things fall apart full text pdf: Community Resources Johanna Gibson, 2016-12-05 Protection of traditional knowledge and resources is of critical concern not only to the groups involved but also to the international trading community for which these resources are of increasing economic importance. This work examines the concept of 'community', intellectual property models and additional sources for protection at international law (including environmental and human rights frameworks). Intellectual property law is critiqued as an inadequate framework to address the fundamental object of protection for the communities themselves - the management of traditional use, as well as the biological and cultural sustainability of this use. The work sets out an international framework based on the concept of 'community resources', recognizing the unique claims embodied in traditional knowledge, incorporating customary law, and facilitating community management of resources. International in perspective and scope, the book will be a valuable resource for academics and researchers in law, international relations and cultural studies.

things fall apart full text pdf: Afro-Centered Futurisms in Our Speculative Fiction Eugen Bacon, 2024-11-14 In this vibrant and approachable book, award-winning writers of black speculative fiction bring together excerpts from their work and creative reflections on futurisms with original essays. Features an introduction by Suyi Okungbowa. Afro-Centered Futurisms in Our Speculative Fiction showcases creative-critical essays that negotiate genre bending and black speculative fiction with writerly practice. As Afrodecendant peoples with lived experience from the continent, award-winning authors use their intrinsic voices in critical conversations on Afrofuturism and Afro-centered futurisms. By engaging with difference, they present a new kind of African study that is an evaluative gaze at African history, African spirituality, Afrosurrealism, becoming, black radical imagination, cultural identity, decolonizing queerness, myths, linguistic cosmologies, and more. Contributing authors - Aline-Mwezi Niyonsenga, Cheryl S. Ntumy, Dilman Dila, Eugen Bacon, Nerine Dorman, Nuzo Onoh, Shingai Njeri Kagunda, Stephen Embleton, Suyi Okungbowa, Tobi Ogundiran and Xan van Rooyen - offer boldly hybrid chapters (both creative and scholarly) that interface Afrocentric artefacts and exegesis. Through ethnographic reflections and intense scrutinies of African fiction, these writers contribute open and diverse reflections of Afro-centered futurisms. The authors in Afro-Centered Futurisms in Our Speculative Fiction feature in major genre and

literary awards, including the Bram Stoker, World Fantasy, British Fantasy, Locus, Ignite, Nommo, Philip K. Dick, Shirley Jackson and Otherwise Awards, among others. They are also intrinsic partners in a vital conversation on the rise of black speculative fiction that explores diversity and social (in)justice, charting poignant stories with black hero/ines who remake their worlds in color zones of their own image.

things fall apart full text pdf: Reglobalization Matthew Louis Bishop, Anthony Payne, 2021-03-11 This book charts the way towards a better, repurposed globalization, which it calls 'reglobalization', and shows how this can be built, incrementally but realistically, via reforms to the partial and fragile existing structures of global governance. In making this argument, the book firmly rejects the new fashion for a politics of deglobalization, which has appeared of late in both left-wing and right-wing variants. Instead, it suggests that a reformed Group of 20 (G20), for all its current inadequacies, can still provide the critical coordinating function that the management of a process of reglobalization requires. The book argues that globalization is too important to be lost; rather, it needs to be saved from its capture by neoliberalism and rebuilt around different values for a post-neoliberal era. The emergence of global pandemic as an issue only goes to emphasise the necessity, importance and urgency of the reglobalization project. Reglobalization is essential reading for everybody living in the era of globalization, which is all of us, and worried about its many economic, social and political problems, which is a growing number of us. The chapters in this book were originally published in the journal Globalizations.

things fall apart full text pdf: A Close Look at Close Reading Barbara Moss, Diane Lapp, Maria Grant, Kelly Johnson, 2015-05-21 The Common Core State Standards have put close reading in the spotlight as never before. While middle and high school teachers want and need students to connect with, analyze, and learn from both literary and informational texts, many are unsure how to foster the skills students must have in order to develop deep and nuanced understanding of complicated content. Is there a process to follow? How is close reading different from shared reading and other common literacy practices? How do you prepare students to have their ability to analyze complex texts measured by high-stakes assessments? And how do you fit close reading

instruction and experiences into an already crowded curriculum? Literacy experts Barbara Moss, Diane Lapp, Maria Grant, and Kelly Johnson answer these questions and more as they explain how to teach middle and high school students to be close readers, how to make close reading a habit of practice across the content areas, and why doing so will build content knowledge. Informed by the authors' extensive field experience and enriched by dozens of real-life scenarios and downloadable tools and templates, this book explores • Text complexity and how to determine if a particular text is right for your learning purposes and your students. • The process and purpose of close reading, with an emphasis on its role in developing the 21st century thinking, speaking, and writing skills essential for academic communication and college and career readiness. • How to plan, teach, and manage close reading sessions across the academic disciplines, including the kinds of questions to ask, texts to use, and supports to provide. • How to assess close reading and help all students—regardless of linguistic, cultural, or academic background—connect deeply with what they read and derive meaning from complex texts. Equipping students with the tools and process of close reading sets them on the road to becoming analytical and critical thinkers—and empowered and independent learners. In this comprehensive resource, you'll find everything you need to start their journey.

