Sample Business Law Exam Questions and Answers

Question 1: What are the essential elements required to form a legally binding contract?

Answer: The essential elements of a legally binding contract include:

1. **Offer:** A clear proposal made by one party to another indicating a willingness to enter into an agreement.
2. **Acceptance:** The unequivocal agreement to the terms of the offer by the other party.
3. **Consideration:** Something of value exchanged between the parties.
4. **Mutual Intent:** Both parties must intend to create a legal obligation.
5. **Legal Capacity:** Parties must have the legal capacity to contract (e.g., age, mental competence).
6. **Legality of Purpose:** The contract's purpose must be lawful.

Question 2: Explain the concept of "agency by estoppel."

Answer: Agency by estoppel occurs when a principal's actions lead a third party to believe that an individual is authorized to act as their agent, and the third party reasonably relies on this belief. If the principal's conduct causes a third party to rely on the appearance of agency, the principal may be prevented (estopped) from denying the agency relationship, making the principal liable for the agent's actions within that scope.

Question 3: What are the primary differences between a sole proprietorship and a corporation?

Answer: The main differences include:

- **Liability:** Sole proprietors have unlimited personal liability, whereas corporations provide limited liability to shareholders.
- **Formation:** Sole proprietorships are easier and less costly to establish; corporations require formal registration, bylaws, and compliance with legal formalities.
- **Taxation:** Sole proprietorship income is taxed as personal income; corporations may be taxed separately (C-corp) or pass-through (S-corp).
- **Management:** Sole proprietors manage their business alone; corporations have a board of directors and officers.
