Examples Of Greetings Letter

examples of greetings letter: Paul and the Ancient Letter Form Stanley E. Porter, Sean A. Adams, 2010 Throughout the last century, there has been continuous study of Paul as a writer of letters. Although this fact was acknowledged by previous generations of scholars, it was during the twentieth century that the study of ancient letter-writing practices came to the fore and began to be applied to the study of the letters of the New Testament. This volume seeks to advance the discussion of Paul's relationship to Greek epistolary traditions by evaluating the nature of ancient letters as well as the individual letter components. These features are evaluated alongside Paul's letters to better understand Paul's use and adaptations of these traditions in order to meet his communicative needs.

examples of greetings letter: Paul and First-Century Letter Writing E. Randolph Richards, 2025-07-29 Traditional Christian art depicts Paul the letter writer, pen in hand, attentive to the Spirit. We might think we know better and imagine him pacing in agitation as he rapidly dictates to

a secretary his letter to the Galatians. But in reality neither of these pictures is accurate. In Paul's day, producing a letter was a time-consuming and costly business. And we have ample resources from the ancient world to piece together what it must have been like. A secretary was usually part of the picture. But so were notes, drafts, corrections and careful rewrites, not to speak of scratchy pens, sooty ink and coarse papyrus. Interestingly, there is evidence that Paul involved his missionary team in the writing of letters. And then came the delivery over land and sea, the reading and circulation, as well as the epistolary afterlife of copying, collecting and storing. E. Randolph Richards has extensively studied ancient letter writing and secretaries. Informed by the historical evidence and with a sharp eye for telltale clues in Paul's letters, he takes us into this world and places us on the scene with Paul the letter writer. What first appears to be just a study of secretaries and stationery turns out to be an intriguing glimpse of Paul the letter writer that overthrows our preconceptions and offers a new perspective on how this important portion of Christian Scripture came to be.

examples of greetings letter: Reconstructing the Historical Background of Paul's

Rhetoric in the Letter to the Colossians Adam Copenhaver, 2018-01-25 In approaching the debate surrounding the opponents in Colossians from a methodological standpoint, Copenhaver contends that Paul was not actually confronting active opponents when he wrote the letter. Rather, Copenhaver takes the view that Paul's letter was written to the churches in the Lycus Valley, in a desire to develop their identity as a new people in Christ and to appeal to them to live a new kind of life. His warnings in Colossians 2 function as oppositional rhetoric, contrasting the religious practices of the Lycus Valley with this new belief. Paul's warnings are therefore broadly representative of the ancient world, while at the same time focused especially on two threads of historical referents, Judaism and pagan religions. Development of the above argument demonstrates that the challenge of reconstructing a singular opponent arises not only from the limitations of textual and historical evidence, but also from the assumptions and methodologies inherent in historical approaches to the text. By modifying these assumptions and adjusting the methodology, Copenhaver can show how Paul's letter takes on a new relationship to its historical context.

examples of greetings letter: Material Aspects of Letter Writing in the Graeco-Roman

World Antonia Sarri, 2017-11-20 Letter writing was widespread in the Graeco-Roman world, as indicated by the large number of surviving letters and their extensive coverage of all social categories. Despite a large amount of work that has been done on the topic of ancient epistolography, material and formatting conventions have remained underexplored, mainly due to the difficulty of accessing images of letters in the past. Thanks to the increasing availability of digital images and the appearance of more detailed and sophisticated editions, we are now in a position to study such aspects. This book examines the development of letter writing conventions from the archaic to Roman times, and is based on a wide corpus of letters that survive on their original material substrates. The bulk of the material is from Egypt, but the study takes account of comparative evidence from other regions of the Graeco-Roman world. Through analysis of developments in the use of letters, variations in formatting conventions, layout and authentication

patterns according to the sociocultural background and communicational needs of writers, this book sheds light on changing trends in epistolary practice in Graeco-Roman society over a period of roughly eight hundred years. This book will appeal to scholars of Epistolography, Papyrology, Palaeography, Classics, Cultural History of the Graeco-Roman World.

