Ernest Barker, 2021-05-12 With his special forces training completed, Sergeant Roland Barker was allocated to Operation Arundel as its radio operator. Led by Major Bill Smallwood, he was parachuted into the Dolomites in 1944. The team's brief was to cause havoc in the area around the Italian border and to infiltrate into Austria. During the mission, Major Smallwood was injured in a fall and was unable to move rapidly. Despite their best efforts, both Smallwood and Barker were subsequently captured by pursuing German troops who they were unable to outpace. Barker provides a vivid account of being 'interrogated' by the SS and Gestapo and despite the threats and the terrible conditions, the true

nature of their mission was never revealed to the enemy. Having survived these experiences, he was incarcerated in Stalag Luft XVIII in Southern Austria. Ever defiant, Barker escaped by having himself admitted to the camp hospital and made his way into Hungary, from where, as this account of his wartime service reveals, he was eventually repatriated to the UK. After the war Barker opted to remain in the Army, at which point he took a commission. Promoted to Major, Barker became the Officer Commanding 22 SAS in Malaya. He was killed in a helicopter crash in Malaya in 1953, before he could see through his plan to have his memoir published.

Secret Agent Behind Enemy Lines Brook G Bangsboell, 2025-03-31 The remarkable life of Leif Bangsboell, a Danish sailor, aviator, Green Beret, and O.S.S. secret agent during WWII. More than a Viking call to arms, An O.S.S. Secret Agent Behind Enemy Lines chronicles the incredible life of Leif Bangsboell up to and including the Second World War. Compiled by Bangsboell's son, this book explores the life of, variously, a Danish sailor, Norwegian aviator, American airborne serviceman, Green Beret soldier, and secret agent with the Office of Strategic Services. Brook G. Bangsboell heard his father's stories told and retold around the dinner table as far back as he could remember. He recalled his father talking of his christening at five weeks old aboard His Danish Majesty's Ship Grønsund in the middle of the North Sea during the First World War; about his attendance as a young man at German Chancellor Adolf Hitler's 50th birthday celebration in Berlin; and about his unplanned role in a rescue mission off the embattled shores of Dunkirk. Invigorated by the heroic efforts of the Allies at Dunkirk, Leif then joined the Norwegian Air Force and was trained as a pilot in Canada as part of the British Commonwealth Air Training Plan. Prior to being assigned to an operational squadron, Flight Sergeant Bangsboell was recruited into the United States Army by Colonel William 'Wild Bill' Donovan to become a field agent for the Office of Strategic Services, or O.S.S.. After completing his O.S.S. training at the top-secret facility known as Camp X, located on the shores of Lake Ontario, Second Lieutenant Bangsboell was sent to the United Kingdom to work with the O.S.S.' counterparts at Special Operations Executive. In October 1944 Lieutenant Bangsboell was parachuted into the dark skies over occupied Denmark to lead the Danish Resistance forces in the central region of Jutland, operating out of the city of Aarhus. Operating under the field name of Mr. Jorgen Bech, ostensibly a Danish Maritime Engineer and businessman, Bangsboell trained Danish resistance fighters, planned and led sabotage missions against the German occupation forces and hunted down and eliminated known collaborators. For ten months he played a dangerous and daring game of cat and mouse with the Gestapo. In the spring of 1945, Lieutenant Bangsboell was reassigned by the O.S.S. to Copenhagen where during the final days of the war, he led an assault to capture the fortified German garrison at Ryvangen. His efforts in this assault would earn him the United States Distinguished Service Cross as well as the Danish Royal Knights Order of King Christian X - sighted for 'courage and selfless bravery in the face of the enemy'.

