sample letter of witness of abuse: Remembering Child Migration Gordon Lynch, 2015-12-03 Between 1850 and 1970, around three hundred thousand children were sent to new homes through child migration programmes run by churches, charities and religious orders in the United States and the United Kingdom. Intended as humanitarian initiatives to save children from social and moral harm and to build them up as national and imperial citizens, these schemes have in many cases since become the focus of public censure, apology and sometimes financial redress. *Remembering Child Migration* is the first book to examine both the American 'orphan train' programmes and Britain's child migration schemes to its imperial colonies. Setting their work in historical context, it discusses their assumptions, methods and effects on the lives of those they claimed to help. Rather than seeing them as reflecting conventional child-care practice of their time, the book demonstrates that they were subject to criticism for much of the period in which they operated. Noting similarities between the American 'orphan trains' and early British migration schemes to Canada, it also shows how later British child migration schemes to Australia constituted a reversal of what had been understood to be good practice in the late Victorian period. At its heart, the book considers how welfare interventions motivated by humanitarian piety came to have such harmful effects in the lives of many child migrants. By examining how strong moral motivations can deflect critical reflection, legitimise power and build unwarranted bonds of trust, it explores the promise and risks of humanitarian sentiment.

sample letter of witness of abuse: Child Victims Jane Morgan, Lucia Zedner, 1992 *Child Victims* explores the range and extent of crimes committed against children and assesses their impact. The testimony of over two hundred children gives voice, for the first time, to their experiences, their views, and their needs. It examines how children attain the status of 'victims' in the criminal justice system. Drawing on recent research findings, the authors examine each stage of the legal process that a child encounters, from the initial reporting of the offence, through police investigation, to the trial itself. They contrast the specialist response to victims of child sexual abuse with the experience of children who are victims of other crimes, thrust into an adult system which takes little account of their needs. *Child Victims* concludes by examining the role of support services and agencies dealing with child victims, and makes a number of key recommendations for future policy.

sample letter of witness of abuse: In Their Own Write Steven King, Paul Carter, Natalie Carter, Peter Jones, Carol Beardmore, 2022-12-15 Few subjects in European welfare history attract as much attention as the nineteenth-century English and Welsh New Poor Law. Its founding statute was considered the single most important piece of social legislation ever enacted, and at the same time, the coming of its institutions – from penny-pinching Boards of Guardians to the dreaded workhouse – has generally been viewed as a catastrophe for ordinary working people. Until now it has been impossible to know how the poor themselves felt about the New Poor Law and its measures, how they negotiated its terms, and how their interactions with the local and national state shifted and changed across the nineteenth century. *In Their Own Write* exposes this hidden history. Based on an unparalleled collection of first-hand testimony – pauper letters and witness statements interwoven with letters to newspapers and correspondence from poor law officials and advocates – the book reveals lives marked by hardship, deprivation, bureaucratic intransigence, parsimonious officialdom, and sometimes institutional cruelty, while also challenging the dominant view that the poor were powerless and lacked agency in these interactions. The testimonies collected in these pages clearly demonstrate that both the poor and their advocates were adept at navigating the new bureaucracy, holding local and national officials to account, and influencing the outcomes of relief negotiations for themselves and their communities. Fascinating and compelling, the stories presented in *In Their Own Write* amount to nothing less than a new history of welfare from below.