examples of greetings letter: Paul's Interlocutor in Romans 2 Runar Thorsteinsson, 2015-12-22 Thorsteinsson's study of Romans poses a thoroughly argued challenge to Pauline scholarship. His argument has the potential of invalidating the reading of Romans 2 that has contributed to a perception of Paul as utterly negative towards his fellow Jews and first-century Judaism. Among matters of scholarly dispute is the function and identity of Paul's interlocutor(s) in chapter 2 of Romans. Scholars agree universally that the individual addressed in 2:17-29 is a Jew, but with respect to the identity of the interlocutor of 2:1-5, there is no consensus. The majority of scholars hold that the interlocutor is a Jew throughout the chapter. A weighty minority argues that the individual addressed in 2:1-5 is a Gentile and that there is a shift of interlocutor in 2:17. In his investigation into the pros and cons of these positions, Thorsteinsson endeavors to challenge both majority and minority. Basic to his approach is to allow the larger context and framework of the letter to be of help in assessing the function and identity of Paul's partner(s) in dialogue. Thus the epistolary structure and setting of Romans, the relationship between Paul and his audience, the identity of the audience, and the dialogical style of the letter are used to ascertain the function and identity of Paul's interlocutor(s) in Romans 2. By engaging an imaginary interlocutor, Paul utilizes a well-established epistolary technique in Greco-Roman antiquity. Thorsteinsson concludes that Paul wrote Romans to a particular group of people in a specific, contemporaneous situation. The letter's message arose out of Paul's missionary obligation to proclaim God's good news to Gentiles in Rome. The minority view that Paul's interlocutor in 2:1-5 is a Gentile is combined with the majority opinion that there is but one interlocutor throughout the chapter. In sum, the common opinion that Romans 2 contains Paul's piercing critique of his fellow Jew should be rejected. The individual censured in the chapter is not a Jew . . . but a Gentile who claims to be a Jew.

examples of greetings letter: The Letters to the Thessalonians Gene L. Green, 2002-07-01 In this commentary Gene Green reads Paul's two letters to the Thessalonians in light of the canon of Scripture and of new knowledge about the first-century world of Thessalonica. This fruitful approach helps illuminate the impact of the gospel on its original readers and, in turn, shows how potent a force it can be for the church and society today. The book begins with an in-depth study of the Thessalonians themselves -- their history, land, socioeconomic conditions, and religious environment. This fascinating discussion gives the necessary context for fully appreciating the circumstances surrounding the founding of the city's first church and the subsequent struggles of the Thessalonian believers to live out their Christian faith. The main body of the book provides informed verse-by-verse commentary on 1 & 2 Thessalonians that extracts the fullest possible meaning from these important New Testament texts. As Green's exposition shows, the Thessalonian scriptures are especially valuable as letters of friendship and for showing Paul's pastoral concern for the many areas in which the Thessalonians needed guidance. Some of Paul's purposes are to thank the new believers for their steadfastness amid suffering, to encourage them in their trials, to urge them not to neglect their daily work, and, no less important, to teach them about the future of believers who die before Christ returns. Indeed, the matter of the last things and the second coming of Christ so permeates these texts that they are often called Paul's eschatological letters. Filled with new information about ancient society, this commentary will fast become a standard reference work for Bible study. By carefully bridging the biblical and modern worlds, Green shows with clarity and warmth the continuing relevance of 1 & 2 Thessalonians for contemporary readers.

examples of greetings letter: Paul the Ancient Letter Writer Jeffrey A. D. Weima, 2016-11-15 This clear and user-friendly introduction to the interpretive method called epistolary analysis shows how focusing on the form and function of Paul's letters yields valuable insights into the apostle's purpose and meaning. The author helps readers interpret Paul's letters properly by paying close

attention to the apostle's use of ancient letter-writing conventions. Paul is an extremely skilled letter writer who deliberately adapts or expands traditional epistolary forms so that his persuasive purposes are enhanced. This is an ideal supplemental textbook for courses on Paul or the New Testament. It contains numerous analyses of key Pauline texts, including a final chapter analyzing the apostle's Letter to Philemon as a test case to demonstrate the benefits of this interpretive approach.

