Community opportunities begin with guest speakers, chat partners, and field trip visits and then progress to job shadowing, internships, mentorships, and senior capstone projects. Counseling becomes a key component for students in the areas of academic, career, and social and personal skill development. Ample opportunities abound for role modeling and practice in teaming, problem solving, conflict resolution, character development, self-management, goal setting, and decision making. By employing the Career Pathways model, your school can add relevancy to what students learn and do during their high school years. Help students be more focused and team-oriented, and the true drivers of their own learning!

nurse career day presentation: Voices from the Mackenzies Paul Deuling, 2017-12-15
Re-live the experiences of the people who traveled to the distant and untouched Mackenzie Mountains of Canada's Northwest Territories. This raw, beautiful land was opened to outfitting in 1965, when intrepid entrepreneurs carried out exploratory hunts by horse and backpack to determine whether the Mackenzies were worth an outfitting investment. Five men initially set out to build their businesses in this remote country, making a living through a lot of hard work and a little bit of luck. Guides, cooks and wranglers contributed to their success in the hunt for Dall sheep, grizzly bears, mountain caribou, mountain goats and moose. Their stories are filled with tales of animal encounters, tragedy and humour. Today, eight outfitters operate in the Mackenzie Mountains as the area remains as remote and beautiful as when the original five outfitters trekked into the area in the 1960's. I hope you enjoy reading Voices From the Mackenzies as much as I enjoyed writing about the folks who made their living in this beautiful country.
