acts retreat love letters example: Elizabeth Bishop's Prosaic Vidyan Ravinthiran, 2015-07-01 Elizabeth Bishop is now recognized as one of the greatest poets of the twentieth century—a uniquely cosmopolitan writer with connections to the US, Canada, Brazil, and also the UK, given her neglected borrowings from many English authors, and her strong influence on modern British verse. Yet the dominant biographical/psychoanalytical approach leaves her style relatively untouched—and it is vital that an increasing focus on archival material does not replace our attention to the writing itself. Bishop's verse is often compared with prose (sometimes insultingly); writing fiction, she worried she was really writing poems. But what truly is the difference between poetry and prose—structurally, conceptually, historically speaking? Is prose simply formalized speech, or does it have rhythms of its own? Ravinthiran seeks an answer to this question through close analysis of Bishop's prose-like verse, her literary prose, her prose poems, and her letter prose. This title is a provocation. It demands that we reconsider the pejorative quality of the word prosaic; playing on mosaic, Ravinthiran uses Bishop's thinking about prose to approach—for the first time—her work in multiple genres as a stylistic whole. Elizabeth Bishop's *Prosaic* is concerned not only with her inimitable style, but also larger questions to do with the Anglo-American shift from closed to open forms in the twentieth century. This study identifies not just borrowings from, but rich intertextual relationships with, writers as diverse as—among others—Gerard Manley Hopkins, W.H. Auden, Virginia Woolf, Flannery O'Connor, and Dorothy Richardson. (Though Bishop criticized Woolf, she in particular is treated as a central and thus far neglected precursor, crucial to our understanding of Bishop as a feminist poet.) Finally, the sustained discussion of how the history of prose frames effects of rhythm, syntax, and acoustic texture—in both Bishop's prose proper and her prosaic verse—extends a body of research which seeks now to treat literature as a form of cognition. Technique and thought are finely wedded in Bishop's work—her literary forms evince a historical intelligence attuned to questions of power, nationality, tradition (both literary and otherwise), race, and gender.

acts retreat love letters example: Shaw Gale K. Larson, 2001 SHAW 21 offers readers an eclectic perspective on Shaw, his works, and his contemporaries. Basil Langton, actor and director, reminisces about his early development as an actor, his meeting with Shaw, and his career as director of many of Shaw's plays. He focuses upon Shaw's stagecraft, augmenting his views with those of Sybil Thorndike and Sir Lewis Casson, whom he interviewed in 1960. Galen Goodwin Longstreth analyzes the correspondence between Shaw and Ellen Terry and argues that the exchange is itself a literary genre, a dramatic performance that reveals their personal identities. The next two contributors, Stanley Weintraub and Andrea Adolph, examine the Shaw/Virginia Woolf relationship. Weintraub focuses on those occasions when their respective lives touched each other, what their feelings for each other were, and how those occasions were obliquely woven into Shaw's plays, most notably *Heartbreak House*. Professor Adolph argues that in Woolf's only dramatic text, *Freshwater: A Comedy*, she was conforming to the traditional theatrical mode of the day, dominated,