examples of greetings letter: *Letter Writing in Late Modern Europe* Marina Dossena, Gabriella Del Lungo Camiciotti, 2012 In recent years there has been a renewed interest in correspondence both as a literary genre and as cultural practice, and several studies have appeared, mainly spanning the centuries between Early and Late Modern times. However, it is between the eighteenth and nineteenth centuries that the roots of contemporary usage begin to evolve, thanks to the circulation of new educational materials and more widespread schooling practices. In this volume, chapters representing diverse but complementary methodological approaches discuss linguistic and discursive practices of correspondence in Late Modern Europe, in order to offer material for the comparative, cross-linguistic analyses of patterns occurring in different social contexts. The volume aims to provide a general and solid methodological structure for the study of largely untapped language material from a variety of comparable sources, and is expected to appeal to scholars and students interested in the linguistic history of epistolary writing practices, as well as to all those interested in the more recent history of European languages.

examples of greetings letter: Salutatio Formulas in Latin Letters to 1200 Carol Lanham, 2004-10-27 Jusqu'à maintenant, l'intitulatio et l'inscriptio avaient été suffisamment étudiées, mais la salutatio restait relativement négligée. Cette lacune est aujourd'hui en partie comblée. C. D. Lanham a l'art de situer la question qu'elle traite dans le cadre plus vaste des règles du style épistolaire; elle ouvre des aperçus intéressants sur certains aspects de l'éducation médiévale, et ne manque pas de signaler des problèmes qui mériteraient l'attention des chercheurs. *Revue des études latines* (1977) Ms. Lanham's study has the great merit first of all of reflecting her own eager interest in pursuing such an apparently narrow theme. Her enthusiasm even leads her to conclude with a postscript suggesting further research. [Lanham is] obviously a born medievalist. Her work has the further merit of providing us fully and reliably with the means necessary to enable us to make our own interpretations and reach our own conclusions. It is well organized; the problems...are clearly stated at the outset, and every promise is fulfilled. She starts with the obligatory rapid survey of classical usage, both Greek and Latin, then passes to a detailed and skillful analysis of the various types of conventional epistolary formulas that developed from it in the Middle Ages. This is clearly not a work that can be summarized; suffice it to say that the transition...is indeed a wondrous one, and every

step of the way is here clearly illuminated. The Classical Journal (1977) *Das Buch der Schulerin von Bengt Lofstedt* ist ein bedeutender Beitrag für die Erforschung der Epistolographie des Mittelalters, ausgezeichnet durch die absolute Neuartigkeit der Untersuchung bei nur minimalen und sporadischen bisherigen Beiträgen; die Untersuchung ist gleichzeitig ein Musterbeispiel für wissenschaftliches Arbeiten im Hinblick auf die sorgfältig genaue dokumentarische und bibliographische Information, die methodische Strenge und Vorsicht, die bei einem so stark formalisierten und daher willkürlichen Manipulationen ausgesetzten Bereich nichts zulässt, was nicht eindeutig belegt werden kann, und ebenso hinsichtlich der reichen und treffenden Ergebnisse, die des öfteren über den Ausgangspunkt der Arbeit hinausgehen und Auswirkungen haben für einen viel umfassenderen Bereich der mal. Kultur. *Mittellateinisches Jahrbuch* (1979)

examples of greetings letter: *Documentary Arabic Private and Business Letters on Papyrus* Eva Mira Grob, 2010 Arabic letters on papyrus challenge the modern reader. There are few to no diacritical dots to distinguish homographs, no systematic spacing between single words, and in the majority of cases a low degree of graphical structuring. However, contemporary readers usually read and understood these documents easily - probably because the recipient of a letter knew what to expect. The letters are formulaic, and their information packaging follows an algorithm typical for their time and content. Here formulaic letter writing means not only the reuse of the same formulae or topoi but expressing thoughts in a predictable linguistic way and order, both as a matter of readability and as one of adequacy and politeness. The main concern of this work is to discover these unwritten rules and norms behind Arabic letter writing on papyrus.

examples of greetings letter: *Letters across Borders* B. Elliot, D. Gerber, S. Sinke, 2006-09-02 This collection addresses the recent rebirth of interest in immigrant letters. As these letters are increasingly seen as key, rather than incidental, documents in the interpretations of gender, age, social class, and ethnicity/nationality, the scholars gathered here demonstrate a diversity of new approaches to their interpretation.

