forum thaivisa: [African Migration to Thailand](#) Elzbieta M. Goździak, Supang Chantavanich, 2022-09-07 This book, based on exploratory ethnographic research, analyzes the experiences of African migrants in Thailand. Thailand has always been a regional migration hub with Africans being the most recent. Sitting at the intersection of race and migration studies, this book focuses on the challenges Black and labor migrants face trying to integrate into a society that has had very limited contact with and knowledge about Black Africans. Bringing together research from African, Thai, and European scholars, this volume focuses on forced migrants, such as Somali asylum seekers, and labor migrants, largely African men seeking better livelihoods in niche economies such as gem trading, garment wholesale, and football playing and coaching. The book also includes theoretical contributions to the understanding of precarity and human security, the concept of in/visibility to analyze the challenges African migrants face in Thailand as well as the concept of othering to understand discrimination against Africans. The book also analyzes the Thai migration policy context and the challenges facing Thai policy-makers, law enforcement representatives, and the migrants themselves. While not comparative in nature, this volume directly connects with studies of Africans in other parts of Asia, especially China. Addressing an important gap in migration research, this book will be of interest to researchers across the fields of migration and mobility studies, African Studies, and Asian Studies.

forum thaivisa: *Nostalgia Now* Michael Hviid Jacobsen, 2020-02-25 This volume explores the nature of nostalgia as an important emotion in contemporary society and social theory. Situated between the 'sociology of emotions' and 'nostalgia studies', it considers the reasons for which nostalgia appears to be becoming an increasingly significant and debated emotion in late-modern culture. With chapters offering studies of nostalgia at micro-, meso- and macro-levels of society, it offers insights into the rise to prominence of nostalgia and the attendant consequences. Thematically organised and examining the role of nostalgia on an individual level - in the lives of concrete individuals - as well as analysing its function on a more historical social level as a collective and culturally shared emotion, *Nostalgia Now* brings together the latest empirical and theoretical work on an important contemporary emotion and proposes new agendas for research. As such, it will appeal to scholars of sociology, social theory, psychology and cultural studies with interests in the emotions.

forum thaivisa: Thailand's International Meditation Centers Brooke Schedneck, 2015-05-15 This book explores contemporary practices within the new institution of international meditation centers in Thailand. It discusses the development of the lay vipassana meditation movement in Thailand and relates Thai Buddhism to contemporary processes of commodification and globalisation. Through an examination of how meditation centers are promoted internationally, the author considers how Thai Buddhism is translated for and embodied within international tourists who participate in meditation retreats in Thailand. Shedding new light on the decontextualization of religious practices, and raising new questions concerning tourism and religion, this book focuses on the nature of cultural exchange, spiritual tourism, and religious choice in modernity. With an aim of reframing questions of religious modernity, each chapter offers a new perspective on the phenomenon of spiritual seeking in Thailand. Offering an analysis of why meditation practices appeal to non-Buddhists, this book contends that religions do not travel as whole entities but instead that partial elements resonate with different cultures, and are appropriated over time.

forum thaivisa: The King and the Making of Modern Thailand Antonio Rappa, 2017-04-21 The making of modern Thailand is grounded in specific political institutions, Brahmanical tropes, and sacred Buddhist traditions stylized with Hindu rituals. Over and above these mysterious practices and ancient customs, modern Thailand is a product of the late Great Rama IX Bhumibol Adulyadej. Most Thai people have only known one King. Born in Europe and educated during World War II, Bhumibol was the son of a Harvard medical doctor who had a penchant for jazz music and fast cars. When he returned to Thailand in 1951 to assume his royal duties, he could hardly speak

