wonders 2023 scope and sequence: Gregory of Nyssa John Behr, 2023 This book presents the first modern critical edition of the work of Gregory of Nyssa, *On the Human Image of God* (formerly known as *On the Making of Man, De hominis opificio*) and the first English translation since the nineteenth century. This treatise is one of the most important of Gregory's texts. Paralleling the structure of Plato's *Timaeus*, Gregory's work begins by offering two analyses of the human being. The first presents the human being as the culmination of the ascent made by nature through the various levels of life, and as made, body and soul, in the image of God. The second considers why this is not immediately apparent, the need for time to be able to grow, individually and collectively, to this status, as the body of Christ, the image of God, and the role of sexuality within this growth. The third part of the work brings both analyses together, to see the same movement in the life-span of each person. The extensive introduction provided in this volume examines the philosophical and theological background of Gregory's text, beginning with Anaxagoras, Plato (the *Timaeus*), Philo, and Origen, and also compares aspects of Gregory's work with that of Irenaeus of Lyons and Maximus the Confessor.

wonders 2023 scope and sequence: Der Erste Weltkrieg: Erinnerungskulturen in Deutschland und Australien Andreas Dorrer, Thomas Petraschka, 2023-03-06 Spätestens der 100. Jahrestag des Endes des Ersten Weltkriegs im Jahr 2018 hat die Erinnerung an die Urkatastrophe des 20. Jahrhunderts wieder in den Blick der Öffentlichkeit gerückt. Auffällig ist dabei, dass sich die Erinnerungskulturen in den am Krieg beteiligten Ländern teils deutlich unterscheiden. Während in Deutschland der Erste Weltkrieg erst im Vorfeld des 100. Jahrestages des Kriegsausbruchs wieder an Aufmerksamkeit gewonnen hat, stand er in Australien das ganze 20. Jahrhundert hindurch im Zentrum nationaler Narrative. Der Band versucht sich an einer Rekonstruktion und Analyse der Art und Weise, wie sich Deutschland und Australien an den Ersten Weltkrieg erinnern. Er untersucht die verschiedenen mentalitätsgeschichtlichen Perspektiven auf den Krieg und insbesondere auch die Rollen, die die verschiedenen kulturellen Medien bei der Ausbildung von Erinnerungskulturen gespielt haben und aktuell immer noch spielen.

wonders 2023 scope and sequence: Epic / everyday Sarah Cardwell, Jonathan Bignell, Lucy Fife Donaldson, 2023-05-30 An exciting new strand in The Television Series, the 'Moments in Television' collections celebrate the power and artistry of television, whilst interrogating key critical concepts in television scholarship. Each 'Moments' book is organised around a provocative binary theme. *Epic / everyday* explores the presence within television of the epic and the everyday. The book explores an eclectic range of TV fictions, including *Game of Thrones*, *Lost* and *Dr Who*. Contributors from diverse perspectives come together to expand and enrich the kind of close analysis most commonly found in television aesthetics. Sustained, detailed programme analyses are sensitively framed within historical, technological, institutional, cultural, creative and art-historical contexts.
