemed impossibly camp to me at one point or another: a doll whose body acts as a cover for a toilet roll, a peacock chair, a wig being pulled off and flushed down the toilet, a tantrum over wire coat hangers, a toppled-over Christmas tree, a 1950s muscle magazine featuring a photo of a young man dressed as a gladiator, a rat underneath a silver serving platter, and an estate agent wearing tiger face paint.' Fabulously unrestrained and ever-evolving, camp has captured the cultural imagination for at least 150 years. The term possibly derives from the French *se camper*, meaning to pose in a bold, provocative or exaggerated fashion. Frequently used to define or deride young heterosexual men, the upper classes, Black people, older women and gay men, camp has also played a key role in equality movements. Paul Baker's highly anticipated reappraisal of camp surveys its touchstones across history and the changing ways that it has been understood. He traces the history of camp from the courts of Louis XIV and trials of Oscar Wilde to the archetypal dandy Beau Brummell and the celebrated playwright Noel Coward; from The Valley of the Dolls, Harlem's drag balls and Brazilian telenovelas through to the modern day divas of Donna Summer, Madonna and Britney Spears. Celebrating camp as an aesthetic, a sensibility and a way of life, this essential dive into an often-derided phenomenon, shows how camp has been a place of refuge and renewal, of heroism and hedonism, and how it is more powerful than ever.

Without Freed, Judy Garland, Gene Kelly, Fred Astaire, Ann Miller, Betty Garrett, Cyd Charisse, Arlene Dahl, Vera-Ellen, Lucille Bremer, Gloria DeHaven, Howard Keel, and June Allyson would never have had the signature films that established them as movie legends. Or how about the fact that China's first emperor, Qin Shi Huangdi, ingested liquid mercury in an (ironic) attempt to live forever, or that Alexander Shulgin, inventor of no less than 230 new psychedelic drugs, was an employee of the DEA? In Human History on Drugs, historian Sam Kelly introduces us to the history we weren't taught in school, offering up irreverent and hysterical commentary as he sheds light on some truly shocking aspects of the historical characters we only thought we knew. With chapters spanning from Ancient Greece ("The Oracle of Delphi Was Huffing Fumes") and the Victorian Era ("Vincent van Gogh Ate Yellow Paint") to Hollywood's Golden Age ("Judy Garland Was Drugged by Grown-Ups") and modern times ("Carl Sagan Got Astronomically High"), Kelly's research spans all manner of eras, places, and, of course, drugs. History is rife with drug use and drug users, and Human History on Drugs takes us through those highs (pun intended) and lows on a wittily entertaining ride that uncovers their seriously unexpected impact on our past.