Her family sheltered Jews fleeing the Nazis, including Jewish children sent away by their terrified parents. But soon her homeland was also under Nazi rule. As the Nazi occupation escalated, Marthe's sister was arrested and sent to Auschwitz and the rest of her family was forced to flee to the south of France. Always a fighter, Marthe joined the French Army and became a member of the intelligence service of the French First Army. Marthe, using her perfect German accent and blond hair to pose as a young German nurse who was desperately trying to obtain word of a fictional fiancé, would slip behind enemy lines to retrieve inside information about Nazi troop movements. By traveling throughout the countryside and approaching troops

sympathetic to her plight--risking death every time she did so--she learned where they were going next and was able to alert Allied commanders. He lived in the same street as its fictional 'razor king', Johnnie Stark, and subsequently realised that a lot of the old characters represented in the book were still around as late as the 1960s. Men still wore bunnets and played pitch and toss; women still treated the steamie as their social club. The razor gangs were running amok once again, and filth, violence, crime, rats, poverty and drunkenness abounded, just like they did in *No Mean City*. MacFarlane witnessed the last days of the old Gorbals as a major regeneration programme, begun in 1961, was implemented, and, as a street boy, he had a unique insight into a once great community in rapid decline. In this engrossing book, MacFarlane reveals what it was really like to live in the old Gorbals.

behind enemy lines real story: *The True Story of Catch-22* Patricia Chapman Meder, 2012-08-21 The real-life companion to the literary classic—written and illustrated by the daughter of the 340th Bomb Group's commander, Catch-22's Col. Cathcart. After the publication of his bestselling novel *Catch-22*, Joseph Heller usually chose to deny that any of his richly drawn characters were based on his actual war mates. However, to those who served with Heller in the 340th Bomb Group, the novel's characters were indeed recognizable—the hard-drinking, vengeful, and disillusioned Chief White Halfoat; young, sliced-in-half Kid Sampson; shrieking, frenzied Hungry Joe; Col. Cathcart; Gen. Dreedle; Yossarian; and that capitalist supreme, Milo Minderbinder. In this book, written and colorfully illustrated by the daughter of the 340th Bomb Group's commander, Col. Willis Chapman, we finally encounter the real men and combat missions on which the novel was based. While Heller's fully developed characters stand solely, solidly, and uniquely on their own merits, *The True Story of Catch-22* proves that any resemblance to persons living or dead is, in fact, actual. This three-part book blends fact, fancy, and history with full-blown original illustrations and rare, previously unpublished photos of these daring USAAF flyers and their Corsica-based B-25 Mitchell. Along with descriptions of the 340th's real wartime experiences, the work includes twelve men of the Bomb Group relating richly told tales of their own. "In these pages it is a great pleasure to finally see the real story behind the fictionalized account, and to be even more impressed." —Scott Carpenter, NASA astronaut "Heller's satiric caricatures are here shown to have stemmed from patriotic, courageous, highly decorated airmen who daily performed heroic wartime feats against overwhelming obstacles." —Library Journal

behind enemy lines real story: *Spam Kings* Brian S McWilliams, 2014-09-09 More than sixty

percent of today's email traffic is spam. In 2004 alone, five trillion spam messages clogged Internet users' in-boxes, costing society an estimated \$10 billion in filtering software and lost productivity. This expose explores the shadowy world of the people responsible for today's junk-email epidemic. Investigative journalist Brian McWilliams delivers a fascinating account of the cat-and-mouse game played by spam entrepreneurs in search of easy fortunes and anti-spam activists. McWilliams chronicles the activities of several spam kings, including Davis Wolfgang Hawke, a notorious Jewish-born neo-Nazi leader. The book traces this 20-year-old neophyte's rise in the trade, where he became a major player in the lucrative penis pill market - a business that would eventually make him a millionaire and the target of lawsuits from AOL and others. Spam Kings also tells the story of anti-spam cyber-vigilantes like Susan Gunn, a computer novice in California, whose outrage led her to join a group of anti-spam activists. Her volunteer sleuthing put her on a collision course with Hawke and other spammers, who sought revenge on their pursuers. The book sheds light on the technical sleight-of-hand and sleazy business practices that spammers use - forged headers, open relays, harvesting tools, and bulletproof hosting - and warns of the ever-inventive spammers' development of new types of spam.--Jacket.

