assyria reddit: A Brief History of Assyrians in Kermanshah Hannibal Gevargiz, Dr. Arianne Ishaya, 2025-05-14 This book is a valuable contribution to the history of historical towns and cities in Iran (former Persia). In this age of constant political upheavals when civilian populations are uprooted from their home base, many readers are interested to know what happens to these displaced communities; how they cope with homelessness, and try to resurrect their cultural and national identity. The Assyrians are the main subject of this study. They were uprooted from their ancestral homes in Northwest Iran during World War I. Only a fraction survived and made their home in Kermanshah and a few other cities in Iran as refugees. So, this book is a community study of the history of uprooted Assyrians in Kermanshah. What is remarkable is that although Assyrians came to this town as penniless, uprooted refugees, they became a stable part of the community through hard work and utmost sacrifices. Moreover, historically speaking, even during the relatively short period of time (1920s-1970s) that Assyrians were a part of Kermanshah's larger community, they contributed greatly to the educational, economic, and literary heritage of this town. Assyrian women played a big role in the education of all children, both Muslim and Christian, in Kermanshah. The most popular elementary schools were established and directed by two Assyrian women who, between them, educated hundreds of children each year. Assyrian physicians and numerous Assyrian nurses staffed the American Mission hospital, and Assyrian engineers and architects contributed to the growth of the town. The Assyrians do not have an independent country of their own. They are dispersed throughout the world. What has helped them to maintain their identity as a people, has been a network of social relations through family and community that have defied geographical distance and the passage of time. Most of the Assyrians of Kermanshah now live in the United States of America. They have pictures of their families, old churches, and monuments in Kermanshah in this book. So they are pleased to see their history in print. This book is also of special

interest to those who trace the history of the American Protestant Missions in Iran and their contributions to the Education, health, and welfare of the host communities. Arianne Ishaya

assyria reddit: Diaspora Mobilizations for Transitional Justice Maria Koinova, Dženeta Karabegović, 2020-12-17 Transitional justice and diaspora studies are interdisciplinary and expanding fields of study. Finding the right combination of mechanisms to forward transitional justice in post-conflict societies is an ongoing challenge for states and affected populations. Diasporas, as non-state actors with increased agency in homelands, host-lands, and other global locations, engage with their past from a distance, but their actions are little understood. Diaspora Mobilizations for Transitional Justice develops a novel framework to demonstrate how diasporas connect with local actors in transitional justice processes through a variety of mechanisms and their underlying analytical rationales—emotional, cognitive, symbolic/value-based, strategic, and networks-based. Mechanisms featured here are: thin sympathetic response and chosen trauma, fear and hope, contact and framing, cooperation and coalition-building, brokerage, patronage, and connective action, among others. The contributors discuss the role of diasporas in truth commissions, memorialization, recognition of genocides and other human rights atrocities, as well as their abilities to affect transitional justice from afar by holding particular attitudes, or upon return temporarily or for good. This book sheds light on how diasporas' contextual embeddedness shapes their mobilization strategies, and features empirical evidence from Europe, United States and Canada, as well as from conflict and postconflict polities in the Balkans, Middle East, Eurasia and Latin America. It was originally published as a special issue of Ethnic and Racial Studies.

assyria reddit: War and Peace in Jewish Tradition Yigal Levin, Amnon Shapira, 2012-03-15 The transition between the reality of war and a hope for peace has accompanied the Jewish people since biblical times. However, the ways in which both concepts are understood have changed many times over the ages, and both have different implications for an independent nation in its own land than they do for a community of exiles living as a minority in foreign countries. This book explores the concepts of war and peace throughout the history of Judaism. Combining three branches of learning - classical Jewish sources, from the Bible to modern times; related academic disciplines of Jewish studies, humanities, social and political sciences; and public discussion of these issues on political, military, ideological and moral levels - contributors from Israel and the USA open new vistas of investigation for the future as well as an awareness of the past. Chapters touch on personal and collective morality in warfare, survival though a long and often violent history, and creation of some of the world's great cultural assets, in literature, philosophy and religion, as well as in the fields of community life and social autonomy. An important addition to the current literature on Jewish thought and philosophy, this book will be of considerable interest to scholars working in the areas of Jewish Studies, theology, modern politics, the Middle East and biblical studies.
