affordaplane plans: Aerotropolis John D. Kasarda, Greg Lindsay, 2011-03-01 This brilliant and eye-opening look at the new phenomenon called the aerotropolis gives us a glimpse of the way we will live in the near future—and the way we will do business too. Not so long ago, airports were built near cities, and roads connected the one to the other. This pattern—the city in the center, the airport on the periphery—shaped life in the twentieth century, from the central city to exurban sprawl.

Today, the ubiquity of jet travel, round-the-clock workdays, overnight shipping, and global business networks has turned the pattern inside out. Soon the airport will be at the center and the city will be built around it, the better to keep workers, suppliers, executives, and goods in touch with the global market. This is the aerotropolis: a combination of giant airport, planned city, shipping facility, and business hub. The aerotropolis approach to urban living is now reshaping life in Seoul and Amsterdam, in China and India, in Dallas and Washington, D.C. The aerotropolis is the frontier of the next phase of globalization, whether we like it or not. John D. Kasarda defined the term aerotropolis, and he is now sought after worldwide as an adviser. Working with Kasarda's ideas and research, the gifted journalist Greg Lindsay gives us a vivid, at times disquieting look at these instant cities in the making, the challenges they present to our environment and our usual ways of life, and the opportunities they offer to those who can exploit them creatively. Aerotropolis is news from the near future—news we urgently need if we are to understand the changing world and our place in it.

affordaplane plans: *On the Noodle Road* Jen Lin-Liu, 2013-07-25 A food writer travels the Silk Road, immersing herself in a moveable feast of foods and cultures and discovering some surprising truths about commitment, independence, and love. As a newlywed traveling in Italy, Jen Lin-Liu was struck by culinary echoes of the delicacies she ate and cooked back in China, where she'd lived for more than a decade. Who really invented the noodle? she wondered, like many before her. But also: How had food and culture moved along the Silk Road, the ancient trade route linking Asia to Europe—and what could still be felt of those long-ago migrations? With her new husband's blessing, she set out to discover the connections, both historical and personal, eating a path through western China and on into Central Asia, Iran, Turkey, and across the Mediterranean. The journey takes Lin-Liu into the private kitchens where the headscarves come off and women not only knead and simmer but also confess and confide. The thin rounds of dough stuffed with meat that are dumplings in Beijing evolve into manti in Turkey—their tiny size the measure of a bride's worth—and end as tortellini in Italy. And as she stirs and samples, listening to the women talk about their lives and longings, Lin-Liu gains a new appreciation of her own marriage, learning to savor the sweetness of love freely chosen.

affordaplane plans: *After a While You Just Get Used to It* Gwendolyn Knapp, 2015-06-02 A vibrant new voice ups the self-deprecating memoir ante with tragicomic tales of her dysfunctional life in swampland Florida and America's Big Easy A dive bar palm reader who calls herself the Disco Queen Taiwan; a slumlord with a penis-of-the-day LISTSERV; and Betty, the middle-aged Tales of the Cocktail volunteer who soils her pants on a party bus and is dealt with in the worst possible way. These are just a few of the unforgettable characters who populate Gwendolyn Knapp's hilarious and heartbreaking—yet ultimately uplifting—memoir debut, *After a While You Just Get Used to It*. Growing up in a dying breed of eccentric Florida crackers, Knapp thought she had it rough—what with her pack rat mother, Margie; her aunt Susie, who has fewer teeth than prison stays; and Margie's bipolar boyfriend, John. But not long after Knapp moves to New Orleans, Margie packs up her House of Hoarders and follows along. As if Knapp weren't struggling enough to keep herself afloat, working odd jobs and trying to find love while suffering from irritable bowel syndrome, the thirty-year-old realizes that she's never going to escape her family's unendingly dysfunctional

drama. Knapp honed her writing chops and distinctive Southern Gothic-humor style writing short pieces and participating in the renowned reading series Literary Death Match. Now, like bestselling authors Jenny Lawson, Laurie Notaro, and Julie Klausner before her, Knapp bares her sad and twisted life for readers everywhere to enjoy.

affordaplane plans: Digging Deeper Russell Cederberg, 2023-09-10 Joseph and Kristin are settling into their new house and have now legally adopted Sasha as their daughter. The Dansons have returned from their trip to Russia and Sweden, so everything should be returning to normal, but the world is rapidly changing and nothing seems to be normal anymore. What was formerly a small network of home fellowship groups has now shrunk to just one and everything that can be shaken, seems to be shaking. In a post pandemic world where loneliness and isolation is rapidly becoming the norm, the vision of building a network of home fellowships is still alive in spite of so many of the original participants moving away. Meanwhile, many of the remaining people in the Green's small circle of friends are facing personal problems that seem to be escalating, with complications that resist all of the old methods of resolution. Everyone is finding it more and more necessary to depend on each other and to be more dependable with each other as well. DIGGING DEEPER is a story that illustrates just how interdependent the Body of Christ is designed to be and how damaging and destructive it usually is when we attempt to live our lives and solve all of our problems all by ourselves.
