2020-10-24 Becca Whitla uses liberationist, postcolonial, and decolonial methods to analyze hymns, congregational singing, and song-leading practices. By way of this analysis, Whitla shows how congregational singing can embody liberating liturgy and theology. Through a series of interwoven theoretical lenses and methodological tools—including coloniality, mimicry, epistemic disobedience, hybridity, border thinking, and ethnomusicology—the author examines and interrogates a range of factors in the musical sphere. From beloved Victorian hymns to infectious Latin American coritos; congregational singing to radical union choirs; Christian complicity in coloniality to Indigenous ways of knowing, the dynamic praxis-based stance of the book is rooted in the author's lived experiences and commitments and engages with detailed examples from sacred music and both liturgical and practical theology. Drawing on what she calls a syncopated liberating praxis, the author affirms the intercultural promise of communities of faith as a locus theologicus and a place for the in-breaking of the Holy Spirit.

"A heart-wrenching and triumphant story that will change lives."—Bishop T. D. Jakes Michael Phillips would never become anything. At least, that's what he was told. It seemed like everyone was waiting for him to just fall through the cracks. After losing his father, suffering a life-altering car accident, and losing his college scholarship, Michael turned to selling drugs to make ends meet. But when his house was raided, he was arrested and thrown into a living nightmare. When it looked like he would be sentenced to spend years behind bars, the judge gave him a choice—go to a special college program for adjudicated youth or face the possibility of a thirty-year prison sentence. It wasn't hard to pick. From that choice, a mission was born—to help change the system that shuffles so many young Black men like Michael straight from school to prison. Today, Michael is the pastor of a thriving church, a local leader in Baltimore, and a member of the Maryland State Board of Education. He discovered that education was the path to becoming who he was created to be. Armed with research, statistics, and his powerful story, Michael tackles the embedded privilege of the education system and introduces ideas for change that could level the playing field and reduce negative impacts on vulnerable youth. He explores ways in which the readers can help advocate and provide resources for students, and points us to the one thing anyone can start doing, no matter who we are or what our role is: speak into young kids' lives. Tell them of their inherent worth and purpose. In this inspiring, thought-provoking, and energizing call to action, Michael's practical steps provide a way forward to anyone wanting to help create space for collateral hope in the lives of for young people around them.

Its origins are not precisely known, but there was genius in the first bracket design that hasn't changed much over the years. You, of course, may be familiar with the bracket format via the NCAA basketball tournament pairings each March. If you've ever watched ESPN or participated in a March Madness office pool, you know what a bracket looks like. The Final Four of Everything takes the idea one step further, and applies the knockout format to every category BUT basketball.
