color by sight word free pdf: *The Bates Method - Perfect Sight Without Glasses* William H. Bates, Emily A. Bates, 2017-06-29 See our YouTube Channel for VIDEOS of the book with color pictures, animations, (video in video) Natural Eyesight Improvement training by Bates Method author-teacher Clark Night; https://www.youtube.com/watch?v=GhEy4Ys_pKU This book is the Google Play text version of Perfect Sight Without Glasses. Contains only Ophthalmologist Bates' book, Better Eyesight Magazine, extra training, pictures to learn the method quickly and eyecharts. Dr. W. H. Bates started his career as an orthodox ophthalmologist following the old, long time rules of the practice; prescribing eyeglasses... During his practice, working with different patients, eye conditions, he realized that unclear close, distant vision, astigmatism and other conditions often cured itself, reversed back to clear vision, especially when his patients stopped wearing their eyeglasses and relaxed. He noticed that wearing glasses 'tensed' the eyes, eye muscles, lowered the vision and resulted in stronger and stronger eyeglass lens prescriptions being needed in order to see clear through the glasses. He began his own studies on the eye and its function. This led him to discover that many of the old ophthalmology, optometry 'supposed facts' about the eye, lens and its function and cause of unclear vision... are incorrect. Dr. Bates began teaching his patients to stop wearing their glasses. He taught them natural methods, including relaxation, correct use of the eyes/vision (shifting...) to produce clear vision. Dr. Bates cured his own eyesight, close vision, presbyopia. Distant vision also clear. He wrote an article in his book, magazine describing how he did it with Memory, Imagination, Relaxation. 'He controlled, changed the focus of light rays in his eyes with his mind.' Dr. Bates performed experiments on the eyes of animals, and observed the function of animal, patient's eyes under different conditions. He used the retinoscope to see the refraction of light rays in the eye under various conditions. He proved that the refraction, clarity of vision changes often. And when the eyes are left alone, eyeglasses avoided; the refraction, clarity returns to normal-clear vision. He proved that the state of the mind, thoughts, emotions, body change the refraction of the eye, clarity of vision. Example: when the mind, body is relaxed, positive, happy thoughts, emotions; the refraction is normal and vision is clear. When the mind, body is under stress, strain; the refraction is abnormal and vision is unclear. Dr. Bates discovered that the main

cause of unclear vision and other eye problems is; Wearing Eyeglasses, Mental Strain, Mental, Visual Effort to See, Poor Vision Habits-incorrect use of the eyes/vision; squinting, staring, not shifting-lack of normal, relaxed eye movements, lack of central-fixation, poor memory and imagination... Perfect Sight occurs with Perfect Relaxation (deep or active/dynamic relaxation). Relaxation occurs first, and then the eyesight becomes clear. Practicing normal, relaxed eye/vision function induces relaxation of the mind, eyes and perfect clarity. Dr. Bates' experiments on the outer eye muscles proved that tension in these muscles (mainly caused by eyeglasses, strain in the mind, incorrect vision habits) disrupts their function, the eyes movement, accommodation, convergence, un-accommodation, divergence, causes pressure, tension, pulling on/in the eye, alters the eyes' shape, (and lens, retina...), disrupts refraction, focus of light rays in the eye, on the retina and the clarity of vision. When the mind is strained, tense, the brain and retina do not communicate/function together at optimum level. Function of the retina is lowered. Relaxing the mind, returning normal eye movement relaxes the outer, inner eye muscles, returns the eyes, lens, retina... to normal shape with clear vision.
