I couldn't put this twisty tale down."—Julia Bartz, author of *The Writing Retreat* "Readers of dark academia, prepare to meet your new obsession."—Laurie Elizabeth Flynn, author of *The Girls Are All So Nice Here* How far would you go to belong? Maya has returned to Princeton for her college reunion—it's been a decade since she graduated, and she is looking forward to seeing old faces and reminiscing about her time there. This visit is special because Maya will also be attending the graduation of her little sister, Naomi. But what should have been a dream weekend becomes Maya's worst nightmare when she receives the news that Naomi is dead. The police are calling it an accident, but Maya suspects that there is more to the story than they are letting on. As Maya pieces together what happened in the months leading up to her sister's death, she begins to realize how much Naomi hid from her. Despite Maya's warnings, Naomi had joined Sterling Club, the most exclusive social club on campus—the same one Maya belonged to. And if she had to guess, Naomi was likely tapped for the secret society within it. The more Maya uncovers, the more terrified she becomes that Naomi's decision to follow in her footsteps might have been what got her killed. Because Maya's time at Princeton wasn't as wonderful as she'd always made it seem—after all, her sister wasn't the first young woman to turn up dead. Now every clue is leading Maya back to the past . . . and to the secret she's kept all these years.

maya banks 2023: *Childhood Traumatic Experiences: New Clinical Perspectives and Interventions* Valeria Verrastro, Stefano Eleuteri, Goran Arbanas, Valeria Saladino, Vincenzo Auriemma, 2025-08-13 Trauma and abuses experienced in childhood, such as bereavement, divorce, imprisonment of a family member, and physical, sexual, and psychological abuse, constitute elements of risk for development. Trauma might affect the psychophysical well-being of the future adult in social, familial, and affective domains. A traumatic event can be considered as a condition that is perpetuated over time within the family or social context, such as intra-family sexual abuse, or the loss or arrest of a parent who is missing. Trauma exposure and negligent caregiving can lead to psychological and behavioral problems, such as mood and eating disorders, PTSD and C-PTSD, traumatic grief symptoms, self-harm, aggressive and offending behaviors. New perspectives in research and clinical interventions are sought.

maya banks 2023: *Backwoods* Jill Sorenson, 2014-05-27 A backwoods camping trip leads two divorced parents into dangerous terrain when a child goes missing in this novel from "a master of romantic suspense" (Booklist, starred review). Abby Hammond was hoping for a getaway with her teenage daughter, Brooke. She didn't realize the nature retreat would also include Brooke's stepbrother and his dad, Nathan Strom. The only thing Abby has in common with the former pro athlete is that their exes cheated with each other. That, and a visceral attraction that's growing

more complicated with every step through the picturesque woods. Nathan's bad-boy reputation lost him his career and his family. After years of regret, he's ready to fight for what truly matters—and that includes Abby's hard-won trust. When Brooke goes missing, Nathan is determined to come to the rescue. But the deeper they go into the rugged mountains, the more dangerous the territory will prove—for their safety and for their hearts.

maya banks 2023: Housebroke Jaci Burton, 2023-12-12 A millionaire and a woman who thinks he's a house flipper are stuck living in a house together with a menagerie of rescue dogs as roommates, in this heartfelt romantic comedy from New York Times bestselling author Jaci Burton. After her ex took all their money and bailed, Hazel Bristow is left broke and homeless. A kind friend whose home is on the market lets Hazel and her foster dogs stay there until it sells. It's the perfect setup, until her friend forgets to tell Hazel she's sold the house. Linc Kennedy is shocked to find Hazel and her pups squatting in the house he just bought, but after some negotiating—she offers to cook amazing meals for him in return for a paycheck—he agrees to let her remain while he's renovating the place. Linc tells Hazel he's an investor who renovates homes for fun—he just leaves out the part about being wealthy. Hazel's intrigued by Linc. He's funny, sweet, ridiculously hot, and loves dogs almost as much as she does. But her track record with men? Not great. She worries her trust meter isn't in working order. Linc's never met anyone like the quirky beauty who puts everyone's needs—human and canine—before her own. He didn't tell her about his wealth because he's been burned by women who only wanted him for his money. But with Hazel, he's never felt more like himself. Now he has to figure out how to tell her the truth without losing her. Because Linc realizes what he feels for her isn't puppy love—it's true love.

