anthony robbins ultimate edge: *What Am I Here For?* Martin C. Bala, 2024-03-18 We all go through life with similar struggles and desires, but not everyone follows their childhood dreams, not everyone is successful, or at least feels that way. There are also moments in your life when something unusual happens. An accident, a health problem, or something bigger than your job, your career. In those moments, life loses its meaning and you start to think: Is what I am doing now all there is? Is this what I dreamed of as a child? What am I here for? Similar questions have been on my mind for more than two decades of my life, and I have found answers that I am willing to share with you in this book. People who are truly successful do things differently than most, and it is not

too late for you to learn what they know. Without finding your purpose, true success can be very difficult to achieve. It is never too late to change the way you think, to act differently, and to make a difference. Everyone needs to believe in something, even if it is only in their own abilities. I invite you on an exciting journey of self-discovery and the beginning of a new phase of your life. What you will find in this book is a great insight into the psychology of who you are and a different perspective on widely accepted truths. It will teach you how to work on yourself and apply the knowledge you find to your own life. I've turned my life around, and so can you. You already have what you need. Find out how you can live the life of your dreams! The world of subjective contrast and compassion is a false world, built entirely by each person's imagination. Nothing is as it seems..." ~ Zen proverb

anthony robbins ultimate edge: Colours of the Rainbow Part Two Chizoba Chiamaka Asika, 2024-07-01 Ada, a young and decent girl from the village of Amagu, is inundated with challenges. Like most young people she wasn't prepared for the degree of obstacles and sufferings with which she was faced. The distressful loss of her father in an accident was closely accompanied by the dreadful claws of a wicked "Lagos aunt" who would stop at nothing to make her life miserable. Furthermore, her engagement with the formidable clique in her school on the battle field of economic status drilled holes in her already worn armour. But Ada was determined to make headway in spite of the blows life dealt her. She believed firmly in the axiom 'Tough times don't last; but tough people do.' Undaunted, she endured the hardships that besieged her until she actualised her dreams. Her inner driving force and determination preserved and propelled her desire to succeed. For Ada, success is a reward for a persevering warlord who keeps striving in the face of great adversities. No thought of retreat is entertained, particularly in those moments when no one believes in you. This captivating book teaches the irrefutable fact that success has no respect for ethnographic boundaries, economic class, religious stratification, sexual dichotomy or enduring ancestry; and it encourages everyone to face all challenges, aspire for greatness, and press on until their life goals are realised.
