monster high ghouls rule: Monstrous Possibilities Amanda Howell, Lucy Baker, 2022-11-04

This book focuses on how the abject spectacle of the 'monstrous feminine' has been reimagined by recent and contemporary screen horrors focused on the desires and subjectivities of female monsters who, as anti-heroic protagonists of revisionist and reflexive texts, exemplify gendered possibility in altered cultures of 21st century screen production and reception. As Barbara Creed notes in a recent interview, the patriarchal stereotype of horror that she named 'the monstrous-feminine' has, decades later, 'embarked on a life of her own'. Focused on this altered and renewed form of female monstrosity, this study engages with an international array of recent and contemporary screen entertainments, from arthouse and indie horror films by emergent female auteurs, to the franchised products of multimedia conglomerates, to 'quality' television horror, to the social media-based creations of horror fans working as 'pro-sumers'. In this way, the monograph in its organisation and scope maps the converged and rapidly changing environment of 21st century screen cultures in order to situate the monstrous female anti-hero as one of its distinctive products.

Through an examination of the plastic bodies that fill our shelves and toy boxes, Action Figure Studies can inform the next generation of toys.

monster high ghouls rule: Fear Itself Melvin E. Matthews, Jr., 2009-07-15 This book demonstrates how horror films of the 1930s and 1940s reflected specific events and personalities of the era, most notably the Great Depression and World War II. Beginning with Dracula and Frankenstein (1931), it relates the many ways that horror films and society intersected: Franklin D. Roosevelt's skepticism toward conventional wisdom and the public's distrust of experts was mirrored in Dr. Jekyll and Mr. Hyde and Murders in the Rue Morgue; the freaks in Tod Browning's 1932 film of the same name revolted against the powerful people of the circus, much like the Bonus Army protested the sufferings of the Depression; King Kong's rampage on New York personified the anti-New York sentiment in the nation at large; Lon Chaney Jr.'s Wolf Man symbolized the experience of his creator, Curt Siodmak, as a Jewish refugee from Nazi Germany.
