As I Lying Dying: Unraveling the Layers of William Faulkner's Masterpiece

In the vast landscape of American literature, few works evoke the profound depths of human despair, familial complexity, and existential reflection quite like William Faulkner's *As I Lying Dying*. This novel, published in 1930, stands as a challenging yet rewarding exploration of the Bundren family's tumultuous journey to bury their deceased matriarch, Addie Bundren. The phrase "as I lying dying"—a direct echo of the novel's narrative voice—captures the fragmented, stream-of-consciousness style that Faulkner employs, immersing readers in the subjective experiences of multiple characters as they grapple with mortality, identity, and the burdens of the past.

Understanding the Context of *As I Lying Dying*

The Novel's Background and Significance

William Faulkner, renowned for his innovative narratives and complex characters, crafted *As I Lying Dying* amidst the tumult of early 20th-century America, particularly in the segregated South. The novel is part of Faulkner's larger Yoknapatawpha County saga but stands out for its experimental narrative techniques, including shifting perspectives and non-linear storytelling.

The title itself is derived from a line in the novel, spoken by the character Darl Bundren, and exemplifies Faulkner's interest in the fluidity of consciousness and the ambiguity of truth. The story centers on the Bundren family's odyssey to honor their mother's dying wish to be buried in her

hometown of Jefferson, Mississippi. Their journey becomes symbolic of deeper themes—death, decay, family loyalty, societal decay, and the human condition.

Structural Overview: An Innovative Narrative Approach

Multiple Perspectives and Stream of Consciousness

One of the defining features of *As I Lay Dying* is its narrative structure. Faulkner employs a collective narrative voice, with each chapter narrated by a different character, often in a stream-of-consciousness style. This technique allows readers to access the inner thoughts and perceptions of each character, constructing a multifaceted view of the events.

Key Narrators:

- Darl Bundren: The most introspective and enigmatic narrator, whose perspective offers philosophical insights but also raises questions about reliability.
- Dewey Dell Bundren: The pregnant daughter, whose internal struggles reflect themes of desire, shame, and vulnerability.
- Vardaman Bundren: The young son, whose simplistic yet profound observations reveal innocence and confusion.
- Anse Bundren: The patriarch, whose self-interest and stubbornness drive the family's journey.
- Cora Tull: The devout neighbor, providing moral and religious commentary.
- Vernon Tull: Cora's husband, offering pragmatic and sometimes cynical perspectives.

Non-Linear Timeline and Fragmentation

The narrative does not follow a chronological order. Instead, it jumps between past and present, memories and immediate perceptions, mimicking the human mind's fragmented way of processing trauma and death. This approach challenges readers to piece together the story, engaging actively

with the text.

Major Themes Explored in *As I Lay Dying*

Family and Loyalty

The Bundren family's dynamics reveal tensions, sacrifices, and selfishness. Their loyalty is tested by personal ambitions, suffering, and societal pressures. The journey underscores the complex obligations within familial bonds.

Identity and Subjectivity

Faulkner's use of multiple narrators and shifting perspectives emphasizes the fluidity of identity. Each character perceives reality differently, raising questions about the nature of truth and the reliability of individual perception.

Societal Decay and Isolation

Set against the backdrop of the segregated South, the novel reflects societal decay, poverty, and alienation. The characters' struggles mirror broader themes of cultural decline and moral ambiguity.

Character Analysis: Unpacking the Key Figures

Darl Bundren: The Enigmatic Narrator

Darl is arguably the most compelling character, serving as the novel's primary voice. His insights are poetic and philosophical, often blurring the line between sanity and madness. His perception of reality, especially his awareness of the family's secrets and his own impending mental unraveling, makes him a central figure in understanding the novel's deeper messages.

Addie Bundren: The Catalyst

Although Addie's death initiates the story, her character is revealed through flashbacks and her own reflections. She embodies themes of existential despair, and her introspections reveal her feelings of insignificance and desire for authentic expression.

The Family Members

- Anse Bundren: Driven by self-interest, his stubbornness prolongs the journey, symbolizing stubborn adherence to tradition and pride.
- Dewey Dell: Her pregnancy and desperation reflect themes of female vulnerability and societal judgment.
- Vardaman: The young boy's simplistic understanding of death ("My mother is a fish") offers poignant insights into childhood innocence.
- Cora and Vernon Tull: Represent religious morality and pragmatic realism, respectively, often providing contrasting viewpoints on life and death.

Literary Techniques and Stylistic Features

Stream of Consciousness and Interior Monologue

Faulkner's mastery of interior monologue immerses readers in the characters' minds, revealing their innermost thoughts. This technique creates a layered narrative, rich in symbolism and ambiguity.

Symbolism and Imagery

- The Coffin: Central to the story, symbolizing death, family duty, and the burden of tradition.
- The River: Represents change, transition, and the passage between life and death.
- The Fish: Vardaman's metaphor underscores innocence and the incomprehensibility of death.

