nigeria lace blouse styles: *Creating African Fashion Histories* JoAnn McGregor, Heather Akou, Nicola Stylianou, 2022-04-05 *Creating African Fashion Histories* examines the stark disjuncture between African self-fashioning and museum practices. Conventionally, African clothing, textiles, and body adornments were classified by museums as examples of trade goods, art, and ethnographic materials—never as fashion. Counterposing the dynamism of African fashion with museums' historic holdings thus provides a unique way of confronting ways in which coloniality persists in knowledge and institutions today. This volume brings together an interdisciplinary group of scholars and curators to debate sources and approaches for constructing African fashion histories and to examine their potential for decolonizing museums, fashion studies, and global cultural history. The editors of this volume seek to answer questions such as: How can researchers use museum collections to reveal traces of past self-fashioning that are obscured by racialized forms of knowledge and institutional practice? How can archival, visual, oral, ethnographic, and online sources be deployed to capture the diversity of African sartorial pasts? How can scholars and curators decolonize the Eurocentric frames of thinking encapsulated in historic collections and current curricula? Can new collections of African fashion decolonize museum practice? From Moroccan fashion bloggers to upmarket Lagos designers, the voices in this ground-breaking collection reveal fascinating histories and geographies of circulation within and beyond the continent and its diasporic communities.

nigeria lace blouse styles: *African Dress* Karen Tranberg Hansen, D. Soyini Madison, 2013-08-29 *Dress and fashion practices in Africa and the diaspora* are dynamic and diverse, whether on the street or on the fashion runway. Focusing on the dressed body as a performance site, *African Dress* explores how ideas and practices of dress contest or legitimize existing power structures through expressions of individual identity and the cultural and political order. Drawing on innovative, interdisciplinary research by established and up and coming scholars, the book examines real life projects and social transformations that are deeply political, revolving around individual and public goals of dignity, respect, status, and morality. With its remarkable scope, this book will attract students and scholars of fashion and dress, material culture and consumption, performance studies, and art history in relation to Africa and on a global scale.

nigeria lace blouse styles: *Extravagances* Cristina Giorcelli, Paula Rabinowitz, 2015-12-01 This final volume in the four-volume series *Habits of Being* shows how the dialectic between everyday appearance and outrageous acts is mediated through clothing and accessories. It considers how clothing and accessories can move quickly from the ordinary to the extravagant. Employing many different approaches, these essays explore how wearing an object—a crown, a flower, an

earring, a corsage, a veil, even a length of material—can stray beyond the bounds of the body on which it is placed into the discrepant territory of flagrantly excessive public signs of love, status, honor, prestige, power, desire, and display. The varied contributions of scholars (historians, ethnographers, literary and film critics) and artists (photographers, sculptors, writers, weavers, and embroiderers) take up the threads of these forays into history, psyche, and aesthetics in surprising and useful ways. With examples from around the world, contributors address how the simple action of ornamenting the body, even with something as common as a button, are open to elaborate interpretations—which themselves offer new understandings of human behavior and artistic endeavor. When our “habits of being” receive close scrutiny, they seem anything but habitual. Eicher, 2022-08 *Global Trade and Cultural Authentication*, edited by Joanne Eicher, showcases the complexity and enduring aesthetic and ingenuity of Kalabari artisans. The Kalabari people, most of whom make their homes in the eastern Niger Delta region of western Africa, are renowned for the artistry in working with globally imported textiles and dress for centuries. The 22 essays in this edited volume feature the work of leading Nigerian and American scholars and offer an in-depth, nuanced understanding of Kalabari textiles, aesthetics, and engagement with past and present global trade networks. Using dress and textiles as a lens, *Global Trade and Cultural Authentication* explores the Kalabari people's centuries-long role in the global trade arena. nigeria lace blouse styles: *New York, My Village* Uwem Akpan, 2025-04-25 Exuberant storytelling full of wry comedy, dark history, and devastating satire—by the celebrated and original author of the #1 New York Times bestseller, *Say You're One of Them*. From a suspiciously cheap Hell's Kitchen walk-up, Nigerian editor and winner of a Toni Morrison Publishing Fellowship Ekong Udousoro is about to begin the opportunity of a lifetime: to learn the ins and outs of the publishing industry from its incandescent epicenter. While his sophisticated colleagues meet him with kindness and hospitality, he is soon exposed to a colder, ruthlessly commercial underbelly—callous agents, greedy landlords, boorish and hostile neighbors, and, beneath a superficial cosmopolitanism, a bedrock of white cultural superiority and racist assumptions about Africa, its peoples, and worst of all, its food. Reckoning, at the same time, with the recent history of the devastating and brutal Biafran War, in which Ekong's people were a minority of a minority caught up in the mutual slaughter of majority tribes, Ekong's life in New York becomes a saga of unanticipated strife. The

great apartment deal wrangled by his editor turns out to be an illegal sublet crawling with bedbugs. The lights of Times Square slide off the hardened veneer of New Yorkers plowing past the tourists. A collective antagonism toward the other consumes Ekong's daily life. Yet in overcoming misunderstandings with his neighbors, Chinese and Latino and African American, and in bonding with his true allies at work and advocating for healing back home, Ekong proves that there is still hope in sharing our stories. Akpan's prose melds humor, tenderness, and pain to explore the myriad ways that tribalisms define life everywhere, from the villages of Nigeria to the villages within New York City. *New York, My Village* is a triumph of storytelling and a testament to the life-sustaining power of community across borders and across boroughs.

nigeria lace blouse styles: Clothing and Difference Hildi Hendrickson, 1996 This volume examines the dynamic relationship between the body, clothing, and identity in sub-Saharan Africa and raises questions that have previously been directed almost exclusively to a Western and urban context. Unusual in its treatment of the body surface as a critical frontier in the production and authentication of identity, *Clothing and Difference* shows how the body and its adornment have been used to construct and contest social and individual identities in Nigeria, Zimbabwe, Tanzania, Kenya, and other African societies during both colonial and post-colonial times. Grounded in the insights of anthropology and history and influenced by developments in cultural studies, these essays investigate the relations between the personal and the public, and between ideas about the self and those about the family, gender, and national groups. They explore the bodily and material creation of the changing identities of women, spirits, youths, ancestors, and entrepreneurs through a consideration of topics such as fashion, spirit possession, commodity exchange, hygiene, and mourning. By taking African societies as its focus, *Clothing and Difference* demonstrates that factors considered integral to Western social development--heterogeneity, migration, urbanization, transnational exchange, and media representation--have existed elsewhere in different configurations and with different outcomes. With significance for a wide range of fields, including gender studies, cultural studies, art history, performance studies, political science, semiotics, economics, folklore, and fashion and textile analysis/design, this work provides alternative views of the structures underpinning Western systems of commodification, postmodernism, and cultural differentiation. nigeria lace blouse styles: Creativity in Transition Maruška Svašek, Birgit Meyer, 2016-07-01 In an era of intensifying globalization and transnational connectivity, the dynamics of cultural production and the very notion of creativity are in transition. Exploring creative practices in various settings, the book does not only call attention to the spread of modernist discourses of creativity, from the colonial era to the current obsession with 'innovation' in neo-liberal capitalist cultural politics, but also to the less visible practices of copying, recycling and reproduction that occur as part and parcel of creative improvisation.