things fall apart full text pdf: Chinua Achebe and the Igbo-African World Chima J. Korieh, Ijeoma C. Nwajiaku, 2022-04-12 Chinua Achebe and the Igbo-African World: Between Fiction, Fact, and Historical Representation explores Chinua Achebe's literary works and how they communicated the Igbo-African world to readers. Engaging in the politics of representation, Achebe sought to demystify deterministic views of race and cultural ethnocentrism. While his books and commentaries have been very influential in shaping a unique and multifaceted view of the African world, some scholars have challenged Achebe's representations of historical reality. Through in-depth analyses of his writing, contributors examine the interpretations Achebe imposed on African culture and history in his texts. The chapters cover Achebe's engagement with critical issues like historical representation, gender relations, and indigenous political institutions in a changing society. Throughout, contributors present new ways for understanding Achebe's literary works and show how his work draws from African historical reality and identity while challenging Western epistemological hegemony.

things fall apart full text pdf: Early Career English Teachers in Action Robert Rozema, Lindsay Ellis, 2014-08-13 The first few years of teaching are critical to the professional development of effective English teachers. In these crucial years, new teachers establish their identities, learn the ins and outs of the curriculum, acclimate to unfamiliar communities, and cope with student behaviors that they never expected. All of this can be daunting for novice teachers. This book can help. The stories within are written by English teachers in the early stages of their careers. In their carefully crafted narratives, teachers offer practical strategies, professional insights, and a wealth of tips for surviving the first years in the classroom. The narratives are grouped into thematic chapters with brief introductions of key terms, helpful learning activities, and provocative discussion questions, all intended to foster critical conversation about beginning a career teaching English. In a time when many teachers leave the profession too soon, Early Career English Teachers in Action gives voice to those who have decided to stay. More importantly, this book validates teacher narratives as a powerful way of understanding what happens inside of the classroom—a way that provides more authentic evidence of learning than standardized test scores will ever supply.

things fall apart full text pdf: Leave It in the Ground John C. Berg, 2019-09-03 Employing scientific explanations and hard data, this book shows why coal is such a problem, how the pro-coal forces got to be so powerful, and how those forces might be defeated through political activism. Coal provided the energy to build modern civilization. This energy source raised standards of living, multiplied the earth's population, and enabled people in developed countries to enjoy leisure time. Today, we know that if we burn all the coal available, climate change will continue to increase. But the use of coal isn't purely an environmental issue; political and economic forces are also at play. This book examines the politics and environmental impact of coal production and distribution, presenting a clear point of view—that we must shift away from coal use—backed by hard data and

supplying specific prescriptions for opposing and regulating the coal industry. John C. Berg explains how ending the burning of coal (and of oil and natural gas) is a political problem rather than a technical one; explodes the clean coal myth, providing scientific documentation of how burning coal emits more greenhouse gases per unit of energy than any other fuel; and describes how controlling coal use in the United States will also restore the possibility of a meaningful international climate agreement. Additionally, readers will understand the critical importance of activism-from local to international-in spurring government regulation to control the coal industry, which can only be defeated politically.

things fall apart full text pdf: Violence in Popular Culture Laura L. Finley, 2018-11-09 A comprehensive resource, this book reviews current and historical examples of violence in film, television, radio, music, music videos, video games, and novels. Despite decades of attention and various attempts to enact legislation that limits violence in American popular culture, it remains ubiquitous across films, television, radio, music, music videos, video games, and popular fiction. Studies have shown that programs marketed to children are often remarkably violent and that viewing or otherwise consuming such violence has numerous negative effects on children's psychological health. This book sheds light on the scholarship related to violence in popular culture and compares historical and current examples, analyzing popular shows such as Game of Thrones, video games such as Mortal Kombat, young adult fiction including the trilogy The Hunger Games, and more. Not only does Violence in American Popular Culture provide a comprehensive review of the research about the effects of violence in media, but it also offers detailed assessments of violent content in various expressions of popular culture. In addition, it invites readers to compare violence in American popular culture with that globally via entries on violence in popular culture outside the United States. An appendix of additional resources and primary sources gives readers further tools for deepening their understanding of this complex and controversial issue.

