david oyedepo books: *Intra-African Pentecostalism and the Dynamics of Power* Amos B. Chewachong, 2024-10-29 In an era when African Pentecostalism stretches its vibrant mosaic across continents, Intra-African Pentecostalism and the Dynamics of Power examines the pulsating heart of this phenomenon within Africa itself. The book explores the complex interplay of faith and power through the lens of Nigeria's Winners' Chapel and its expansion into Cameroon. What compels a movement to evangelize fervently within its own continent, making it both the preacher and the audience? The book exposes the reverse missionary flow to the northern hemisphere as a backdrop for a more profound story unravelling within Africa. Here, the mother church exerts a magnetic pull, ensuring fidelity, as charismatic leaders, like Bishop Oyedepo, maintain their spiritual gravitas. It is a story not just of spirituality but of strategic moves and socio-political undercurrents that shape identities and beliefs. Employing rich narratives and rigorous research, this book looks in depth at Winners' Chapel's transnational missions, highlighting the complexities of allegiance, identity, and the propagation of the prosperity gospel. It challenges readers to see beyond conventional religious discourse, into the depths where faith intersects with culture and power. The book invites us to understand the multi-dimensional influence of African Pentecostalism and to grasp the nuances of a faith that is transforming the continent from within.

david oyedepo books: *Global Pentecostal and Charismatic Healing* Candy Gunther Brown, 2011 Divine healing is an essential marker of the global phenomenon of Pentecostal and Charismatic Christianity. But although we know that healing is central in these movements, we know surprisingly little about how divine healing beliefs and practices reflect the interplay of local and global patterns of cultural development. The essays in this collection seek to discover what is the same and what is different about such beliefs and practices in diverse contexts, trace formal and informal lines of cultural influence across geographic and national boundaries, and ask how healing both reflects and contributes to larger processes of globalization. The collection not only fleshes out a picture of how and why spiritual healing is practiced in diverse cultural contexts and how healing practices reflect and shape the transnational spread of Christianity; it also provide insight into the nature of globalization. The authors attend to a wide range of issues, including the theological rationales for divine healing; the symbolic objects and ritual enactments employed; the cultural controversies surrounding these practices; the relationship between Christian healing and local or indigenous healing traditions; whether an emphasis on financial prosperity is always present; and the extent to

which Pentecostal and Charismatic churches are networked and the role of healing in such networks. With nearly all new essays, this informative volume, edited by Candy Gunther Brown, contains a forward by Harvey Cox and contributions from an international team of sixteen professors, academics, and scholars.

Kaunda, 2020-06-22 This book examines the complex and multifaceted nature of African Pentecostal engagements with genders and sexualities.