Language and Dialect

Faulkner employs regional dialects and vernacular speech, adding authenticity and depth to character voices. This linguistic choice emphasizes regional identity and social context.

as i lying dying: Nobody's Home Arnold Weinstein, 1993-03-11 *Nobody's Home* is a bold view of the American novel from its beginnings to the contemporary scene. Focusing on some of the deepest instincts of American life and culture--individual liberty, freedom of speech, constructing a life--Arnold Weinstein brilliantly sketches the remarkable career of the American self in some of the major works of the past one hundred fifty years. Weinstein contends that American writers are haunted by the twin specters of the self as a mirage, as *Nobody*, and by the brutal forces of culture and ideology that deny selfhood to people on the basis of money, sex, and color of skin. His central thesis is that language makes possible freedoms and accomplishments that are achievable in no other realm, and that American fiction is a fascinating record of the human fight against coercion, of the kinds of maneuvering room that we may find in life and in art. This study is unique in several respects: it offers some of the keenest readings of major American texts that have ever been written, including some of the most significant works of the past decades, and it fashions a rich and supple view of the American novel as a writerly form of freedom, in sharp contrast to today's critical emphasis on blindness and co-option.

Here Barbara Ladd offers powerful new readings of three southern writers who reimagined authorship between World War I and the mid-1950s. Ladd argues that the idea of a new woman -- released from some of the traditional constraints of family and community, more mobile, and participating in new contractual forms of relationality -- precipitated a highly productive authorial crisis of gender in William Faulkner. As new women themselves, Zora Neale Hurston and Eudora Welty explored the territory of the authorial sublime and claimed, for themselves and other women, new forms of cultural agency. Together, these writers expose a territory of female suffering and aspiration that has been largely ignored in literary histories. In opposition to the belief that women's lives, and dreams, are bound up in ideas of community and pre-contractual forms of relationality, Ladd demonstrates that all three writers -- Faulkner in *As I Lay Dying*, Welty in selected short stories and in *The Golden Apples*, and Hurston in *Tell My Horse* -- place women in territories where community is threatened or nonexistent and new opportunities for self-definition can be seized. And in *A Fable*, Faulkner undertakes a related project in his exploration of gender and history in an era of world war, focusing on men, mourning, and resistance and on the insurgences of the masses -- the feminized others of history -- in order to rethink authorship and resistance for a

totalitarian age. Filled with insights and written with obvious passion for the subject, *Resisting History* challenges received ideas about history as a coherent narrative and about the development of U.S. modernism and points the way to new histories of literary and cultural modernisms in which the work of women shares center stage with the work of men.

as i lying dying: Faulkner Studies in Japan Thomas L. McHaney, Kenzaburo Ohashi, Kiyoyuki Ono, 2008-11-01 The universality of William Faulkner's vision was perhaps most formally recognized in 1950, when he was awarded the Nobel Prize for Literature. But even beyond the basic human truths embodied in the people and terrain of Yoknapatawpha County, there is a special kinship between Faulkner's novels and stories of the defeated South and the culture of postwar Japan, itself reeling from the shock of surrender and reconstruction at the hands of a foreign army. Reflecting this kinship, *Faulkner Studies in Japan* brings together some of the finest critical essays on Faulkner published in Japan in recent years along with discussions by several of Japan's leading novelists of Faulkner's influence on their work. The collection includes essay on broad aspects of Faulkner's writing-the influence of T.S. Eliot on the fiction, the pervasive use of motion imagery-and on such individual works as *Light in August* and the story of *Was from Go Down, Moses*. The book also presents an overview of Faulkner scholarship in Japan by Kiyoyuki Ono and an Afterword by Carvel Collins that recalls Faulkner's visit to Japan in 1955. At the time of Faulkner's visit, Japanese scholarly interest in his works was already firmly established and in the succeeding years the fascination has, if anything, increased. Commemorating the thirtieth anniversary of Faulkner's four-week tour, *Faulkner Studies in Japan* explore the natural literary sympathy that the novelist himself recognized when he stated: I believe that something very like [what happened in the American South] will happen here in Japan in the next few years--that out of your despair and disaster will come a group of Japanese writers whom all the world will want to listen to, who will speak not a Japanese truth but a universal truth.

as i lying dying: Seeking the Region in American Literature and Culture Robert Jackson, 2005-10-10 Regionalism often evokes provinciality and an affiliation with minor literary genres, but Robert Jackson shows that region is an integral part of American identity, providing grounding for major independent voices. Jackson offers a new critical model of region that contributes to literary and cultural study across a wide range of topics. He addresses American literature since the Civil War with particular attention to Mark Twain, William Faulkner, Flannery O'Connor, and Toni Morrison. In advancing their own diverse aesthetic and social agendas -- reactionary and progressive, theological and secular, gender-based, race-based, and above all, dissident -- these writers, Jackson argues, articulate some of the most perceptive and innovative expressions of the American region in the literary history of the United States. According to Jackson, the region

