rugby giant slayer: Musing with Charlie Gordon Morris, 2020-12-03 Gordon Morris wrote this book originally as a kind of diary for himself. It is an account of the antics of his English springer spaniel, mainly on their walks together on Hayling Beach, near Portsmouth. It is also a cautionary tale of the hectic nature of the breed, and the enormous commitment it is to look after such an intelligent, energetic, bloody-minded type of dog. Musing with Charlie is also about Gordon's memories and thoughts of his life, the universe and everything (to quote a phrase) as they walked together. If after reading this book you see old boys walking their dogs deep in thought, or having a discussion with their peers on a bench, you may have an insight into Gordon's generation's lives and experiences, and you will have had a laugh or two at Gordon's expense - and Charlie's antics!

rugby giant slayer: **Popular Romances of the West of England (Complete)** Robert Hunt, 2020-09-28 THE beginning of this collection of Popular Romances may I be truly said to date from my early childhood. I remember with what anticipations of pleasure, sixty-eight years since, I stitched together a few sheets of paper, and carefully pasted them into the back of an old book. This was preparatory to a visit I was about to make with my mother to Bodmin, about which town many strange stories were told, and my purpose was to record them. My memory retains dim shadows of a wild tale of Hender the Huntsman of Lanhydrock; of a narrative of streams having been poisoned by the monks; and of a legend of a devil who. played many strange pranks with the tower which stands on a neighbouring hill. I have, within the last year? endeavoured to recover those stories, but in vain. The living people appear to have forgotten them; my juvenile note-book has long been lost those traditions are, it is to be feared, gone for ever. Fifteen years passed away--about six of them at school in Cornwall, and nine of them in close labour in London,--when failing health compelled my return to the West of England. Having spent about a month on the borders of Dartmoor, and wandered over that wild region of Granite Tors, gathering up its traditions,--ere yet Mrs Bray [a] had thought of doing so, -- I resolved on walking through Cornwall. Thirty-five years since, on a beautiful spring morning, I landed at Saltash, from the very ancient passage-boat which in those days conveyed men and women, carts-and cattle, across the river Tamar, where now that triumph of engineering, the Albert Bridge, gracefully spans its waters. Sending my box forward to Liskeard by a van, my wanderings commenced; my purpose being to visit each relic of Old Cornwall, and to gather up every existing tale of its ancient people. Ten months were delightfully spent in this way; and in that period a large number of the romances and superstitions which are published in these volumes were collected, with many more, which have been weeded out of the collection as worthless.

The cure for anything is salt water: sweat, tears or the sea. - Karen Blixen The ocean is an icon of our summer holidays and a place of happy memories - and there's no wonder why. Swimming in and

being near salt water has been shown to lower cholesterol and blood pressure, boost immunity and even slow the signs of ageing. But that's just the physical side. Saltwater Cure draws on compelling, life-affirming stories about the healing power of the ocean – whether it be a balm for mental health, a comfort for an autistic child, the start of a lifelong environmental passion or a path to building community and escaping loneliness. Journalist Ali Grippier shares the experiences of people who have been transformed by the ocean, including author Tim Winton, surfer and blue-health advocate Layne Beachley, conservationist and underwater cinematographer Valerie Taylor, solo sailor Jessica Watson, First Nations scientist and dolphin-singer Chels Marshall, blind swimmer James Pittar, Swim Sisters founder Yusra Metwally and many others. All speak honestly about the ocean's ability to not only provide solace and comfort, but to help them find strength in themselves and make the most of living connected to nature.
