poppy montgomery blonde: Hollywood by Hollywood Steven Cohan, 2019 The backstudio picture, or the movie about movie-making, is a staple of Hollywood film production harking back to the silent era and extending to the present day. What gives backstudios their coherence as a distinctive genre, Steven Cohan argues in *Hollywood by Hollywood*, is their fascination with the mystique of Hollywood as a geographic place, a self-contained industry, and a fantasy of fame, leisure, sexual freedom, and modernity. Yet by the same token, if backstudio pictures have rarely achieved blockbuster box-office success, what accounts for the film industry's interest in continuing to produce them? The backstudio picture has been an enduring genre because, aside from offering a director or writer a chance to settle old scores, in branding filmmaking with the Hollywood mystique, the genre solicits consumers' strong investment in the movies. Whether inspiring the movie crazy fan girls of the early teens and twenties or the wannabe filmmakers of this century heading to the West Coast after their college graduations, backstudios have given emotional weight and cultural heft to filmmaking as the quintessential American success story. But more than that, a backstudio picture is concerned with shaping perceptions of how the film industry works, with masking how its product depends upon an industrial labor force, including stardom, and with determining how that work's value accrues from the Hollywood brand stamped onto the product. Cohan supports his well theorized and well researched claims with nuanced discussions of over fifty backstudios, some canonical and well-known, and others obscure and rarely seen. Covering the hundred-year timespan of feature length film production, *Hollywood by Hollywood* offers an illuminating perspective for considering anew the history of American movies.

poppy montgomery blonde: *The Immortal Marilyn* John De Vito, Frank Tropea, 2006-12-07

From the late 1940s to the early '60s, Marilyn Monroe appeared in barely thirty movies, beginning with bit parts and moving on into supporting roles for such films as *The Asphalt Jungle*, *All About Eve*, and *Clash by Night*. She soon shot to international fame and gained prominent roles in a number of classics like *The Seven Year Itch*, *Gentlemen Prefer Blondes*, and *Some Like It Hot*. By the time of her early death in 1962, she had already become established as one of the great icons of the silver screen. Even early in her career, Monroe had been a source of inspiration for playwrights, filmmakers, and others looking to cash in on her tremendous impact. In *The Immortal Marilyn: The Depiction of an Icon*, authors John DeVito and Frank Tropea chronicle the many representations of Marilyn Monroe in the performing arts, from the 1950s to the present day. In a decade-by-decade review, the authors examine how Marilyn is portrayed in four distinct modes: as herself, as a Roman à Clef character, as a referent, and as a documentary subject. By looking closely at these individual works, the authors reveal the ways in which her persona, her history, and—most of all—her image have been appropriated for both fact and fiction. From an episode of *I Love Lucy* to Arthur Miller's play *The Fall*, from adaptations of works by Norman Mailer and Joyce Carol Oates to an ever-growing list of documentaries, Monroe has been the subject of countless depictions on stage, screen, radio, and television. Monroe is adored, imitated, and idolized, and the enormous amount of material written about her—either directly or indirectly—proves that she will continue to be a source of interest and speculation. The first real analysis of all the many complex meanings that Marilyn Monroe has come to assume, this book attempts to encapsulate and understand the enormous influence the actress had on the public and the wide range of creative talents who found her such an intriguing subject.

poppy montgomery blonde: Crime Television Douglas M. Snauffer, 2006-09-30 Crime dramas have been a staple of the television landscape since the advent of the medium. Along with comedies and soap operas, the police procedural made an easy transition from radio to TV, and starting with *Dragnet* in 1952, quickly became one of the most popular genres. Crime television has proven to be a fascinating reflection of changes and developments in the culture at large. In the '50s and early '60s, the square-jawed, just-the-facts detectives of *The Untouchables* and *The FBI* put police work in the best light possible. As the '60s gave way to the '70s, however, the depictions gained more subtle shading, and *The Streets of San Francisco*, *The Rockford Files*, and *Baretta* offered conflicted heroes in more complex worlds. This trend has of course continued in more recent decades, with Steven Bochco's dramas seeking a new realism through frank depictions of language

and sexuality on television. In chronicling these developments and illustrating how the genre has reflected our ideas of crime and crime solving through the decades, author Douglas Snauffer provides essential reading for any fan. This work provides a comprehensive history of detective and police shows on television, with, among other elements, production histories of seminal programs, and interviews with some of the most important writers and producers of crime television. Besides the shows listed above, this volume will also discuss such programs as: Peter Gunn, The Mod Squad, Hawaii Five-O, Columbo, Starsky and Hutch, Charlie's Angels, Magnum P.I., Miami Vice, T.J. Hooker, Remington Steele, Cagney and Lacey, Murder, She Wrote, The Commish, Homicide: Life on the Street, Monk, and many more.

Here, Edgar Award-winning editor Otto Penzler has followed his keen sense of the supernatural to collect the most chilling and uncanny tales in the canon. These spectral stories span more than a hundred years, from modern-day horrors by Joyce Carol Oates, Chet Williamson and Andrew Klavan, to pulp yarns from August Derleth, Grege La Spina, and M. L. Humphreys, to the atmospheric Victorian tales of Rudyard Kipling, Edith Wharton, and H. P. Lovecraft, not to mention modern works by the likes of Donald E. Westlake and Isaac Asimov that are already classics. Some of these stories have haunted the canon for a century, while others are making their first ghoulish appearance in book form.