maya banks 2023: Sorry for the Inconvenience But this is an Emergency Lynne Jones, 2024 As floods and fires rage across the planet, ever more people are embracing nonviolent action to achieve political change. Can it work? Doctor and aid worker Lynne Jones offers a compelling, ground-level account of the last five years of UK protests, exploring how and why ordinary citizens have adopted extraordinary methods to confront the climate and nature crises. Sharing her 1980s experiences opposing nuclear weapons at Greenham Common, and her journey in movements like Extinction Rebellion today, Jones reflects on public history and her personal story to unpack nonviolent protest in a world on the brink. Can we learn from past movements? How to communicate with those who disagree? What kind of disruption is most effective in Western democracies? Is property damage nonviolent? Is the law just? How important are direct interventions, boycotts and non-cooperation? What can indigenous campaigners of the Global South teach us? A lifetime of activism has taught Jones that we all have more power than we realise. It's time to use that power—before it's too late.

maya banks 2023: The Maya of Morganton Leon Fink, 2024-10-22 In 2003, Leon Fink published his oral history of Guatemalan and Mexican migrants in Morganton, North Carolina, and their fight for unionization in a poultry processing plant. In the following years, Fink remained in touch with many of the people he profiled in the book, and in 2022 he returned to Morganton to interview them and talk with their children, new migrants in the area, and community leaders, particularly women. Their conversations covered a wide range of topics, including labor struggles and victories, grassroots and electoral political organizing, social activism (especially on issues affecting undocumented migrants), class mobility for second-generation migrants, and new cooperative worker-owned institutions, including a bookstore, a textile factory, and a preschool. This revised and expanded edition of *The Maya of Morganton* reveals what Fink found on his return to Morganton, documenting two decades of continuity and change in a new preface and chapter. Together, the new and original material present a comprehensive yet intimate examination of the migrant experience in western North Carolina.

maya banks 2023: Data Management in Large-Scale Education Research Crystal Lewis, 2024-07-09 Research data management is becoming more complicated. Researchers are collecting more data, using more complex technologies, all the while increasing the visibility of our work with the push for data sharing and open science practices. Ad hoc data management practices may have worked for us in the past, but now others need to understand our processes as well, requiring researchers to be more thoughtful in planning their data management routines. This book is for anyone involved in a research study involving original data collection. While the book focuses on quantitative data, typically collected from human participants, many of the practices covered can apply to other types of data as well. The book contains foundational context, instructions, and practical examples to help researchers in the field of education begin to understand how to create data management workflows for large-scale, typically federally funded, research studies. The book starts by describing the research life cycle and how data management fits within this larger picture. The remaining chapters are then organized by each phase of the life cycle, with examples of best practices provided for each phase. Finally, considerations on whether the reader should implement, and how to integrate those practices into a workflow, are discussed. Key Features: Provides a holistic approach to the research life cycle, showing how project management and data management processes work in parallel and collaboratively Can be read in its entirety, or referenced as needed throughout the life cycle Includes relatable examples specific to education research Includes a discussion on how to organize and document data in preparation for data sharing requirements Contains links to example documents as well as templates to help readers implement practices

maya banks 2023: Invisible Rivals Jonathan R Goodman, 2025-06-17 A multidisciplinary view of how our competitive and cooperative natures make us human For centuries, people have argued about whether humans are moral animals—good or bad, cooperative or competitive, altruistic or selfish. The debates continue today, dressed up in the language of modern science. In this book, Jonathan R. Goodman makes the case for synthesizing the two sides. Drawing on insights from anthropology, evolutionary biology, and philosophy, he argues that rather than being fundamentally cooperative or competitive, we are capable of being both—and of exploiting each other when there is an opportunity to do so. The core of invisible rivalry is how we make ourselves and others believe that we are acting cooperatively even as we manipulate those around us for our own benefit. In confronting this collective tendency toward self-interest, Goodman says, we can make the fundamental first step in fixing the breakdown of trust in society. Consequently, we will be better able to combat the myriad issues we face today, including widespread inequality, misinformation in a new technological environment, and climate change.
