Grant, 2023-09-29 Examining Lorraine Hansberry's A Raisin in the Sun as Counternarrative: Understanding the Black Family and Black Students shows how and why Lorraine Hansberry's play, A Raisin in the Sun, should be used as a teaching tool to help educators develop a more accurate and authentic understanding of the Black Family. The purpose of this book is to help educators develop a greater awareness of Black children and youth's, humanity, academic potential and learning capacity, and for teachers to develop the consciousness to disavow white supremacy, American exceptionalism, myths, racial innocence, and personal absolution within the education system. This counternarrative responds to the flawed and racist perceptions, stereotypes, and tropes that are perpetuated in schools and society about the African American family and Black students in US schools. It is deliberative and reverberating in addressing anti-Black racism. It argues that, if Education is to be reimagined through a social justice structure, teachers must be educated with works that include Black artists and educators, and teachers must be committed to decolonizing their own minds. a raisin in the sun by lorraine hansberry pdf: *Readying the Revolution* Jonathan Shandell, 2025-01-14 Starting in 1966, African American activist Stokely Carmichael and other political leaders adopted the phrase Black Power! The slogan captured a militant, revolutionary spirit that was already emerging in the work of playwrights, poets, musicians, and visual artists throughout the Black Arts movement of the mid-1960s. But the story of those theater artists and performers whose work helped bring about the Black Arts revolution has not fully been told. *Readying the Revolution: African American Theater and Performance from Post-World War II to the Black Arts Movement* explores the dynamic era of Black culture between the end of World War II and the start of the Black Arts Movement (1946-1964) by illuminating how artists and innovators such as Jackie Robinson, Lorraine Hansberry, Ossie Davis, Nina Simone, and others helped radicalize Black culture and Black political thought. In doing so, these artists defied white cultural hegemony in the United States, and built the foundation for the revolutionary movement in Black theater that followed in the mid 1960s. Through archival research, close textual reading, and an analysis of performance artifacts, Shandell demonstrates how these artists negotiated a space on the public stage for cultivating radical Black aesthetics and built the foundation for the revolutionary movement in Black theater that followed in the mid-1960s.

Arguing that the community in which a play is staged is as important to the work's meaning as the script or set, Mahala focuses on four cities' "arts ecologies" to shed new light on the unique relationship between performance and place: Cleveland, home to the oldest continuously operating Black theater in the country; Pittsburgh, birthplace of the legendary playwright August Wilson; San Francisco, a metropolis currently experiencing displacement of its Black population; and Atlanta, a city with forty years of progressive Black leadership and reverse migration. *Black Theater, City Life* looks at Karamu House Theatre, the August Wilson African American Cultural Center, Pittsburgh Playwrights' Theatre Company, the Lorraine Hansberry Theatre, the African American Shakespeare Company, the Atlanta Black Theatre Festival, and Kenny Leon's True Colors Theatre Company to demonstrate how each organization articulates the cultural specificities, sociopolitical realities, and histories of African Americans. These companies have faced challenges that mirror the larger racial and economic disparities in arts funding and social practice in America, while their achievements exemplify such institutions' vital role in enacting an artistic practice that reflects the cultural backgrounds of their local communities. Timely, significant, and deeply researched, this book spotlights the artistic and civic import of Black theaters in American cities.

a raisin in the sun by lorraine hansberry pdf: *Prefiguring Postblackness* Carol Bunch Davis, 2015-11-23 *Prefiguring Postblackness* explores the tensions between cultural memory of the African American freedom struggle and representations of African American identity staged in five plays between 1959 and 1969 during the civil rights era. Through close readings of the plays, their popular and African American print media reviews, and the cultural context in which they were produced, Carol Bunch Davis shows how these representations complicate narrow ideas of blackness, which often limit the freedom struggle era to Martin Luther King's nonviolent protest and cast Malcolm X's black nationalism as undermining the civil rights movement's advances. These five plays strategically revise the rhetoric, representations, ideologies, and iconography of the African American freedom struggle, subverting its dominant narrative. This revision critiques racial uplift ideology's tenets of civic and moral virtue as a condition of African American full citizenship. The dramas also reimagine the Black Arts movement's restrictive notions of black authenticity as a condition of racial identity, and their staged representations construct a counter-narrative to cultural memory of the freedom struggle during that very era. In their use of a postblack ethos to

enact African American subjectivity, the plays envision black identity beyond the quest for freedom, anticipating what blackness might look like when it moves beyond the struggle. The plays under discussion range from the canonical (Lorraine Hansberry's *A Raisin in the Sun* and Amiri Baraka's *Dutchman*) to celebrated, yet understudied works (Alice Childress's *Wine in the Wilderness*, Howard Sackler's *The Great White Hope*, and Charles Gordone's *No Place to Be Somebody*). Finally, Davis discusses recent revivals, showing how these 1960s plays shape dimensions of modern drama well beyond the decade of their creation.

