poet rich or barbeau: *The Cambridge Companion to Postcolonial Poetry* Jahan Ramazani, 2017-02-27 The Cambridge Companion to Postcolonial Poetry is the first collection of essays to explore postcolonial poetry through regional, historical, political, formal, textual, gender, and comparative approaches. The essays encompass a broad range of English-speakers from the Caribbean, Africa, South Asia, and the Pacific Islands; the former settler colonies, such as Canada, Australia, and New Zealand, especially non-Europeans; Ireland, Britain's oldest colony; and postcolonial Britain itself, particularly black and Asian immigrants and their descendants. The comparative essays analyze poetry from across the postcolonial anglophone world in relation to postcolonialism and modernism, fixed and free forms, experimentation, oral performance and creole languages, protest poetry, the poetic mapping of urban and rural spaces, poetic embodiments of sexuality and gender, poetry and publishing history, and poetry's response to, and reimagining of, globalization. Strengthening the place of poetry in postcolonial studies, this Companion also contributes to the globalization of poetry studies.

poet rich or barbeau: *Writing Anthropologists, Sounding Primitives* A. Elisabeth Reichel, 2021-08 Writing Anthropologists, Sounding Primitives re-examines the poetry and scholarship of three of the foremost figures in the twentieth-century history of U.S.-American anthropology: Edward Sapir, Margaret Mead, and Ruth Benedict. While they are widely renowned for their contributions to Franz Boas's early twentieth-century school of cultural relativism, what is far less known is their shared interest in probing the representational potential of different media and forms of writing. This dimension of their work is manifest in Sapir's critical writing on music and literature and Mead's groundbreaking work with photography and film. Sapir, Mead, and Benedict together also wrote more than one thousand poems, which in turn negotiate their own media status and rivalry with other forms of representation. A. Elisabeth Reichel presents the first sustained study of the published and unpublished poetry of Sapir, Mead, and Benedict, charting this largely unexplored body of work and relevant selections of the writers' scholarship. In addition to its expansion of early twentieth-century literary canons, Writing Anthropologists, Sounding Primitives contributes to current debates about the relations between different media, sign systems, and modes of sense perception in literature and other media. Reichel offers a unique contribution to the history of anthropology by synthesizing and applying insights from the history of writing, sound studies, and intermediality studies to poetry and scholarship produced by noted early twentieth-century U.S.-American cultural anthropologists. poet rich or barbeau: *American Communities: Between the Popular and the Political* Lukas Etter, Julia Straub, 2017-12-04 Given the political relevance of the topic of community and the apparent volatility of its meanings, it is necessary to take time and create spaces for contemplation. How can theories of community be usefully applied to various forms of cultural production? How do notions of *communitas* affect representations as well as critiques of society and social

developments? Based on a selection of papers given at the biennial conference of the Swiss Association for North American Studies in late 2016, this collection approaches discourses on literary texts and other cultural products from such angles as age studies, popular seriality, sustainability, and ecocriticism. While focused on community in contemporary American Studies, the articles in this collection also take into account some of the developments and issues surrounding community at a moment of heightened sensitivity towards this topic beyond academia.

poet rich or barbeau: Writing the Hamat'sa Aaron Glass, 2021-07-15 Long known as the Cannibal Dance, the Hamatsa is among the most important hereditary prerogatives of the Kwakwaka'wakw of British Columbia. In the late nineteenth century, as anthropologists arrived to document the practice, colonial agents were pursuing its eradication and Kwakwaka'wakw were adapting it to endure. In the process, the dance – with dramatic choreography, magnificent bird masks, and an aura of cannibalism – entered a vast library of ethnographic texts. Writing the Hamatsa offers a critical survey of attempts to record, describe, and interpret the dance over four centuries. Going beyond postcolonial critiques of representation that often ignore Indigenous agency in the ethnographic encounter, Writing the Hamatsa focuses on forms of textual mediation and Indigenous response that helped transform the ceremony from a set of specific performances into a generalized cultural icon. This meticulous work illuminates how Indigenous people contribute to, contest, and repurpose texts in the process of fashioning modern identities under settler colonialism.

poet rich or barbeau: Eternity in British Romantic Poetry Madeleine Callaghan, 2022-05-13 Eternity in British Romantic Poetry explores the representation of the relationship between eternity and the mortal world in the poetry of the period. It offers an original approach to Romanticism that demonstrates, against the grain, the dominant intellectual preoccupation of the era: the relationship between the mortal and the eternal. The project's scope is two-fold: firstly, it analyses the prevalence and range of images of eternity (from apocalypse and afterlife to transcendence) in Romantic poetry; secondly, it opens up a new and more nuanced focus on how Romantic poets imagined and interacted with the idea of eternity. Every poet featured in the book seeks and finds their uniqueness in their apprehension of eternity. From Blake's assertion of the Eternal Now to Keats's defiance of eternity, Wordsworth's 'two consciousnesses' versus Coleridge's capacious poetry, Byron's swithering between versions of eternity compared to Shelleyan yearning, and Hemans's superlative account of everlasting female suffering, each poet finds new versions of eternity to explore or reject. This monograph sets out a paradigm-shifting approach to the aesthetic and philosophical power of eternity in Romantic poetry.

poet rich or barbeau: Otherworldly John Dryden Jack M. Armistead, 2016-05-13 Reminding readers of John Dryden's persistent use of occult rhetoric, Jack M. Armistead argues that Dryden's otherworldliness involves more than Christian apologetics, biblical typology, or intermittent borrowings from the supernatural materials in classical literature. Rather, it manifests throughout his career in occult materials drawn from many traditions, including but going well beyond the standard classical and Christian ones. As Armistead shows, Dryden's practice of juxtaposing pre- and post-scientific treatments of such occult topics as alchemy, astrology, and demonology pervades many of his poems and plays. In its engagement with works such as *The Indian Queen*, *Annus Mirabilis*, *All for Love*, and *Absalom and Achitophel*, among many others, *Otherworldly John Dryden*

not only enhances our understanding of Dryden's works, but also tracks the writer's attitudes about Providence and the ability of the poet to perceive a hidden design in earthly events.

poet rich or barbeau: Approaches to Teaching Milton's Shorter Poetry and Prose Peter C. Herman, 2007 Milton's shorter poetry and prose can be challenging to teach, but they reward instructors and students many times over: they introduce in compact, accessible form the themes and difficult syntax of *Paradise Lost*, expand and comment on the epic and on one another, and provide students ideal training in close reading. The essays in this volume constitute a road map for exploring the most frequently taught of Milton's shorter works-Lycidas, the Nativity Ode, *Comus*, *Samson Agonistes*, *Areopagitica*, and *The Doctrine and Discipline of Divorce*-as well as the sonnets, *Paradise Regained*, *The Reason of Church Government*, and *The Ready and Easy Way to Establish a Free Commonwealth*, among others. The contributors demonstrate ways of incorporating Milton's shorter works into a range of classrooms, from survey courses to Milton seminars; list specific tools to make the works' relevance and aesthetic pleasures available to a wide variety of student populations; and offer a wealth of techniques for helping students navigate Milton's demanding style and complicated historical context. Like all volumes in the *Approaches* series, this collection includes a convenient survey of original and supplementary materials and a comprehensive array of classroom tactics. Three sections of essays provide general approaches to the poetry and prose, through biography, genre, literary and political history, and other methodologies. The fourth section addresses the teaching of individual poems, and the final section articulates ways into specific prose works.
