Frequently Asked Questions

What are the key scoring rules outlined in the NCAA volleyball rule book?

The NCAA volleyball rule book states that matches are played best-of-five sets, with each set played to 25 points and a team needing a two-point lead to win. If the match reaches a fifth set, it is played to 15 points, still requiring a two-point lead. Rally scoring is used, meaning a point is awarded on every serve regardless of which team served.

How does the NCAA rule book define illegal touches and faults?

The NCAA rule book specifies that a player cannot touch the ball more than once consecutively unless the first contact was a block. Illegal touches include carrying or palming the ball, reaching over the net to make a play, or touching the net during a rally. Faults result in a point for the opposing team and a side out.

What are the rules regarding player rotations and substitutions in NCAA volleyball?

Players must rotate clockwise after winning the rally when they gain the serve, ensuring each player gets to serve in each rotation. Substitutions are limited to 15 per set, and players can re-enter the game at the same position they previously occupied, with substitutions only allowed at the designated times during the rally stoppages.

What modifications does the NCAA rule book include regarding net violations?

The NCAA rule book states that a player cannot touch the net during a play, and doing so results in a fault. If a player reaches over the net to make contact with the ball during a rally, it is only legal if it occurs during an attempted attack hit, provided the player does not interfere with the opponents' space or contact the net itself.

Are there specific rules about libero players in NCAA volleyball?

Yes, the NCAA rule book designates the libero as a specialized defensive player who cannot attack the ball above the net's height or serve in some cases, depending on the rules. The libero must wear a different jersey and can substitute freely in the back row without counting against team substitutions, but they cannot serve in most cases unless specified by the league's rules.

How does the NCAA volleyball rule book address challenges and video review procedures?

The NCAA allows teams to challenge certain officiating calls, such as line calls and net violations, using video review. Coaches are allotted a specific number of challenges per set, and a successful challenge results in the call being overturned. The review process is conducted by officials using video technology, ensuring correct calls and fair play.
