The problem is we tend to overreact to these changes, fearing that Christianity is dying. We need better Generational IQ, so we can respond to the changes but not be terrified by them. We need a wise generational coach. Haydn Shaw is that generational expert, showing us the roots of this generational shift and how it affects every one of us. Each generation, whether it's the aging Boomers or the young Millennials, approaches God with a different set of questions and needs based on the times in which they grew up.