a raisin in the sun by lorraine hansberry pdf: Italian American Poetics of Place Sabrina Vellucci, 2024-11-19 This volume examines the significance of place in contemporary Italian American literature from an ecocritical perspective. It fills a gap in the theoretical discourse on Italian American culture, whose concerns about environmental justice have been mostly overlooked. From mid-twentieth-century poets such as John Ciardi and Diane di Prima to late twentieth- and twenty-first-century fiction writers such as Carole Maso and Salvatore Scibona, the study combines Italian American literary criticism with the spatial turn that, over the last decades, has asserted the interpretive significance of place and the environment in literary texts. Questioning the prejudice that sees Italian American culture as detached from ecological issues, these works show that such diasporic heritage has helped forge different modes of relationship and new forms of expression in contact with the "American" land. Their relevance lies not so much in defining or redefining Italian American ethnicity but in forging ideas and futures beyond their immediate framework and subject matter. By focusing on the intersection of gender and ethnicity with local and transnational spaces and aesthetic practices, *Italian American Poetics of Place* contributes to the growing field of inquiry that explores the resources of the literary in laying the basis for more dialogic and inclusive forms of awareness and community with both the human and other-than-human.

a raisin in the sun by lorraine hansberry pdf: Inner-City Blues Darvin Anton Adams, 2023-04-13 Black theology's addressing of economic poverty in the Black neighborhoods and communities of the United States gives substantive reasoning to the fact that Black poverty is a theological problem. In connecting the narrative of idolatry to the irreversible harm that is associated with all forms of poverty, this new book interlocks the racial subjugation of Black Americans with the false assumptions of capitalism. Here the inner-city blues of poverty are experienced by those who reside in metropolitan cities and rural towns. The poverty of Black Americans is described with a vision of development and reconciliation—one that is intentional in its use of cultural language and inclusive to the destructive images of Black people's deprivation. In understanding how idolatry foundationalizes deprivation in the inner-city communities, I envision the liberation motif in Black theology working with the mission of the Black church for the purposes of community empowerment and neighborhood development. As a form of material and structural poverty, Black poverty is an interdisciplinary study that requires a holistic approach to ministry. With a theological focus on deprived inner-city communities, this new volume strategically moves the conversation of Black poverty from description to construction to solution.

a raisin in the sun by lorraine hansberry pdf: The Transition Daniel Kiel, 2023-04-04 Every Supreme Court transition presents an opportunity for a shift in the balance of the third branch of American government, but the replacement of Thurgood Marshall with Clarence Thomas in 1991 proved particularly momentous. Not only did it shift the ideological balance on the Court; it was inextricably entangled with the persistent American dilemma of race. In *The Transition*, this most significant transition is explored through the lives and writings of the first two African American justices on Court, touching on the lasting consequences for understandings of American citizenship as well as the central currents of Black political thought over the past century. In their lives, Thurgood Marshall and Clarence Thomas experienced the challenge of living and learning in a world that had enslaved their relatives and that continued to subjugate members of their racial group. On the Court, their judicial writings—often in concurrences or dissents—richly illustrate the ways in which these two individuals embodied these crucial American (and African American) debates—on the balance between state and federal authority, on the government's responsibility to protect its citizens against discrimination, and on the best strategies for pursuing justice. The gap between Justices Marshall and Thomas on these questions cannot be overstated, and it reveals an extraordinary range of thought that has yet to be fully appreciated. The 1991 transition from Justice Marshall to Justice Thomas has had consequences that are still unfolding at the Court and in society.

Arguing that the importance of this transition has been obscured by the relegation of these Justices to the sidelines of Supreme Court history, Daniel Kiel shows that it is their unique perspective as Black justices – the lives they have lived as African Americans and the rooting of their judicial philosophies in the relationship of government to African Americans – that makes this succession echo across generations.
