As police and the national press investigated the 'missing millions' loaned by local government - for an unfinished stand - and the borough council understandably demanded their money back, things were looking bleak at Northampton Town Football Club. With staff unpaid and fans demanding answers in vain, HMRC's winding-up order threatened to send the club into administration or even oblivion. Against a backdrop more fitting for a soap opera, there emerged a unique, almost surreal story of solidarity and success. Five months later - shattering a host of club records in the process - the Cobblers were champions before any other League club had even sealed promotion. The Year of the Cobbler reflects upon life as a lower division football fan and, more specifically, a season which both nightmares and sweet dreams are made of... the cobblers football club: The Future of Football Jon Garland, Dominic Malcolm, Mike Rowe, 2013-11-05 World football has undergone unprecedented change over the past decade. On the field, the richest European clubs have retained their pre-eminence, but with multinational playing squads backed up by global marketing industries. Club ownership rests increasingly with impersonal shareholders, rather than local business figures. Domestic and international football competitions are being transformed by the financial power of the mass media. The world's top players are paid far more than their peers from previous eras. This volume covers a wide range of topical issues which football players, fans and administrators will have to confront in the years to come.

the cobblers football club: Supporter Ownership in English Football Chris Porter, 2019-02-07 This book presents a fresh perspective on football fandom in England, going beyond existing debates surrounding the structural transformations English football has seen in recent decades, to consider the contested cultural ground upon which football fandom exists. Supporter Ownership in English Football connects cultural conflict experienced across society associated with negotiating structural changes such as globalisation, commodification and social exclusion, with supporter ownership in football - which is in itself an expression and reflection of broader social and political shifts in class-consciousness. Discourses of identity, authenticity, loyalty, ownership and above all, the possibilities and limitations for ordinary people to influence change, play a decisive role in how fans come to decide whether they could, or should, have a meaningful say in the future of their club and the game itself. While celebrating the achievements, progress and potential of the supporter ownership movement, the book is also careful to take account of the various setbacks, contradictions and limiting tendencies that continue to shape its developmental trajectory. Porter's relation of football supporter ownership to the political and social class dynamics of contemporary society will

be of interest to scholars of sport studies, sociology, cultural studies and politics, and those interested in social movements, consumerism, identity, authenticity and community.

the cobblers football club: Soccer's Missing Men J.A. Mangan, Colm Hickey, 2018-10-24 Now unknown or forgotten, influential schoolmasters took the game of association football to many parts of England. They had several roles: they brought the game to individual schools, they established regional and national leagues and associations, and they founded professional football clubs. They also exported the game around the world, working as moral missionaries, passionate players and energetic entrepreneurs. The role of teachers in association football is a much neglected aspect of English cultural history. It is a story that deserves to be told because it allows a fundamental reappraisal of the status and position of these teachers in late nineteenth century and early twentieth century society. He wanted to discover the true character of the English game, among those who ate, slept and dreamt cricket in all corners of the country. The results are charming, heart-warmingly funny, and often surprising. In conversation with the kind of people who give the game its backbone -a gateman at Leicester, the groundsman at Swansea, a programme-seller at Bristol, a quintessential cricket-mad parson at Chelmsford -the author evokes some colourful ghosts, from the ubiquitous W.G. Grace (once punched in the face in Northampton) to Prebendary Wickham of Martock, and hears some strange stories -the Derbyshire captain absconding with the cash (and ending up as a tailor for the King of Spain); the Nottinghamshire team fielding in lounge suits; the match in which the schoolboy Douglas Jardine was reduced to tears by Gubby Allen's gamesmanship. The Character of Cricket is both a celebration of the national game and an evocation of a particular way of life -happily one still pursued in the England of today. Cricket books should meet one or more of these necessary requirements, being either literate and amusing to read, or meticulously researched, or original in concept. Tim Heald's The Character of Cricket triumphantly meets all three. Benny Green, Sunday TimesFirst-rate stuff, in the great and ... timeless tradition of English cricket writing. Punch

Trains are deeply embedded in the national psyche and folklore - yet it is considered uncool to care about them. For Matthew Engel the railway system is the ultimate expression of Britishness. It represents all the nation's ingenuity, incompetence, nostalgia, corruption, humour, capacity for suffering and even sexual repression. To uncover its mysteries, Engel has travelled the system from Penzance to Thurso, exploring its history and talking to people from politicians to platform staff. Along the way Engel ('half-John Betjeman, half-Victor Meldrew') finds the most charmingly bizarre train in Britain, the most beautiful branch line, the rudest railwayman, and - after a quest lasting decades - an Individual Pot of Strawberry Jam. *Eleven Minutes Late* is both a polemic and a paean, and it is also very funny.
