In 'This Assembly of Believers' Bryan Cones seeks to take seriously the pastoral context of a congregation, recognising the physical ability, gender and sexuality of those who make up the congregation. Starting each chapter with their lived experience, Cones poses important questions of the liturgy in light of these experiences before realigning the liturgy to demonstrate the positive theological significance of the marginalised within the congregation.

2024-05-23 *Servanthood of Song* is a history of American church music from the colonial era to the present. Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today. The gulf which separates advocates of traditional and contemporary worship--Black and White, Protestant and Catholic--is not new. History repeatedly shows us that ministry, to be effective, must meet the needs of the entire worshiping community, not just one segment, age group, or class. *Servanthood of Song* provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional, classically oriented church music are both unnecessary and counterproductive. It also draws from history to show that, to be the powerful component of worship it can be, music--whatever the genre--must be viewed as a ministry with training appropriate to that. *Servanthood of Song* provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today.