transcends both rigidly defined spatial categories -- the South of slavery, the North of freedom, the West of unlimited possibility -- and derivative cultural connotations of local color to reveal subtle and powerful insights. He provides a regional reading of Twain's greatest novel, *The Adventures of Huckleberry Finn*, and a meaningful new interpretation of the work and its place in the American canon. He explores Faulkner's obsession with regional identity and places the Mississippian's work in problematic relation to the Depression-era Nashville Agrarian movement. O'Connor, searching for a critical vocabulary to confront mainstream American literature, religion, and gender, transforms the region from a hothouse of sentimentality into a sharp, deadly weapon in her short fiction. Morrison's brilliant appropriation of region enables her to fashion an aesthetic that is both race-conscious and endowed with revisionist agency; through the region she imagines a new grounding for American identity. Jackson illuminates the importance of rethinking long-established assumptions and demonstrates the vast potential of the region in critical considerations of American literature and culture. Even as he devotes significant attention to realism, modernism, southern literature, and African American literature, he speaks to a wide range of fields in American Cultural studies.

as i lying dying: As I Lay Dying Novel by William Faulkner Illustrated William Faulkner, 2021-11-28 The book is narrated by 15 different characters over 59 chapters. It is the story of the death of Addie Bundren and her poor, rural family's quest and motivations--noble or selfish--to honor her wish to be buried in her hometown of Jefferson, Mississippi. In the novel's first chapters, Addie is alive, though in ill health. Addie and others expect her to die soon, and she sits at a window watching as her firstborn child, Cash, builds her coffin. Anse, Addie's husband, waits on the porch, while their daughter, Dewey Dell, fans her mother in the July heat. The night after Addie dies a heavy rainstorm sets in; rivers rise and wash out bridges that the family will need to cross to get to Jefferson. The family's trek by wagon begins, with Addie's non-embalmed body in the coffin. Along the way, Anse and the five children encounter various difficulties. Stubborn Anse frequently rejects any offers of assistance, including meals or lodging, so at times the family goes hungry and sleeps in barns. At other times he refuses to accept loans from people, claiming he wishes to be beholden to no man, thus manipulating the would-be lender into giving him charity as a gift not to be repaid. Jewel, Addie's middle child, tries to leave his dysfunctional family after Anse sells Jewel's most prized possession, his horse, yet Jewel cannot turn his back on them through the tribulations of the journey to Jefferson. Cash breaks a leg and winds up riding atop the coffin. He stoically refuses to admit to any discomfort, but the family eventually puts a makeshift cast of concrete on his leg. Twice, the family almost loses Addie's coffin--first, while crossing a river on a washed-out bridge (two mules are lost), and second, when a fire of suspicious origin starts in the barn where the coffin is being stored for a night.

as i lying dying: Reading Faulkner Wesley Morris, Barbara Alverson Morris, 1989 The general argument advanced by the Morrises in this ambitious work revolves around the idea that William Faulkner is deeply critical of the prevailing Southern myth and discourse; furthermore, that his narratives are an attempt to discover and amplify alternative voices within that dominant milieu. Those voices and the stories they tell are most often those of the unprivileged in race, class, and gender--the black, the poor white, the woman, the neurotic, and so forth--who act out the disintegration of Southern culture even as they may be said to hold it together in a communal act of mythmaking. This reading thus makes the case (a largely revisionary one) for Faulkner as a fully engaged political writer, a writer embroiled in the process of the subversion and dissolution not only of dominant Southern myth, but of dominant Southern reality as well. Structured in the way Faulkner imagined his entire fictional universe--as a single narrative--Reading Faulkner's incremental design results in a story that has much of the drive and force of Faulkner's story itself.

as i lying dying: Peculiar Whiteness Justin Mellette, 2021-03-01 Peculiar Whiteness: Racial Anxiety and Poor Whites in Southern Literature, 1900–1965 argues for deeper consideration of the complexities surrounding the disparate treatment of poor whites throughout southern literature and attests to how broad such experiences have been. While the history of prejudice against this group is not the same as the legacy of violence perpetrated against people of color in America, individuals regarded as “white trash” have suffered a dehumanizing process in the writings of various white authors. Poor white characters are frequently maligned as grotesque and anxiety inducing, especially when they are aligned in close proximity to blacks or to people with disabilities. Thus, as a symbol, much has been asked of poor whites, and various iterations of the label (e.g., “white trash,” tenant farmers, or even people with a little less money than average) have been subject to a broad spectrum of judgment, pity, compassion, fear, and anxiety. Peculiar Whiteness engages key issues in contemporary critical race studies, whiteness studies, and southern studies, both literary and historical. Through discussions of authors including Charles Chesnutt, Thomas Dixon, Sutton Griggs, Erskine Caldwell, Lillian Smith, William Faulkner, and Flannery O’Connor, we see how whites in a position of power work to maintain their status, often by finding ways to recategorize and marginalize people who might not otherwise have seemed to fall under the auspices or boundaries of “white trash.”
