This article explores a variety of attention getter examples suitable for self-introduction speeches, providing you with creative ideas and practical tips to make your introduction memorable.

Understanding the Importance of an Attention Getter

Before diving into specific examples, it's important to understand why an attention getter is essential in a self-introduction speech.

What is an Attention Getter?

An attention getter is a compelling opening statement or technique used at the beginning of a speech to immediately capture the audience's interest. It serves as a hook that draws listeners in, encouraging them to pay attention to what you're about to say.

Why is it Important?

- Engages the Audience: A strong start piques curiosity and encourages active listening.
- Builds Credibility: A well-crafted attention getter showcases creativity and confidence.
- Sets the Tone: It establishes the mood and style of your presentation.
- Facilitates Connection: It helps establish rapport with your audience early on.

Types of Attention Getters for Self-Introduction Speeches

Different situations and personalities call for different types of attention getters. Here are some common categories:

1. Start with a Question

Posing a thought-provoking or relatable question invites the audience to think and engages their curiosity.

Example:

"Have you ever met someone who changed your perspective in just a few minutes? Well, that's exactly what I hope to do today."

2. Use a Compelling Quote

A relevant, meaningful quote can set a reflective or inspiring tone.

Example:

> "As Maya Angelou once said, 'We may encounter many defeats but we must not be defeated.' That's a philosophy I live by every day."

3. Share an Interesting Fact or Statistic

Startling facts or statistics can grab attention and introduce your topic naturally.

Example:

"Did you know that the average person spends over six hours a day on digital devices? I'm here to share how I balance my tech-driven life with meaningful connections."

4. Tell a Personal Anecdote or Story

A brief, relevant story creates an emotional connection and humanizes your introduction.

Example:

"When I was ten years old, I got lost during a family trip. That experience taught me the importance of being calm under pressure — a lesson I carry with me today."

5. Use a Bold or Surprising Statement

Starting with a statement that challenges expectations can intrigue your audience.

Example:

"I never thought I'd be standing here today, speaking in front of all of you. But here I am, eager to share my story."

6. Incorporate a Visual or Prop

Using a visual aid or prop at the start can create curiosity and add a memorable element.

attention getter examples for self introduction speech: *Speak No Evil* Jon B. Gould, 2010-02-15 Opponents of speech codes often argue that liberal academics use the codes to advance an agenda of political correctness. But Jon B. Gould's provocative book, based on an enormous amount of empirical evidence, reveals that the real reasons for their growth are to be found in the pragmatic, almost utilitarian, considerations of college administrators. Instituting hate speech policy, he shows, was often a symbolic response taken by university leaders to reassure campus constituencies of their commitment against intolerance. In an academic version of keeping up with the Joneses, some schools created hate speech codes to remain within what they saw as the mainstream of higher education. Only a relatively small number of colleges crafted codes out of deep commitment to their merits. Although college speech codes have been overturned by the courts, *Speak No Evil* argues that their rise has still had a profound influence on curtailing speech in other institutions such as the media and has also shaped mass opinion and common understandings of constitutional norms. Ultimately, Gould contends, this kind of informal law can have just as much power as the Constitution.
