**epaper hindu: The Current Era: Evaluating Nine Years of Governance and Controversies** vigilant, 2024-03-02 When there was a change of regime at the centre in 2014, his interest emerged to watch the Modi government that came with an absolute majority. His inquisitive mind started watching the government since the beginning to know how radically they mobilized the people to get 31 per cent and 37 per cent of total votes cast in 2014 and 2019. He kept on studying the promises Modi made and his failures in fulfilling them, yet able to continue in the 2019 general election. The magic wand was not the economic performance and his so-called welfare measures, but the oratory marvel of mobilizing people and dividing the people into religious and divisive lines of caste, creed, sex, and region. The author's first monumental work was on "Economic Consequences and Overall Implications of BJP Government during 2014-19." This work is an extension of nine years of his critical study of the style of Modi's functioning. Modi is very apt in promising but very renege in implementing. But once someone achieves power, he does not want to leave. Modi is also not unlike this. Although Modi had a very humble start, he has developed an authoritarian style in his functioning. The author observes that his charisma is waning and the coming general election would be most difficult for him to continue as PM, lest he improves his style of functioning.

**epaper hindu: Against Dharma** Wendy Doniger, 2018-03-20 An esteemed scholar of Hinduism presents a groundbreaking interpretation of ancient Indian texts and their historic influence on subversive resistance Ancient Hindu texts speak of the three aims of human life: dharma, artha, and kama. Translated, these might be called religion, politics, and pleasure, and each is held to be an essential requirement of a full life. Balance among the three is a goal not always met, however, and dharma has historically taken precedence over the other two qualities in Hindu life. Here, historian of religions Wendy Doniger offers a spirited and close reading of ancient Indian writings, unpacking a long but unrecognized history of opposition against dharma. Doniger argues that scientific

disciplines (shastras) have offered lively and continuous criticism of dharma, or religion, over many centuries. She chronicles the tradition of veiled subversion, uncovers connections to key moments of resistance and voices of dissent throughout Indian history, and offers insights into the Indian theocracy's subversion of science by religion today.

**epaper hindu: People's Peace** Yasmin Saikia, Chad Haines, 2019-11-15 People's Peace lays a solid foundation for the argument that global peace is possible because ordinary people are its architects. Saikia and Haines offer a unique and imaginative perspective on people's daily lives across the world as they struggle to create peace despite escalating political violence. The volume's focus on local and ordinary efforts highlights peace as a lived experience that goes beyond national and international peace efforts. In addition, the contributors' emphasis on the role of religion as a catalyst for peace moves away from the usual depiction of religion as a source of divisiveness and conflict. Spanning a range of humanities disciplines, the essays in this volume provide case studies of individuals defying authority or overcoming cultural stigmas to create peaceful relations in their communities. From investigating how ancient Jews established communal justice to exploring how black and white citizens in Ferguson, Missouri, are working to achieve racial harmony, the contributors find that people are acting independently of governments and institutions to identify everyday methods of coexisting with others. In putting these various approaches in dialogue with each other, this volume produces a theoretical intervention that shifts the study of peace away from national and international organizations and institutions toward locating successful peaceful efforts in the everyday lives of individuals.