of course, by Shaw, but that she subverted his traditional literary depiction of paternity as, for example, the paternity dramatized in *Major Barbara*. Sidney Albert and Bernard Dukore provide unique perspectives on reading *Major Barbara*. Albert shows how John Bunyan's *The Pilgrim's Progress* serves as Shaw's source for Barbara's progress toward enlightened understanding. Dukore, focusing on the perspective of the familial relationship within the play, concludes that Shaw's dialectic gives the kids the future and not the dad. It will be the next generation, not Father Undershaft, who will determine where society will go next. Julie Sparks and Martin Bucco approach Shaw from a comparative basis, juxtaposing him with two American writers, contemporaries of Shaw, Mark Twain and Sinclair Lewis, respectively. Sparks explores the commonality that exists in Shaw's and Twain's thinking about evolution, namely, their heretical visions of a post-Darwinian Eden. Both viewed conventional Christianity iconoclastically, but both arrived at different conclusions about human origin and destiny, a view Sparks describes as emanating from the deist-pessimist-evolutionary-determinist perspective versus the mystic-optimistic-creative-evolutionist perspective, or the Personal Godhead versus the Impersonal Force. Professor Bucco enumerates the many references Sinclair Lewis makes to Bernard Shaw throughout his writings, both prose and fiction, to underscore the American novelist's admiration for the Irish playwright, both recipients of the Nobel Prize for Literature. The final two contributors to SHAW 21, Rodelle Weintraub and William Doan, provide the readers with distinctive perspectives on John Bull's *Other Island* and *The Doctor's Dilemma*, respectively. Weintraub recasts the play into a dream sequence whereby Doyle's dream becomes an artifice for problem solving. Implied within Father Keegan's lines in the play, Every dream is a prophecy: every jest is an earnest in the womb of Time, is the resolution of Doyle's problem with Nora, the girl he had left behind, and of the dream of modernizing Roscullen. Doan suggests that in *The Doctor's Dilemma* Shaw uses the idea of unconsummated adultery to argue for the efficacy of art over science. In the conflict between the artist and the scientist, the latter plans to have the artist's muse. In the end, not only is he deprived of the wife but also of the works of art themselves and the spirit that animates them. SHAW 21 also includes three reviews of recent additions to Shavian scholarship as well as John R. Pfeiffer's Continuing Checklist of Shaviana.

Bocchicchio, 2021-05-11 "Will be required reading not just for students of eighteenth-century literature but also for feminist critics and historians of the novel." —Sandra M. Gilbert, award-winning poet and literary critic The most prolific woman writer of the eighteenth century, Eliza Haywood (1693-1756?) was a key player in the history of the English novel. Along with her contemporary Defoe, she did more than any other writer to create a market for fiction prior to the emergence of Richardson, Fielding, and Smollett. Also one of Augustan England's most popular authors, Haywood came to fame in 1719 with the publication of her first novel, *Love in Excess*. In addition to writing fiction, she was a playwright, translator, bookseller, actress, theater critic, and editor of *The Female Spectator*, the first English periodical written by women for women. Though tremendously popular, her novels and plays from the 1720s and 30s scandalized the reading public with explicit portrayals of female sexuality and led others to call her "the Great Arbitress of Passion." Essays in this collection explore themes such as the connections between Haywood's early and late work, her experiments with the form of the novel, her involvement in party politics, her use of myth and plot devices, and her intense interest in the imbalance of power between men and women. Distinguished scholars such as Paula Backscheider, Felicity Nussbaum, and John Richetti approach Haywood from a number of theoretical and topical positions, leading the way in a crucial reexamination of her work. *The Passionate Fictions of Eliza Haywood* examines the formal and ideological complexities of her prose and demonstrates how Haywood's texts defy traditional schematization.

acts retreat love letters example: Early Modern Women's Writing and Sor Juana Inés de la Cruz Stephanie Merrim, 1999 This book maps the field of seventeenth-century women's writing in Spanish, English, and French and situates the work of Sor Juana more clearly within that field. It

holds up the multi-layered, proto-feminist writings of Sor Juana as a meaningful lens through which to focus the literary production of her female contemporaries. Merrim's book advances the integration of Hispanic women authors and women's issues into the panorama of early modern women's writing and opens up unexplored commonalities between Sor Juana and her sister writers. Early modern women writers whose works are explored include Marie de Gournay, Margaret Fell Fox, Catalina de Erauso, Maria de Zayas, Ana Caro, Mme de Lafayette, Anne Bradstreet, St. Teresa, and Margaret Lucas Cavendish. Merrim's study provides a full-bodied picture of the resources that the cultural and historical climates of the seventeenth century placed at the disposal of women writers, the manners in which women writers instrumentalized them, the building blocks and concerns of early modern women's writing, and the continuities between early modern and modern women's writing. Written in an engaging, clear manner, this innovative study will be of interest not only to Hispanists but also to scholars in early modern studies, women's studies, history, and comparative literature.

