brand bible pdf: Enterprise as an Instrument of Civilization Hirochika Nakamaki, Koichiro Hioki, Izumi Mitsui, Yoshiyuki Takeuchi, 2015-07-25 In this book, the functions and dynamics of enterprises are explained with the use of anthropological methods. The chapters are based on anthropological research that has continued mainly as an inter-university research project, which is named Keiei Jinruigaku, of the National Museum of Ethnology (Japan) since 1993. These studies have a twofold aim: to clarify that enterprises are not only actors in economic activity but also actors that create culture and civilization; and to find the *raison d'être* of enterprises in a global society. Business anthropology is an approach to the investigation of various phenomena in enterprises and management using anthropological methodology (e.g., participant observations and interviews). Historically, its origin goes back to the 1920s-30s. In the Hawthorne experiments, the research group organized by Elton Mayo recruited an anthropologist, Lloyd W. Warner, and conducted research on human relations in the workplace by observation of participants. Since then, similar studies have been carried out in the United States and the United Kingdom. In Japan, however, such research is quite rare. Now, in addition to anthropological methods, the authors have employed multidisciplinary methods drawn from management, economics, and sociology. The research contained here can be characterized in these ways: (1) Research methods adopt interpretative approaches such as hermeneutic and/or narrative approaches rather than causal and functional explanations such as "cause-consequence" relationships. (2) Multidisciplinary approaches including qualitative research techniques are employed to investigate the total entity of enterprises, with their own cosmology. In this book, the totality of activities by enterprises are shown, including the relationship between religion and enterprise, corporate funerals, corporate museums, and the sacred space and/or mythology of enterprises. Part I provides introductions to Keiei Jinruigaku and Part II explains the theoretical characteristics of Keiei Jinruigaku. In addition, research topics and cases of Keiei Jinruigaku are presented in Part III.

brand bible pdf: Deliver Us From Abortion Brian Fisher, 2015-01-15 The author of Abortion: The Ultimate Exploitation of Women offers a blueprint for the American Church to handle abortion in our country. Consider that for the past forty years, a staggering fifty-six million Americans have been killed by abortion. It claims the lives of over 1.2 million children every year, or roughly one child every twenty-five seconds. So why isn't the American church doing something to stop this atrocity, which is the greatest holocaust in American history? The majority of American churches, God's institutions for spreading the gospel of peace and defending the weak and innocent, remain silent. Feeding the poor, stopping human trafficking, rescuing children from abuse, and protecting women from exploitation are all issues the church is addressing. Yet abortion remains eerily absent from the list of church priorities in America. Why isn't it the church's highest priority? Is the American church silent because abortion has become politicized and church leaders are afraid to discuss it or because we simply don't know what the Bible says about it? What will cause the church to wake up, rise up and take this issue to task to save our children? In his latest book, Deliver Us From Abortion, Brian Fisher, co-founder and president of Online for Life, breaks the veil of silence and uncovers the reality of abortion in the church, what the Bible really says about it, and how God has empowered His church to end this unspeakable tragedy. Praise for Deliver Us from Abortion "This book provides a powerful defense for the children who can't speak for themselves." —Josh McDowell, bestselling author of 138 books including More Than a Carpenter "Abortion is the greatest moral crisis of our generation, yet far too many churches have remained silent. In Deliver Us From Abortion, Brian Fisher offers a blueprint for the American church that is both instructive and encouraging. I pray that we can all hear and accept his challenge." —Dr. Tony Evans, president, The Urban Alternative, senior pastor, Oak Cliff Bible Fellowship "Growing up in the King family during the Civil Rights era, I know what the church can accomplish. I am so glad Brian has written this book. May it challenge and equip the church to end the abortion holocaust in America." —Dr. Alveda King, director of African-American outreach, Priests for Life
