Acclaimed by both critics and audiences on release, the film is now viewed as a remarkable and bold feature by a significant female director addressing many issues related to youth, female sexuality and family. This book helps readers understand the film's significance and the stylistic and storytelling choices made by director Coppola. The analysis of the film occurs around three interlocking arguments: the unusual structuring absence in the film, the intricate manner through which music is used in the drama, communication and character creation, and the film's careful and specific referencing of advertising in the 1970s (the decade of the film's narrative). The film's enigmatic structure and unique storytelling devices and their relationship to female adolescence, sexuality and ideology are also considered in depth. Without solving the mysteries of the film, the book is designed to uncover the reasons why the film continues to fascinate viewers so many years after its release.

the virgin suicides free: American Fiction in Transition Adam Kelly, 2013-04-25 American Fiction in Transition is a study of the observer-hero narrative, a highly significant but critically neglected genre of the American novel. Through the lens of this transitional genre, the book explores the 1990s in relation to debates about the end of postmodernism, and connects the decade to other transitional periods in US literature. Novels by four major contemporary writers are examined: Philip Roth, Paul Auster, E. L. Doctorow and Jeffrey Eugenides. Each novel has a similar structure: an observer-narrator tells the story of an important person in his life who has died. But each story is equally about the struggle to tell the story, to find adequate means to narrate the transitional quality of the hero's life. In playing out this narrative struggle, each novel thereby addresses the broader problem of historical transition, a problem that marks the legacy of the postmodern era in American literature and culture.

After appearing in *The Godfather* as an infant, it took twenty-five years for Coppola to take her place behind the camera, helming her own adaptation of Jeffrey Eugenides's celebrated novel *The Virgin Suicides*. Following her debut, Coppola was the third woman ever to be nominated for Best Director and became an Academy Award winner for Best Original Screenplay for

her sophomore feature, *Lost in Translation*. She has also been awarded the Golden Lion at the Venice Film Festival and Best Director at Cannes. In addition to her filmmaking, Coppola is recognized as an influential tastemaker. She sequenced the so-called Tokyo dream pop of the *Lost in Translation* soundtrack like an album, a success in its own right. Her third film, *Marie Antoinette*, further showcased Coppola's ear for the unexpected needle drop, soundtracking the controversial queen's life with a series of New Romantic bangers popular during the director's adolescence. The conversations compiled within *Sofia Coppola: Interviews* mark the filmmaker's progression from dismissed dilettante to acclaimed auteur of among the most visually arresting, melancholy, and wryly funny films of the twenty-first century. Coppola discusses her approach to collaboration, Bill Murray as muse, and how *Purple Rain* blew her twelve-year-old mind. There are interviews from major publications, but Coppola speaks with musician Kim Gordon for indie magazine *Bust* and Tavi Gevinson, then-adolescent founder of online teen magazine *Rookie*, as well. The volume also features a new and previously unpublished interview conducted with volume editor Amy N. Monaghan in which Coppola discusses her plans for the now-cancelled adaptation of *The Custom of the Country*. To read these interviews is to witness Sofia Coppola coming into her own as a world-renowned artist.

the virgin suicides free: Royal Portraits in Hollywood Elizabeth Ford, 2009-06-26 In the history of cinema, many film genres have gained and lost popularity with the changing times, but one has maintained its supreme reign—the royal biopic. In *Royal Portraits in Hollywood: Filming the Lives of Queens*, authors Elizabeth A. Ford and Deborah C. Mitchell follow the lives of historical queens as depicted on film from the 1930s to the present. Women as diverse as Catherine the Great, Cleopatra, Mary Stuart, and Marie Antoinette have been represented on the silver screen, dominating the masculine world of politics while maintaining their femininity. During the golden age of American film, these roles gave Hollywood a means of portraying powerful women without threatening the patriarchal social order. Depictions of the lives of queens have progressed from idealized and romanticized portraits to the more personal, complex portrayals of modern Hollywood. By walking the line between fact and fiction, these royal portraits of queens reveal just as much our society as they do about the historical periods they represent. Audiences are drawn to the theaters year after year because the lives of queens promise good drama and attract some of the most talented actresses. The success of Hollywood's leading ladies in playing queens further solidifies the link between Hollywood royalty and authentic royalty. Actresses such as Bette Davis, Judy Dench, Helen Mirren, Elizabeth Taylor, and Greta Garbo have done more than influence the way we imagine historical queens—they also have changed how we perceive women in powerful positions today. *Royal Portraits in Hollywood* analyzes seventy-five years of films about queens as well as the lives of the actresses who starred in them. Combining biographical sketches and excerpts from letters and journals, Ford and Mitchell show how filmmaking and our society's perceptions of gender have changed. The authors compare Hollywood's on-screen portrayals to the historical records, often drawing connections to the actresses' careers and personal lives. This comprehensive analysis

provides a more complete picture of the lives that take place behind the thrones—both real and fictional. The spectacle of a woman dressed in the full regalia of power remains a compelling image in our society. Hollywood actresses and the queens they portray are women who wield power, and by examining the lives of these women, the authors reveal not only society's perceptions about female power but also how those perceptions continue to evolve.

From *The Virgin Suicides* to *The Bling Ring*, her work carves out new spaces for the expression of female subjectivity that embraces rather than rejects femininity. Fiona Handyside here considers the careful counter-balance of vulnerability with the possibilities and pleasures of being female in Coppola's films - albeit for the white and the privileged - through their recurrent themes of girlhood, fame, power, sex and celebrity. Chapters reveal a post-feminist aesthetic that offers sustained, intimate engagements with female characters. These characters inhabit luminous worlds of girlish adornments, light and sparkle and yet find homes in unexpected places from hotels to swimming pools, palaces to strip clubs: resisting stereotypes and the ordinary. In this original study, Handyside brings critical attention to a rare female auteur and in so doing contributes to important analyses of

post-feminism, authorship in film, and the growing field of girlhood studies.

In detailed readings of one film and six novels, a view is developed according to which home, as a spatio-temporal imaginary, is rooted in our species being, and as such constitutes the inevitable starting point for any progressive politics.
