invitation for groundbreaking ceremony: *Empowering Communities* Lacy K. Ford, Jared Bailey, 2022-02-18 Early in the twentieth century, for-profit companies such as Duke Power and South Carolina Electric and Gas brought electricity to populous cities and towns across South Carolina, while rural areas remained in the dark. It was not until the advent of publicly owned electric cooperatives in the 1930s that the South Carolina countryside was gradually introduced to the conveniences of life with electricity. Today, electric cooperatives serve more than a quarter of South Carolina's citizens and more than seventy percent of the state's land area, bringing not only power but also high-speed broadband to rural communities. The rise of public power—electricity serviced by member-owned cooperatives and sanctioned by federal and state legislation—is a complicated saga encompassing politics, law, finance, and rural economic development. *Empowering Communities* examines how the cooperatives helped bring fundamental and transformational change to the lives of rural people in South Carolina, from light to broadband. James E. Clyburn, the majority whip of the U.S. House of Representatives from South Carolina, provides a foreword.

invitation for groundbreaking ceremony: You Come Too Lesley Lee Francis, 2015-12-03 Robert Frost observed in his wife, Elinor, a desire to live a life that goes rather poetically. The same could be said of many members of the Frost family, over several generations. In *You Come Too*, Frost's granddaughter, Lesley Lee Francis, combines priceless personal memories and rigorous research to create a portrait of Frost and the women, including herself, whose lives he touched. Francis provides a vivid picture of Frost the family man, revealing him to be intensely engaged rather than the aloof artist that is commonly portrayed. She shares with us the devastation Frost and Elinor experienced when faced with tragic illnesses, both physical and mental, and the untimely death of family members. Elinor's own death added to the poet's despair and unleashed complex feelings throughout the family. (Francis's mother would lament the toll taken on Elinor by what she perceived as Frost's selfishness in the life he had chosen.) This is also the story of Lesley Frost, Francis's remarkable mother, who struggled to emerge from her celebrated father's shadow, while, as one of the people closest to him, sharing his intuitive impulse to write and to indulge their mutual love of books and poetry. Francis would herself become yet another writer and, like her grandfather and mother before her, a teacher--despite sharing Frost's sense of being imperfectly academic. In addition, Francis explores Frost's professional relationships with women outside the family, such as the poets Harriet Monroe, Amy Lowell, and Susan Hayes Ward. Francis's invaluable insights into Frost's poetry and her inclusion of previously unpublished family writings and photographs make this book essential to Frost scholarship. But *You Come Too* will appeal to anyone interested in this great poet's life and work. It also reveals unforgettable stories of strong, independent women and their passion to create and share poetry.

invitation for groundbreaking ceremony: What If? Richard E. Buery, 2013-11 RICHARD EVRAUD BUERY This book is the result of encouragement, in part, and personal desire. I was presented with a copy of a book written by Rev. J. Mastin Nisbett. Recording the efforts sustained, when building St. David's Episcopal Church of Cambria Heights. Considering that St. Gabriel's Episcopal Church, Brooklyn, went through the struggle of building also, Mr. Euclid Jordon approached me with a copy of the same book, stating that someone should also record the struggles sustained while building our church. (We were in this about the same time.) As a matter of fact, it was my intention to write my autobiography for the benefit of my children and family; therefore, this was a great opportunity to combine this project since it was always my intention to do this. As can be noted, I kept most of the information; therefore, it was just a matter of getting my files and thoughts together. As I started, the matter of a title of the book was imperative. As I pondered about

my life growing up in Colón, Republic of Panama, the place of my birth it became obvious to me. The question was this: What if certain situations existed? What direction would my life take? What if I had connected with the photographer mentioned in the book? What if we had decided to take the opportunity to sign a contract offered to Harmonizers? What if the date set by the apprentice program was a day different? What if there was not a stevedore strike when I was employed at the steamship company? What if conditions were different when I was growing up in high school? What if I had furthered my musical experience and taken voice lessons? What if I decided not to be involved on certain occasions? These two words What if? can really influence the direction of one's life. This explains the cover of this narrative. It is actually autobiographical and telling the story of the building of St. Gabriel's Episcopal Church, Brooklyn, New York, from my perspective. AS I SEE IT. Friends are like possessions (working or not), as long as I keep them, they are mine.

invitation for groundbreaking ceremony: Inside Money Zachary Karabell, 2022-05-31 A sweeping history of the legendary private investment firm Brown Brothers Harriman, exploring its central role in the story of American wealth and its rise to global power Conspiracy theories have always swirled around Brown Brothers Harriman, and not without reason. Throughout the nineteenth century, when America was convulsed by a devastating financial panic essentially every twenty years, Brown Brothers quietly went from strength to strength, propping up the U.S. financial system at crucial moments and catalyzing successive booms, from the cotton trade and the steamship to the railroad, while largely managing to avoid the unwelcome attention that plagued some of its competitors. By the turn of the twentieth century, Brown Brothers was unquestionably at the heart of what was meant by an American Establishment. As America's reach extended beyond its shores, Brown Brothers worked hand in glove with the State Department, notably in Nicaragua in the early twentieth century, where the firm essentially took over the country's economy. To the Brown family, the virtue of their dealings was a given; their form of muscular Protestantism, forged on the playing fields of Groton and Yale, was the acme of civilization, and it was their duty to import that civilization to the world. When, during the Great Depression, Brown Brothers ensured their strength by merging with Averell Harriman's investment bank to form Brown Brothers Harriman, the die was cast for the role the firm would play on the global stage during World War II and thereafter, as its partners served at the highest levels of government to shape the international system that defines the world to this day. In *Inside Money*, acclaimed historian, commentator, and former financial executive Zachary Karabell offers the first full and frank look inside this institution against the backdrop of American history. Blessed with complete access to the company's archives, as well as a thrilling understanding of the larger forces at play, Karabell has created an X-ray of American power--financial, political, cultural--as it has evolved from the early 1800s to the present. Today, unlike many of its competitors, Brown Brothers Harriman remains a private partnership and a beacon of sustainable capitalism, having forgone the heady speculative upsides of the past thirty years but also having avoided any role in the devastating downsides. The firm is no longer in the command capsule of the American economy, but, arguably, that is to its credit. If its partners cleaved to any one adage over the generations, it is that a relentless pursuit of more can destroy more than it creates.
