korean the good doctor: *Jesus of Korea* Paul Hyoshin Kim, 2016-05-19 In 2010, nearly 30 percent of South Koreans—a country with a Confucian tradition over 1000 years old—identify as Christian, the largest percentage of Christians in an Asian nation, aside from the Philippines. Korea also boasts of having the largest church in the world; it also has the largest Presbyterian, Methodist, and Pentecostal churches in the world. Its vibrant spirituality, devout church life, and missionary zeal are well known around the world; its number of missionaries—nearly 20,000—is second only to US churches. How can we explain this religious revolution in modern Korea? Many people look to the 1970s and 1980s to find the cause of the rapid growth of Christianity in Korea. But to understand the real story behind the growth of the Korean church, we need to rediscover the story of the American missionary enterprises of the late nineteenth and early twentieth centuries. There, we will learn how the story of the “American Christ” came to Korea and gradually became a part of the Korean people's story. After the missions, he is no longer the American Christ, but Jesus of Korea.

For two years he served under US Minister Horace Allen until a more powerful position opened as chief adviser to the Korean government in 1900. As the most influential foreign adviser, Sands attempted to convince Emperor Kojong to undertake reforms and to promote Korean neutrality to keep the country independent. The author argues, however, that Sands was hampered by corrupt officials who had the ear of the emperor, by the Japanese and the Russians who competed for influence and who tried to replace Sands with their own advisers, and, ironically, by Horace Allen. When he lost the confidence of Kojong and when the Russo-Japanese War broke out, Sands was forced out, having failed to maintain Korea's independence as Japan moved to take over. Although his subsequent activities included other diplomatic postings, teaching, and writing, he maintained an interest in Korea and offered his services as World War Two raged.

Remember the Moonie-inspired assassination of Japan's former prime minister, Shinzo Abe, in July 2022? In late 2023 the Japanese government asked the courts to dissolve the Japanese Unification Church and mulled legislation to strip its assets for victim reparations. A timely moment to reflect on a powerfully new, now self-destructed, religious experience by an eyewitness. In 1981 Sun Myung Moon's message of unconditional love revitalizes an idealistic, embittered disabled veteran. But it's more a Bushido-flavored Imperial Japanese Caesarism than God's individual liberty. Broken on the rack of faith, Chris locks horns with victimocracy's blame game. He hits rock bottom then an agonizing but liberating rebirth from guilt, domestic violence, fanaticism, excommunication, shipwreck, a shattering depression, imploding faith, near suicide, and shirking. Snarky. Exciting. The first to analyze the nuts and bolts of America's Unification Church from its missionary and business trenches to its top leaders told by the shark's meal charging headlong down its gullet. Chris' 21-year odyssey gravels along from recruitment to serial rejection, street hack to lauded manager, livid victim to joyful victor. If you were ever a Unificationist or some stripe of ideologue; a domestic violence victim or maybe a perpetrator; a near-suicide feeling crushed 'neath life's ironshod boot or love's heartless hate; or just can't stop shooting holes in your feet, this book might open your awareness to paralyzing, scapegoating victimism and a path of transitioning to your own life-giving victorism.
