In recent years, individuals and organizations have expressed concern that the 510(k) process is neither making safe and effective devices available to patients nor promoting innovation in the medical-device industry. Several high-profile mass-media reports and consumer-protection groups have profiled recognized or potential problems with medical devices cleared through the 510(k) clearance process. The medical-device industry and some patients have asserted that the process has become too burdensome and is delaying or stalling the entry of important new medical devices to the market. clearance letter from doctor: Happier as a Woman Martina Giselle Ramirez, Alicia Partnoy, 2019-10-08 Martina Ramirez first started wearing her mother's shoes in secret in second grade, when everyone still knew her as Martin. Growing up in a conservative household as an adopted Mexican-American in a racially segregated city, she swore she would not be just another crime or teen pregnancy statistic. She lived up to that promise when Martina was named high school valedictorian, became a tenured professor at a prestigious university, and had a family. It was only then, after she had become established in her life and career, that she was able to finally be her true self. Happier as a Woman is not just a story of one woman's transition. It is a story about relationships - those she fostered with herself, those that were hurt, those that were saved, and those that would not have existed if not for Martina's desire to be a mentor, to be the change. Martina made it her mission to pave the way for all of those that would come after her - from the women seeking to break through the glass ceiling to fellow victims of emotional abuse - regardless of who they appeared to be on the outside. As though all the emotions she had to bottle up in her youth have become more potent with age, they now tell a compelling journey of acceptance, self-discovery, and self-love. Martina's story is artfully told through letters, anecdotes, and powerful interviews conducted by and written alongside her renowned co-author, human rights advocate and memoirist Alicia Partnoy.
