only for the week natasha bishop: Design Out Crime Ian Colquhoun, 2007-03-14 Here is a book about the practical design of communities and housing in which people can enjoy a good quality of life, free from crime and fear of crime. Recognising that crime, vandalism and anti-social behaviour are issues of high public concern, and that the driving forces behind crime are numerous, this book argues that good design can help tackle many of these issues. It shows how, through integrating simple crime prevention principles in the design process, it is possible, almost without notice, to make residential environments much safer. Written from the perspective of an architect and town planner, this book offers practical design guidelines through a set of accessible case studies drawn from the UK, USA, The Netherlands and Scandinavia. Each example illustrates how success comes when design solutions reflect local characteristics and where communities are truly sustainable; where residents feel they belong, and where crime is dealt with as part of the bigger picture of urban design.

only for the week natasha bishop: The Beckmeyer Family Complete Collection (Family Lodge Small Town Instalove) Bree Kraemer, 2023-05-25 Hooked Barrett Beckmeyer lived his whole life knowing what he wanted. He wanted to be outside, on the lake at his family's resort. Fishing was his

life. In the summer, in the winter, it didn't matter. He loved it. He didn't know anything was missing. Until Eden. One night with her and nothing was the same. Eden Craig wasn't looking for more than a night of fun. That was all Barrett was supposed to be. One night and then forget him. Only forgetting him was impossible. And when she's asked to be the lead architect on an addition at Maple Ridge Resort, she knows avoiding him will be inevitable. She was hooked from the second he sat down next to her, but did he feel the same? Sparked Nina Beckmeyer had been in love since she'd been sixteen. There was just one problem. The guy had no idea. After spending two summers and countless weekends with her family, Donovan Stewart was gone in the blink of an eye. All these years later, she's doing just fine, even if all her dreams are of a man she knows she can never have. Until he shows back up. Donovan has loved Nina since the moment he saw her thirteen years ago. It happened in a flash and has never gone away. But she's his friend's sister, and there is no way Emmett would be okay with them together. Or would he? When he arrives in town as a favor to Nina's family, the same spark of awareness that had been there so many years ago is even stronger. Donovan knows it's now or never, and he's not willing to settle for never. Is the love they each secretly felt all those years ago a love that is real? Shocked Emmett Beckmeyer had always been what most people would call stable. He came to work every day at his family's resort, did his job, had just the right amount of fun, and gave good advice. That all changed after a small fire in the newly added spa where his sister and the electrician were trapped. Since that moment, nothing has been the same. Maybe it was the fire telling him life was short or maybe it was the gorgeous, sexy electrician, Morgan, who he couldn't stop thinking of. He wanted her badly but knew from past experience that women weren't looking for long-term when it came to him. Something that had held him back long enough. Morgan's life was a mess. She'd moved to the small Wisconsin town of Lyden to meet her real dad, and from there, her life had been twisted every which way but up. After the fire, she was having a hard time sleeping and dealing with all that was on her plate. The very last thing she needed was to be having dreams about Emmett Beckmeyer, the man who saved her from the fire. He despised her, or at least that's what she thought. Until a party at his parent's house, where that all changed. Kneaded Decker Beckmeyer has a great life. He loves his family and his job. only for the week natasha bishop: Discontented Miracle: Growth, Conflict, And Institutional Adaptations In China Dali L Yang, 2007-05-11 China has been enjoying stellar economic growth for more than a quarter of a century. Yet the rapid growth amid market-oriented reforms has not been an unalloyed blessing. The "China Miracle" has been accompanied by soaring income inequality and rising social tensions, over-taxing China's resource base and contributing to an environmental crisis. Despite substantial improvement in the standard of living and other social indicators, China's leaders have, in the aftermath of the Tiananmen crackdown, steadfastly held back the opening up of the political system. In this volume, contributors from the disciplines of economics, political science, and sociology examine how existing institutions, broadly defined, might have exacerbated tensions in China's evolving economy, society and polity as well as how institutional developments have been introduced to deal with existing or emerging conflicts and tensions.

only for the week natasha bishop: *A Rhetoric of Reflection* Kathleen Yancey, 2016-08-15 Reflection in writing studies is now entering a third generation. Dating from the 1970s, the first

generation of reflection focused on identifying and describing internal cognitive processes assumed to be part of composing. The second generation, operating in both classroom and assessment scenes in the 1990s, developed mechanisms for externalizing reflection, making it visible and thus explicitly available to help writers. Now, a third generation of work in reflection is emerging. As mapped by the contributors to *A Rhetoric of Reflection*, this iteration of research and practice is taking up new questions in new sites of activity and with new theories. It comprises attention to transfer of writing knowledge and practice, teaching and assessment, portfolios, linguistic and cultural difference, and various media, including print and digital. It conceptualizes conversation as a primary reflective medium, both inside and outside the classroom and for individuals and collectives, and articulates the role that different genres play in hosting reflection. Perhaps most important in the work of this third generation is the identification and increasing appreciation of the epistemic value of reflection, of its ability to help make new meanings, and of its rhetorical power—for both scholars and students. only for the week natasha bishop: The Politics of Gender Equality Carol Johnson, 2024-08-22 This open access book provides the first in-depth study of the development of federal gender equality politics and policy in Australia from the 1970s to the present day. Australia has a history of gender equality innovation, including granting women's suffrage long before equivalent countries. From the 1970s on, it became the first country to introduce a women's adviser, femocrats (feminist bureaucrats) and gender responsive budgeting but then fell behind, partly due to the influence of Anglosphere neoliberalism. However, the Albanese government has pledged to make Australia a world leader in gender equality again. The book situates Australia in an international context, assessing the useful, though sometimes salutary, lessons which the Australian experience provides. It engages with key literature, including feminist political theory, discursive framing analysis, gendered public policy analysis, LGBTIQ+ issues, path dependency, and gender and leadership. It will interest academics, undergraduate and postgraduate researchers, public policy experts and practitioners, and a broader readership interested in issues of gender equality. The book makes innovative contributions to the study of the politics of gender equality policy, addressing what a gender equality policy agenda could look like if the needs of women, in all their intersectional social diversity, were the driving force. In doing so, it addresses a range of issues that are impacting the future of women, including an ongoing pandemic, technology, education and training agendas, issues of sovereign capability, securitisation, climate change and the growth of campaigns that oppose so-called “gender ideology”. It explores how current government agendas, such as the focus on wellbeing, could be made even more gender-inclusive. Finally, the book suggests that Australia, as a multicultural but predominantly Western, settler-colonial society situated in the Asia-Pacific has some potentially unique insights to offer in a world facing major geoeconomic and geopolitical

change.
