florida license plate template: *Directory of Research Grants 2008* Schoolhouse Partners Llc, 2008-05 It was the 50s and life was simple, until September 25, 1954. That was the night that would be etched in the memory of the citizens of Stanfield, Massachusetts. The Chief of Police described the brutal savagery of the double homicide as the most atrocious crime in the history of the city. A fourteen-year-old girl, and the four-year-old boy in her care were murdered at the hands of a deranged, depraved killer. A Thread of Evidence places the reader at the scene of the crime, an eye witness to the senseless stabbing of two innocent children. With a piece of crochet thread as their only clue, the entire police department, lead by detectives Steven Logan and Raymond Gage, scour the city in search of a maniacal savage. When all tips and leads have been exhausted, they review all evidence. They come back to the thread. The only real evidence. With tenacity and perseverance of Logan and Gage the killer is apprehended. The reader experiences the twists and turns of the investigation, and ultimately occupies a reserved seat in the Superior Court as the trial proceedings commence. A Thread of Evidence has been written as fiction, but inspired by an actual event. Fifty years later, it remains etched in the minds of all who had lived in the area. The author has researched court records, newspapers, interviewed neighbors, police and has drawn on personal recollections of the crime. The story has been recounted over and over and to this day, it continues to be discussed. A Thread of Evidence is a compelling account of superb detective work, and unprecedented dedication of an entire police department.

florida license plate template: **We Can't Breathe** Jabari Asim, 2018-10-16 A Finalist for the PEN/Diamonstein-Spielvogel Award for the Art of the Essay Insightful and searing essays that celebrate the vibrancy and strength of black history and culture in America by critically acclaimed writer Jabari Asim A fantastic essay collection...Blending personal reflection with historical analysis and cultural and literary criticism, these essays are a sharp, illuminating response to the nation's continuing racial conflicts.—Ron Charles, The Washington Post In *We Can't Breathe*, Jabari Asim disrupts what Toni Morrison has exposed as the "Master Narrative" and replaces it with a story of black survival and persistence through art and community in the face of centuries of racism. In eight wide-ranging and penetrating essays, he explores such topics as the twisted legacy of jokes and falsehoods in black life; the importance of black fathers and community; the significance of black writers and stories; and the beauty and pain of the black body. What emerges is a rich portrait of a community and culture that has resisted, survived, and flourished despite centuries of racism, violence, and trauma. These thought-provoking essays present a different side of American history, one that doesn't depend on a narrative steeped in oppression but rather reveals black voices telling their own stories.

For this purpose, it directs its focus on: i) sovereignty challenges; ii) technological challenges and iii) governance challenges. These three challenges do not present hermetic legal problems, they intersect and connect on many levels. The book shows this by examining the relationship between public and private power, and illustrating how the rise of technocratic authority is deeply connected to the choice of technological solutions. It illustrates how constitutional decisions taken during states of emergency give rise to private governance challenges related to cybersecurity and data protection. Experts from the fields of EU governance, data protection, and technology explore these questions to provide answers to how the EU might develop in the future.
