the go giver summary pdf: Genetic Stigma in Law and Literature Alice Diver, 2023-12-18 This book critically analyses the way in which traditional sociocultural and legal biases might be perpetuated against those with unknown – or unknowable – genetic ancestries. It looks to law and works of literature across differing eras and genres focussing upon such concepts as inherited stigma, illegitimacy, orphanisation, adoption, othering, reunion, and the ‘right’ to access truths that relate to one’s original identity. Law’s role in such matters is often limited (or usurped) by custom, practice, or lingering superstitious beliefs; the importance of oral and written testimony is therefore highlighted. Characters include abandoned or orphaned figures from folk and fairy tales, Romantic and Victorian monsters and heroes, Dickensian waifs, Edwardian rescue orphans, and dystopia-set ‘rebels.’ Their insights and experiences are mirrored in various present day scenarios that speak to familial human rights abuses, not least forced adoptions and bars on accessing original information. This cross-disciplinary book drawing on Law, Literature, Sociology, Critical Adoption Studies should be of interest to those interested in and those who have been affected in some way by adoption, origin deprivation, or reunion.

the go giver summary pdf: *Linking Language, Trade and Migration* Ruriko Otomo, 2023-06-21 This book examines the effect of trade policy on language which represents an underrecognized area in the field of language policy and planning. It argues that trade policies like Japan’s Economic Partnership Agreements (EPAs) have important consequences for national language (education) policies and for discourses about language and nation. Since 2008, Japan has signed the EPAs with Indonesia, the Philippines and Vietnam to recruit migrant nurses and eldercare workers and manage their mobility by means of pre-employment language training and the Japanese-medium licensure examinations. Through the analysis of these language management devices, this book demonstrates that the EPAs are a manifestation and representation of contemporary language issues intertwined particularly with pressing issues of Japan’s social aging and demographic change. As the EPAs are intertwined with welfare, economy, social cohesion, and international political and economic relations and competitiveness, the book presents a far more complex picture of and a richer potential of language policy.

the go giver summary pdf: SUMMARY - The Go-Giver Leader: A Little Story About What Matters Most In Business By Bob Burg And John David Mann Shortcut Edition, 2021-06-17 * Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. As you read this summary, you will discover how to become a humble and caring leader. You will also discover : that the strength of a collective is the people in it, not the leader; that a good leader does not impose his authority, but invites others to progress and strive for excellence; that leadership is exercised on the ground, close to the individuals, with dedication and humility; that no one is omniscient or indispensable; that replacing the balance of power with respect and giving does not mean submitting, but rather encouraging your fellow men to do the same. There are many books, theories and advice on leadership: vertical or horizontal, more or less authoritarian, it is a constant preoccupation of leaders. But to focus so much on the abilities and conduct of an individual alone is a mistake. What really counts is the collective: the leader is there to guide and serve, to give each person the means to realize his or her potential. Through a parable on this central theme of the company, Bob Burg and John David Mann give you the keys to a new approach. It is not a model, but a state of mind: giving, emancipating, respecting and knowing how to step aside. *Buy now the summary of this book for the modest price of a cup of coffee!
