avancemos 4: Sistemas políticos de América Latina Manuel Alcántara Sáez, 2013-12-16 La política latinoamericana ha consolidado alguna de las tendencias que ya estaban presentes hace una década. Ha continuado el asentamiento de la institucionalidad poliárquica procesando el conflicto político mediante elecciones o arreglos institucionales que han sido capaces de encauzar las muy severas crisis enfrentadas. Los comicios han seguido siendo la guía de la vida política, pese a cierta desconfianza social en su desarrollo, y son el instrumento a través del cual se ha articulado la acción política. Mientras tanto, el universo partidista ha continuado sufriendo profundas mutaciones en lo atinente a sus ataduras ideológicas, en la volatilidad de las ofertas electorales y en su drástica desinstitucionalización en la mitad de los países que se consideran en este volumen. Poco a poco se han ido conformando dos modelos de hacer política que, en gran medida, se alinean con el tradicional continuo izquierda-derecha y que, a su vez, retoman viejos temas de la política de la región como el nacionalismo, el papel del Estado, la personalización de la política, las relaciones con Estados Unidos, la integración regional, el multiculturalismo de carácter fundamentalmente étnico y

la inclusión social.

avancemos 4: En busca de la totalidad Ken Wilber, 2025-02-19 La búsqueda perpetua de crecimiento y plenitud suele estar incompleta. Ken Wilber combina las aportaciones de la espiritualidad, la psicología, el trabajo con la sombra, la ciencia y la teoría integral para ofrecernos un camino hacia una totalidad radical y auténtica que abarca cinco dimensiones: Despertar, Madurar, Abrirse, Limpiar y Manifestarse. Ningún otro enfoque de crecimiento integra estas cinco dimensiones, cada una de las cuales representa un recorrido único hacia la totalidad. Al combinar e integrar estos aspectos, alcanzamos lo que Wilber llama la Gran Totalidad: una experiencia plena en la que todos los aspectos de nuestra vida se unen para conectarnos profundamente, no solo con nosotros mismos, sino también con todo aquello que nos rodea. El autor también explora cómo desarrollar nuestras inteligencias múltiples, expandir nuestra conciencia espiritual, procesar lo que permanece oculto en las profundidades de nuestra psique y profundizar el amor y la dicha a través de la práctica del tantra integral.