Thai but his French and German were remarkable. Bhumibol had inherited an impoverished country with nothing but a symbolic role as a figurehead monarch. He was surrounded by envious courtiers and royals from other families now sidelined by the rise of the Chakri. Scheming generals and authoritarian field marshals were emptying the Kingdom's coffers. Using guile and wit, Bhumibol had turned the tide by 1973. He became the most powerful modern warlord in the history of the Kingdom. He survived attempted murder, crafty politicians, corrupt generals, sycophantic courtiers and impoverished masses. When he died on October 13 2016, Bhumibol was already the longest standing monarch in the world. King Bhumibol was deeply respected and well-liked by farang and locals alike. Despite his massive social and economic achievements many problems continue to plague the Kingdom. These are prostitution, human rights issues, pollution, corruption, cronyism in Chinese businesses, border conflicts with Cambodia, and the refugee problem. This book examines the role of Rama IX and the variegated set of problems that persist in life under the great white elephant and mango trees. Rappa draws from his primary research that includes interviews, surveys and first-hand observations of a remarkable kingdom and a uniquely remarkable king to reveal the internal security threats to democracy and civil society in the oldest Southeast Asian kingdom in late modernity.

forum thaivisa: Disaster Risk Management in Asia and the Pacific Ian Davis, 2014-09-04
This book uses two international frameworks—the Millennium Development Goals and the Hyogo Framework for Action, a program focused on disaster risk management—to study the key trends in the region in terms of disaster incidence, sources of vulnerability and social and economic challenges. As both frameworks draw to a close, international debate is taking place during the period 2012-2015 on their current progress. This book seeks to help readers understand the process better. The chapters are written by eight independent internationally based authors. Collectively, they have extensive regional experience in the areas of disaster risk management and climate change as well as working in academia, research, consultancy, the UN and international agencies, government and the NGO sector. The analysis presented benefits from their varied backgrounds in medicine, architecture, economics, engineering, planning, social studies, development studies and political science. Throughout the book, relevant examples, drawn from the region, are included to 'earth' the project in the harsh realities of risk and disaster impact.

forum thaivisa: Religious Tourism in Northern Thailand Brooke Schedneck, 2021-06-18
Cross-cultural dialogues in sacred space cultivate awareness of self and others Temples are everywhere in Chiang Mai, filled with tourists as well as saffron-robed monks of all ages. The monks participate in daily urban life here as elsewhere in Thailand, where Buddhism is promoted, protected, and valued as a tourist attraction. Yet this mountain city offers more than a fleeting, commodified tourist experience, as the encounters between foreign visitors and Buddhist monks can have long-lasting effects on both parties. These religious contacts take place where economic motives, missionary zeal, and opportunities for cultural exchange coincide. Brooke Schedneck incorporates fieldwork and interviews with student monks and tourists to examine the innovative ways that Thai Buddhist temples offer foreign visitors spaces for religious instruction and popular in-person Monk Chat sessions in which tourists ask questions about Buddhism. Religious Tourism in Northern Thailand also considers how Thai monks perceive other religions and cultures and how they represent their own religion when interacting with tourists, resulting in a revealing study of how religious traditions adapt to an era of globalization.

forum thaivisa: Thailand: Deadly Destination John Stapleton, 2014-11-17 The daily robbing, bashing, drugging, extortion and murder of foreign tourists on Thai soil, along with numerous scandals involving unsafe facilities and well established scams, has led to frequent predictions that Thailand's multi-billion dollar tourist industry will self-destruct. Instead tourist numbers more than doubled in the decade to 2014. The world might not have come to the hometowns of the many visitors fascinated by Thailand, but it certainly came to the Land of Smiles. While the Thai media is heavily censored, and bad news stories about tourists suppressed, nonetheless there is more than enough evidence to demonstrate that something has gone seriously awry with the nation's tourist

industry. In 2014, just as in the years preceding it, there were train, bus, ferry, speedboat, motorbike and car accidents, murders, knifings, unexplained deaths, numerous suicides, diving accidents, robberies gone wrong, anonymous bodies washing up on the shores and a string of alcohol and drug related incidents. Thailand had a dying king and serious succession problems, weak democratic institutions, an economy slipping into recession, faced issues of corruption across many of its key services and was host to international crime syndicates, awash with despised foreigners and drifting perilously towards civil war. Tourists choose one destination over another for a number of reasons, most of which Thailand scores highly on. But on the core issue of tourist safety, Thailand scores very badly indeed.