This love grew to a desire to go to Germany to further attempt to achieve his original goals. It didnt take long for him to become disenchanted after he finally arrived in Germany as the Germans had different plans for him. He was trained as an espionage agent and saboteur by the SS and returned to the United States to carry out his mission with a fellow German national, Eric Gimpel. After a 54-day submarine journey they landed near Bar Harbor Maine with \$60,000, diamonds, fire arms, and espionage equipment and made they way to New York City that was to become their base of operation. However, after three weeks, mistrust developed between the two spies. Colepaugh broke loose from Gimpel with the money but was soon outsmarted by the seasoned spy. Soon after, Colepaugh decided to turn himself in to the FBI and provided them with enough information that culminated in the capture of Gimpel a few days later. They were tried and convicted by military tribunal and sentenced to be hanged, but presidential politics and world events led to a change in their sentence to life in prison. Colepaugh served 15 years in Federal prison and was released in 1960. For the next 42 years of his life he functioned as a successful businessman, community member, and husband, with his past only known to a select few including his wife. In 2002 he was exposed by a journalist and lived in seclusion the remaining three years of his life.

behind enemy lines real story: The True Story of the Wooden Horse Robert J. Laplander, 2014-04-30 This in-depth historical study reveals fascinating new insight into the famous Wooden Horse escape of three Allied POWs from a Nazi prison camp. In 1943, three British prisoners of war plotted a daring and ingenious escape from Stalag Luft III by making use of a hollowed-out gymnastic vaulting horse. A year before the events of The Great Escape—which would take place at the same camp—Lieutenants Michael Codner, Eric Williams, and Oliver Philpot executed the plan that Williams later recounted in his classic memoir The Wooden Horse. Now Robert Laplander presents a revealing new account in this comprehensive study of Stalag Luft III and the many attempts at escape that occurred there during the Second World War. As Laplander explains, Williams' memoir was impeded by both a lack of necessary historical scope and regulations of the Crown. In The True Story of the Wooden Horse, Laplander makes use of newly released official documents and eye-witnesses reports. Supplemented by illustrations, including shots of a full-scale replica of the vaulting horse, this volume presents an exhaustive account of the escape in its entirety, set in the context of the camp's history.

'Boys from these parts don't join the RAF', he was told on more than one occasion. But they were wrong. After many months undergoing selection and training he eventually made it into the air crew of 196 squadron. It was there he embarked on a love affair with the Stirling Bomber, and it was there that he met up with his crew - his brothers in arms. With in-depth research, Steve Holmes' inspirational, harrowing and at times humorous book charts the wartime exploits of his father, John 'Sherlock' Holmes, and his flight crew. Through many hours of research and contact with living relatives of 'Sherlock's Squadron,' Steve has pulled together a unique and personal insight into the most brutal and devastating armed conflict in history. Verified and independently confirmed by the MOD, War Office, Bomber Command and preserve navigators' records and pilots' log books of the time, this is a comprehensive and compelling account of World War II from the eyes of a group of young RAF men from distant corners of the globe.

behind enemy lines real story: Fishers of Men - The Gripping True Story of a British Undercover Agent in Northern Ireland Rob Lewis, 2017-09-07 Fishers of Men is the true account of secret operations in Northern Ireland carried out by the British Army's most clandestine unit. It tells the unique story, through Rob Lewis's own extraordinary experiences, of an essential instrument in the fight against terrorism, that of covert intelligence gathering. The men and women who work in this field are a special breed who undertake hazardous risks with unflinching tenacity and professionalism - the price of negligence is high, and the need for secrecy must be preserved even at the expense of personal relationships. The sheer determination and single-mindedness required to achieve selection to this secret world is graphically described, as well as how, against seemingly impossible odds, the operators of the FRU managed to persuade terrorists and their close associates to turn informer. The methods the unit used to target, recruit and handle their contacts, how they protected their informants, and the terrifying life their agents led are all told by an agent handler, using many of his cases to illustrate the sharpness, intelligence (and sense of humour) essential to the job. Fishers of Men fills a gap in the available information about the secret war against terrorism in Northern Ireland. It is a gap that has so far remained largely unexplored - until Rob Lewis's informative and explosive book.
