Through a series of evocative poems, the collection captures fleeting moments of childhood wonder, untainted love, and the raw honesty of untouched emotions. what shall i cook today: *Transactions in Taste* Manpreet Janeja, 2020-11-29 In a radical departure from previous ethnographies of food, this book asks how and why food is pivotal to social relations and forms of identity that emerge as normal and not-normal. It does so by describing the production, consumption, distribution, and disposal of 'normal Bengali food' in middle-class households that employ cooks from poor classes, and in Bengali restaurants, in contemporary Calcutta (India) and Dhaka (Bangladesh). In a rare comparative foray into Bengali Hindu and Muslim food-ways on both sides of the border, the book includes addas ('idle-talk') and interviews with both men and women. It initiates a dialogue that links issues of agency, place, hospitality, and ownership with a new field that places food as an 'artefact' at the centre of its inquiry. It invites the reader throughout to approach food afresh, as the key that unlocks the complexities of what is mundane yet profound — the everyday. The book thus analyses the constant and fraught negotiations that feed into definitions of normality, class and identity in the deeply intimate yet intensely public domain of food. Food transactions here provide a window into shifting configurations of trust, power, and conflict integral to social relationships, shaped by events such as the 1943-44 Bengal famine, the 1947 partition of India, and the 1971 Bangladesh War.

But it is through the empathic act of writing - of putting pen to paper and reckoning with those who have suffered at his hands - that he succeeds in recovering his humanity and coming back from his own living death...plotted with great care." —The Guardian Tell Her Everything is a layered recital of intricately woven hauntings, decisions, and confessions...[A] story that is at once haunting, tender, and gripping. — Chicago Review of Books A doctor working in a prosperous Middle Eastern city finds himself placed in an unconscionable situation ... As he prepares for a visit from his long-estranged daughter, Dr K., a retired surgeon enjoying the comforts of retirement in London, rehearses the conversation he will finally have with her. It's been years since he has seen her, and he has spent much of that time polishing the confession he wants to make to her. But as her visit draws closer, he finds his memories to be freshly torturous. He recalls leaving his childhood home in India to accept a dream job, working for a state hospital in a prosperous oil monarchy. Suddenly, he'd had access to a lifestyle that he would never have had back home. Money and success came quickly . . . as long as he performed certain tasks for the state. The price for that proved steep and often unbearable, especially to a wife and daughter who watch him walk the perilous path of lifelong ambition. Tell Her Everything is a tense, visceral, and moving novel about a father's love for his daughter, and about a medical professional grappling with remorse, shame and despair. Recalling the work of Ishiguro, Coetzee and Kafka, it asks: Where does one draw the line between empathy

and sacrifice? Between integrity and survival? Between prosperity and love?

what shall i cook today: Finding Your Roots, Season 2 Henry Louis Gates Jr., 2016-01-28 Who are we, and where do we come from? The fundamental drive to answer these questions is at the heart of Finding Your Roots, the companion book to the hit PBS documentary series. As scholar Henry Louis Gates Jr. clearly demonstrates, the tools of cutting-edge genomics and deep genealogical research now allow us to learn more about our roots and look further back in time than ever before. In the second season, Gates's investigation takes on the personal and genealogical histories of more than twenty luminaries, including Ken Burns, Stephen King, Derek Jeter, Governor Deval Patrick, Valerie Jarrett, and Sally Field. As Gates interlaces these moving stories of immigration, assimilation, strife, and success, he provides practical information for amateur genealogists just beginning archival research on their own families' roots and details the advances in genetic research now available to the public. The result is an illuminating exploration of who we are, how we lost track of our roots, and how we can find them again.
