allahs 99 names pdf: *Islam: Religion of Peace?* Mario Alexis Portella, 2018-09-25 Eight hundred years ago, St. Francis of Assisi embarked on a mission to the port city of Damietta, Egypt, to try and convert Sultan al-Kamil to Christianity. While this did not come to fruition, both the sultan and the saint were able to have a peaceful dialogue and establish a mutual respect that is absent from the present-day polemics of Islam. While many today hold that those who seek to create a universal caliphate through acts of terror in the name of Islam falsely represent their religion, they ignore the original Islamic texts that inspire these perpetrators. The Islamization of our society, however, does not just come from avowed terrorists but from various Islamic scholars and activists seeking to impose sharia law. As a result of the West disavowing its Greco-Roman and Judeo-Christian roots, government officials have catered to such injustices since they consider the petrodollar more valuable than the victims of violence. Consequently, they have capitulated our rights of free speech and religion to the point of classifying anyone who questions Islamists' intentions as an Islamophobe. *Islam: Religion of Peace?* places Islam in its historical and sociopolitical contexts in order to better understand what has bred the Islamic threat facing today's society, as well as how many of our political and church leaders have failed to address the problem, thereby creating more instability between both Muslims and non-Muslims. Author Mario Alexis Portella also proposes solutions whereby both peoples may enter into a meaningful discourse and establish harmony.

allahs 99 names pdf: Les Beaux Noms d'Allah (SWT) - Beautiful Names of Allah (SWT) ShaykhPod French, Pour que l'on adopte un caractère noble, il faut apprendre les attributs divins bénis et les noms d'Allah, l'Exalté, afin de pouvoir adopter chaque attribut dans son caractère en fonction de son statut. Par exemple, Allah, l'Exalté, est Pardonneur selon Son statut infini et adopter cet attribut en pardonnant aux autres est quelque chose qui a été encouragé en Islam. Chapitre 24 An Nur, verset 22 : « ...et qu'ils pardonnent et passent outre. Ne voudrais-tu pas qu'Allah te pardonne ? Et Allah est Pardonneur et Miséricordieux. » C'est pourquoi ce livre abordera certains de ces attributs et noms divins afin que le musulman comprenne et adopte leur signification jusqu'à ce qu'ils soient fermement ancrés dans son cœur spirituel afin qu'il puisse finalement atteindre un caractère noble. En fait, c'est la signification du Hadith trouvé dans Sahih Bukhari, numéro 2736, qui informe qu'Allah, l'Exalté, a quatre-vingt-dix-neuf noms et que quiconque les mémorise entrera au Paradis.

allahs 99 names pdf: Doctrine of Terror Mahboob Illahi, 2018-10-02 The book highlights the fact that Islam does not encourage or incite intolerance of other faiths, and that it values sanctity of human life, regardless of religious affiliation, and abhors violence and extremism, as being perpetrated by the misguided muslim jihadists of al-Qaeda, ISIS, and their associated terrorist groups that have been wreaking atrocities on defenseless civilian populations of Muslim majority countries, including women and children. The book describes the inception, support, and unlimited funding of these groups by the Sunni Arab countries, and implores the Funders to discontinue their support, forthwith, to restore peace and stability to the marginalized communities, particularly the Shia Muslims of the world who have been subjected to persecution for centuries, ever since the advent of Islam in the seventh century, following the death of the Prophet of Islam in 623. The book also implores the World powers to end their tacit support of terrorism by seriously confronting the supporters of terrorist groups, without which the terrorism will not end.

allahs 99 names pdf: Force and Fanaticism Simon Ross Valentine, 2015-01-09 Wahhabism is an Islamic reform movement found mainly in Saudi Arabia. Closely linked to the Saudi monarchy, it enforces a strict code of morality and conduct monitored by mutawa (religious police), and governs every facet of Saudi life according to its own strict interpretation of Shariah, including gender segregation. Wahhabism also prohibits the practice of any other faith (even other forms of Islam) in Saudi Arabia, which is also the only country that forbids women from driving. But what exactly is Wahhabism? This question had long occupied Valentine, so he lived in the Kingdom for three years, familiarizing himself with its distinct interpretation of Islam. His book defines Wahhabism and Wahhabi beliefs and considers the life and teaching of Muham-mad ibn Abd'al Wahhab and the later expansion of his sect. Also discussed are the rejection of later developments in Islam such as bid'ah; harmful innovations, among them celebrating the prophet's birthday and visiting the tombs of saints; the destruction of holy sites due to the fear of idolatry; Wahhabi law, which imposes the death sentence for crimes as archaic as witch- craft and sorcery, and the connection of Wahhabism with militant Islam globally. Drawing on interviews with Saudis from all walks of life, including members

of the feared mutawa, this book appraises of one of the most significant movements in contemporary Islam.

allahs 99 names pdf: *Islam, Context, Pluralism and Democracy* Yaser Ellethy, 2014-11-20 Islam, Context, Pluralism and Democracy aspires to clarify the tensions and congruences between the revelational and the rational, the text and the context, the limits and the horizons of contextualization in Islam, as these emanate from the Islamic interpretative tradition. This book examines classical and modern Muslim interpretations with regard to the concepts of diachronic development, pluralism and democracy based on Arabic-Islamic sources and literature. Focusing on the parameters of semantic changes, methods of interpretation and cultural variables, it shows how this interpretative tradition offers a diversity of ideas and approaches that can be utilized in contemporary debates concerning the socio-political contextualization of Islamic genuine thought. However, within this diversity, Islam presents generic principles and core values as 'moral paradigms' that can deal with such modern challenges. Based on the analysis of core Islamic texts and key-terms related to the discussed issues, mainly from the Quran and the Sunnah, and the

broader Arabic-Islamic literature, it explores the boundaries of the mutable and constant in the Islamic worldview. Presenting classical Muslim interpretations and scholars as possible interlocutors in debates over the compatibility of Islam with challenges of modernity, this book is essential reading for researchers and postgraduates interested in Islamic Studies, Philosophy of Religion and Political Science.