examples of greetings letter: Paul's Large Letters Steve Reece, 2016-12-15 At the end of several of his letters the apostle Paul claims to be penning a summary and farewell greeting in his own hand: 1 Corinthians, Galatians, Philemon, cf. Colossians, 2 Thessalonians. Paul's claims raise some interesting questions about his letter-writing practices. Did he write any complete letters himself, or did he always dictate to a scribe? How much did his scribes contribute to the composition of his letters? Did Paul make the effort to proofread and correct what he had dictated? What was the purpose of Paul's autographic subscriptions? What was Paul's purpose in calling attention to their autographic nature? Why did Paul write in large letters in the subscription of his letter to the Galatians? Why did he call attention to this peculiarity of his handwriting? A good source of answers to these questions can be found among the primary documents that have survived from around the time of Paul, a large number of which have been discovered over the past two centuries and in fact continue to be discovered to this day. From around the time of Paul there are extant several dozen letters from the caves and refuges in the desert of eastern Judaea (in Hebrew, Aramaic, Nabataean, Greek, and Latin), several hundred from the remains of a Roman military camp in Vindolanda in northern England (in Latin), and several thousand from the sands of Middle and Upper Egypt (in Greek, Latin, and Egyptian Demotic). Reece has examined almost all these documents, many of them unpublished and rarely read, with special attention to their handwriting styles, in order to shed some light on these technical aspects of Paul's letter-writing conventions.

examples of greetings letter: Pauline Letters: Texts @ Contexts Menghun Goh, 2024-02-08 In this volume contributors from various social locations in North America, Asia, Europe, and Australia analyse and interpret Pauline letters. Engaging both the biblical text and the lives and contexts from different sociocultural, religious, methodological perspectives, each contributor demonstrates the dynamic interaction between text and context in their understanding and explanation of the text. The first part of the volume highlights the hermeneutical focus in interpretation. That is, how a certain chosen worldview (e.g., Lutheran liturgical worldview) affects one's decision in prioritizing a certain textual dimension and level instead of others. Part Two

elucidates how even a technical analysis of the text (e.g., epistolography) is context-oriented. Part Three shows how such a contemporary contextual interpretation is also an intercontextual and intertextual interpretation that entails intersectional and global-local experiences.

examples of greetings letter: *40 Questions About the Apostle Paul* Miguel G. Ecevarría, 2023-10-10 What can we know about the apostle Paul, and what difference does it make? Paul of Tarsus was an undeniably forceful presence in the early Christian church, instructing fledgling congregations of believers throughout the Mediterranean in person and by letter and authoring about half of the New Testament in the process. But who was this powerful personality? And how can students most benefit from the extensive studies on Paul available today? New Testament scholars Miguel Echevarria and Benjamin Laird provide an invaluable foundation for students beginning their investigations into the apostle Paul, Paul's theology, and Pauline studies, addressing orienting questions such as these: • What do we know about Paul's family? • How did Paul's companions assist in the composition and distribution of his letters? • Did Paul think his letters were authoritative Scripture? • Is there a center to Paul's theology? • What is Paul's Christology? • What are the strengths and weaknesses of the New Perspective on Paul? • Does Paul address slavery and racial division? Through its question-and-answer format, *40 Questions about the Apostle Paul* provides a succinct introduction and entryway to more advanced study of Paul and the Pauline letter corpus. Additional resources are available at 40questions.net.

examples of greetings letter: Novel Perspectives on Communication Practices in Antiquity, 2022-11-14 Documentary texts are vital to our understanding of many aspects of the ancient world, such as its administration, education, and economy. The value of these texts goes even further however: being autographs, they directly testify to ancient communication practices, a field of study which so far has remained underexplored. In this volume, specialists in the field engage with a broad range of documentary sources. They discuss not only how various modes of communication, such as language, handwriting, and lay-out, are employed in specific contexts of writing, but also how these different modes are interrelated. Building on insights from contemporary social-semiotic theory, the volume makes a case for the establishment of historical social semiotics as a discipline.
