shatter me online pdf: Experiences of Islamophobia James Carr, 2015-09-07 Since 9/11 interest in Islamophobia has steadily increased – as has the number of academic publications discussing the phenomenon. However, theoretical expositions have dominated the field. Lived experiences of Islamophobia, by contrast, have received little attention. In recognition of the importance of addressing this imbalance, this book provides theoretically-informed analyses alongside everyday testimonies of anti-Muslim racism, set comparatively in an international context. Carr argues that the failure of the neoliberal state to collect data on anti-Muslim racism highlights the perpetuation of 'race' blindness within governance. Not only does this mean that the salience of racism is denied in the lives of those who experience it, but this also enables the state to absolve itself from challenging the issue and providing the necessary supports to Muslim communities.

Offering original empirical research and theoretical engagement with the concept of 'race'-blind neoliberal governance, this book will appeal to students and scholars across the social sciences, in addition to policymakers and activists working in this topical area.

shatter me online pdf: Happy Abortions Erica Millar, 2017-12-15 'A provocative and important book that every pro-choice advocate should read.' Sinéad Kennedy, Coalition to Repeal the 8th Amendment When it comes to abortion, today's liberal climate has produced a common sense that is both pro-choice and anti-abortion. The public are fed an unchanging version of what the abortion choice entails and how women experience it. While it would prove highly unpopular to insist that all pregnant women should carry their pregnancy to term, the idea that abortion could or should be a happy experience for women is virtually unspeakable. In this careful and intelligent work, Erica Millar shows how the emotions of abortion are constructed in sharp contrast to the emotional position occupied by motherhood – the unassailable placeholder for women's happiness. Through an exposition of the cultural and political forces that continue to influence the decisions women make about their pregnancies – forces that are synonymous with the rhetoric of choice – Millar argues for a radical reinterpretation of women's freedom.

Exploring why and how emojis are born, and the different ways in which people use them, this book highlights the diversity of emoji speak. Presenting the results of empirical investigations with participants of British, Belgian, Chinese, French, Japanese, Jordanian, Korean, Singaporean, and Spanish backgrounds, it raises important questions around the complexity of emoji use. Though emojis have become ubiquitous, their interpretation can be more challenging. What is humorous in one region, for example, might be considered inappropriate or insulting in another. Whilst emoji use can speed up our communication, we might also question whether they convey our emotions sufficiently. Moreover, far from belonging to the youth, people of all ages now use emoji speak, prompting Kiaer to consider the future of our communication in an increasingly digital world.

shatter me online pdf: *The Reconceptualization of European Union Citizenship* Elspeth Guild, Cristina Gortázar Rotaecche, Dora Kostakopoulou, 2014-01-09 This book maps out, from a variety of theoretical standpoints, the challenges generated by European integration and EU citizenship for community membership, belonging and polity-making beyond the state. It does so by

focusing on three main issues of relevance for how EU citizenship has developed and its capacity to challenge state sovereignty and authority as the main loci of creating and delivering rights and protection. First, it looks at the relationship between citizenship of the Union and European identity and assesses how immigration and access to nationality in the Member States impact on the development of a common European identity. Secondly, it discusses how the idea of solidarity interacts with the boundaries of EU citizenship as constructed by the entitlement and capacity of mobile citizens to enjoy equality and social rights as EU citizens. Thirdly, the book engages with issues of EU citizenship and equality as the building blocks of the EU project. By engaging with these themes, this volume provides a topical and comprehensive account of the present and future development of Union citizenship and studies the collisions between the realisation of its constructive potential and Member State autonomy.