acts retreat love letters example: Letters of St. Therese of Lisieux, Volume I St. Therese of Lisieux, 2014-07-07 Letter writing at the end of the nineteenth century was an important activity for the people of France. Those who received letters from family and friends alike usually kept the hand-written texts sent to them as precious gifts. That is why this collection of letters by and to one of the greatest saints of modern times is so interesting to us today. No mere notes slapped together in distracted haste, the missives found in this volume reveal communications of warm personal sentiment along with expressions of lively spiritual development. Thérèse's efforts as a fifteen-year-old to enter Carmel before reaching the required age appear in revealing detail. This tortuous course of a very subtle diplomacy is set out not only by the letters of Thérèse herself, but also by those of so many others who shared her hopes and eventual victory. The translator-editor gives us 75 pages of introductory remarks to Thérèse's letters. This volume also includes 4 pages of facsimiles of Thérèse's letters.

acts retreat love letters example: Epistolary Community in Print, 1580-1664 Diana G. Barnes, 2016-05-13 *Epistolary Community in Print* contends that the printed letter is an inherently sociable genre ideally suited to the theorisation of community in early modern England. In manual, prose or poetic form, printed letter collections make private matters public, and in so doing reveal, first how tenuous is the divide between these two realms in the early modern period and, second, how each collection helps to constitute particular communities of readers. Consequently, as *Epistolary Community* details, epistolary visions of community were gendered. This book provides a genealogy of epistolary discourse beginning with an introductory discussion of Gabriel Harvey and Edmund Spenser's *Wise and Wittie Letters* (1580), and opening into chapters on six printed letter collections generated at times of political change. Among the authors whose letters are examined are Angel Day, Michael Drayton, Jacques du Bosque and Margaret Cavendish. *Epistolary Community* identifies broad patterns that were taking shape, and constantly morphing, in English printed letters from 1580 to 1664, and then considers how the six examples of printed letters selected for discussion manipulate this generic tradition to articulate ideas of community under specific historical and political circumstances. This study makes a substantial contribution to the rapidly growing field of early modern letters, and demonstrates how the field impacts our understanding of political discourses in circulation between 1580 and 1664, early modern women's writing, print culture and rhetoric.

in various ways: as the first letters written by a person, such as the letters of children, or of drafts which were preserved, amended and copied; as the first letter of a particular type, such as an experienced letter-writer's first love letter; and as the first letter to a new correspondent, among many others. The idea of a first letter also suggests a link with the letters that follow: what is the connection between the first letter and those which come after it? Written by academics specializing in letter-writing internationally, this volume examines the letters of various authors, philosophers, and artists, including Benjamin Constant, José-Maria de Heredia, Voltaire, Diderot, Coleridge, De Quincey, and others. It is structured in four sections: letters from youth; first letters in fictional works; the writer's persona; and first letters within correspondence.

Carol Mason weaves a story about how homogenizing, antigay ideas evolve from generation to generation so that they achieve particular economic, imperial, racial, and gendered goals. Using engaging and accessible commentary on antigay crusaders (Sally Kern and Anita Bryant) and two queer teachers dismissed from their positions (Billy James Hargis and Bruce Goff), Mason illustrates how the lives of these figures represent paradigmatic moments in conservative confrontations with queers and help us to understand the conflation of terrorism with homosexuality, which dates back to the McCarthy era.

acts retreat love letters example: *Letters of a Peruvian Woman* Françoise de Graffigny, 2009-01-08 'It has taken me a long time, my dearest Aza, to fathom the cause of that contempt in which women are held in this country ...' Zilia, an Inca Virgin of the Sun, is captured by the Spanish

conquistadores and brutally separated from her lover, Aza. She is rescued and taken to France by Déterville, a nobleman, who is soon captivated by her. One of the most popular novels of the eighteenth century, the Letters of a Peruvian Woman recounts Zilia's feelings on her separation from both her lover and her culture, and her experience of a new and alien society. Françoise de Graffigny's bold and innovative novel clearly appealed to the contemporary taste for the exotic and the timeless appetite for love stories. But by fusing sentimental fiction and social commentary, she also created a new kind of heroine, defined by her intellect as much as her feelings. The novel's controversial ending calls into question traditional assumptions about the role of women both in fiction and society, and about what constitutes 'civilization'. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.