things fall apart full text pdf: #MeToo and Literary Studies Mary K. Holland, Heather Hewett, 2021-09-23 Literature has always recorded a history of patriarchy, sexual violence, and resistance. Academics have been using literature to expose and critique this violence and domination for half a century. But the continued potency of #MeToo after its 2017 explosion adds new urgency and wider awareness about these issues, while revealing new ways in which rape culture shapes our everyday lives. This intersectional guide helps readers, students, teachers, and scholars face and challenge our culture of sexual violence by confronting it through the study of literature. #MeToo and Literary Studies gathers essays on literature from Ovid to Carmen Maria Machado, by academics working across the United States and around the world, who offer clear ways of using our reading, teaching, and critical practices to address rape culture and sexual violence. It also examines the promise and limitations of the #MeToo movement itself, speaking to the productive use of social media as well as to the voices that the movement has so far muted. In uniting diverse voices to enable the #MeToo movement to reshape literary studies, this book is also committed to the idea that the way we read and write about literature can make real change in the world.

things fall apart full text pdf: From Chaos to Catastrophe? K. Ludwig Pfeiffer, 2018-03-19 This book focuses on the tensions between processes of consciousness and their products like worldviews, theories, models of thought etc. Staying close to their technical meanings in chaos and catastrophe theory, chaotic processes are described in mainly neurobiological and evolutionary terms while products are delineated in their evolutionary logic. Given both a relative opacity of processes of the mind and of the outside world, the dramatic quality of the processes, a certain closeness to 'hysterical' and 'schizophrenic' tendencies and, within the context of the weakening orientating power of worldviews, an alarming catastrophic potential emerge. As a consequence, the book aims at a comparative cost-benefit analysis of the transitionality between 'chaotic' processes of consciousness and the often 'catastrophic' implications of their products within historical frameworks. The central thesis consists in the increasing failure in the orientation of action which cannot be contained by systems of ethics. Materials for this analysis are mainly drawn from texts normally called literary in which the tension between biographical and historical dimensions provides profiles of chaos and catastrophe.

things fall apart full text pdf: Encyclopedia of Postcolonial Studies John Charles Hawley, 2001-09-30 The collapse of empires has resulted in a remarkable flourishing of indigenous cultures in former colonies. The end of the colonial era has also witnessed a renaissance of creativity in the postcolonial world as modern writers embrace their heritage. The experience of postcoloniality has also drawn the attention of academics from various disciplines and has given rise to a growing body of scholarship. This reference work overviews the present state of postcolonial studies and offers a refreshingly polyphonic treatment of the effects of globalization on literary studies in the 21st century. The volume includes more than 150 alphabetically arranged entries on postcolonial studies around the world. Entries on individual authors provide brief biographical details but primarily examine the author's handling of postcolonial themes. So too, entries on theoreticians offer background information and summarize the person's contributions to critical thought. Entries on national literatures explore the history of postcoloniality and the ways in which writers have broadly engaged their legacy, while those on important topics discuss the theoretical origin and current ramifications of key concepts in postcolonial studies. Cross-references and cited works for further

reading are included, while a comprehensive bibliography concludes the volume.

things fall apart full text pdf: *Doing Literary Criticism* Tim Gillespie, 2024-11-01 One of the greatest challenges for English language arts teachers today is the call to engage students in more complex texts. Tim Gillespie, who has taught in public schools for almost four decades, has found the lenses of literary criticism a powerful tool for helping students tackle challenging literary texts. Tim breaks down the dense language of critical theory into clear, lively, and thorough explanations of many schools of critical thought—reader response, biographical, historical, psychological, archetypal, genre based, moral, philosophical, feminist, political, formalist, and postmodern. *Doing Literary Criticism* gives each theory its own chapter with a brief, teacher-friendly overview and a history of the approach, along with an in-depth discussion of its benefits and limitations. Each chapter also includes ideas for classroom practices and activities. Using stories from his own English classes—from alternative programs to advance placement and everything in between—Tim provides a wealth of specific classroom-tested suggestions for discussion, essay and research paper topics, recommended texts, exam questions, and more. The accompanying CD offers abbreviated overviews of each theory (designed to be used as classroom handouts, examples of student work, collections of quotes to stimulate discussion and writing, an extended history of women writers, and much more. Ultimately, *Doing Literary Criticism* offers teachers a rich set of materials and tools to help their students become more confident and able readers, writers, and critical thinkers.

things fall apart full text pdf: *Brexlit* Kristian Shaw, 2021-07-29 Britain's vote to leave the European Union in the summer of 2016 came as a shock to many observers. But writers had long been exploring anxieties and fractures in British society – from Euroscepticism, to immigration, to devolution, to post-truth narratives – that came to the fore in the Brexit campaign and its aftermath. Reading these tensions back into contemporary British writing, Kristian Shaw coins the term *Brexlit* to deliver the first in-depth study of how writers engaged with these issues before and after the referendum result. Examining the work of over a hundred British authors, including Julian Barnes, Jonathan Coe, Kazuo Ishiguro, and Ali Smith, as well as popular fiction by Andrew Marr and Stanley Johnson, *Brexlit* explores how a new and urgent genre of post-Brexit fiction is beginning to emerge.
