job2015: Non-standard work in the Nordics: Troubled waters under the still surface Ilsøe, Anna, Larsen, Trine Pernille, Bach, Emma S., Rasmussen, Stine, 2021-02-04 Available online: <https://pub.norden.org/temanord2021-503/> Most Nordic labour market and welfare state models are shaped around the notion of the standard full-time open-ended contract. However, the recent development in non-standard work (NSW) may challenge these institutions. In this TemaNord report, we analyse the recent development of NSW within the context of the Nordic models. We draw on Nordic Labour Force Survey data to map the recent development in the well-known forms of NSW, and through in-depth case studies, we explore emerging NSW practices and policy responses. There has been a fairly stable development in NSW across the Nordics, but the sector specific statistics and case studies display significant changes beneath this still surface. We find examples of novel policy responses to these developments, but the corona crisis also revealed gaps in the Nordic social- and employment protection regarding emerging forms of NSW.

job2015: Metaphors in the Discussion on Suffering in Job 3-31 Hanneke van Loon, 2018-09-11 In *Metaphors in the Discussion on Suffering in Job 3-31*, Hanneke van Loon offers a new approach to the theme of suffering in the book of Job. Her analysis of metaphors demonstrates that Job goes through different stages of existential suffering in chapters 3-14 and that he addresses the social dimension of his suffering in chapters 17 and 19. Van Loon claims that Job's existential suffering ends in 19:25, and that chapters 23-31 reflect a process in which Job translates his own experience into a call upon the audience to adopt a new attitude toward the unfortunate ones in society. The theoretical approach to metaphors is based on insights from cognitive linguistics.
