

keshe foundation

Keshe Foundation is an organization founded by Mehran Tavakoli Keshe in 2010, dedicated to advancing knowledge in the fields of science and technology. The foundation promotes the development of new energy sources, health technologies, and agricultural practices based on the principles of Plasma Science. It aims to provide free knowledge to humanity, thereby fostering peace and improving the quality of life worldwide. This article will explore the foundation's history, its core principles, innovations, and controversies, as well as its impact on society.

History of the Keshe Foundation

The Keshe Foundation was established following the revelations of its founder, Mehran Keshe, regarding Plasma Technology. After years of research, Keshe claimed to have developed a new understanding of energy and matter, which he believed could revolutionize various industries, including energy production, transportation, and medicine.

- Founding Year: 2010
- Founder: Mehran Tavakoli Keshe
- Initial Purpose: To share knowledge of Plasma Science and its applications

The foundation began conducting workshops and seminars, allowing participants to learn about Plasma Technology and its potential applications.

Key Milestones

1. First Public Presentation (2010): Keshe introduced his concepts to the public, outlining his vision for a new energy paradigm.
2. Launch of the Keshe Foundation Website (2012): The establishment of a digital platform for sharing knowledge and resources.
3. Educational Programs (2013): The foundation started offering courses and learning materials to educate individuals on Plasma Science.
4. International Conferences (2014-2015): The foundation organized several conferences, attracting global attention and participation.

Core Principles of Plasma Science

At the heart of the Keshe Foundation's philosophy is the concept of Plasma Science, which differs from traditional physics. Plasma is considered the fourth state of matter, alongside solids, liquids, and gases. The foundation promotes several key principles:

- Unified Field Theory: The foundation asserts that all matter and energy are interconnected, and understanding this connection is crucial for scientific advancement.

- Gravitation and Magnetism: Keshe emphasizes that gravitational and magnetic fields are fundamental forces that can be manipulated to achieve various technological breakthroughs.
- Energy Generation: The foundation claims that Plasma Technology can produce energy without the need for conventional fuels, offering a sustainable alternative.

Applications of Plasma Science

The Keshe Foundation has proposed numerous applications for its Plasma Technology, including:

1. Energy Generation

- Development of Plasma reactors to produce energy without fossil fuels.
- Potential for limitless energy through the manipulation of gravitational fields.

2. Health Technologies

- Health devices that utilize Plasma Fields for healing and well-being.
- The foundation claims that its technology can help in the treatment of various diseases.

3. Agricultural Innovations

- Plasma technology for enhancing crop yields and soil quality.
- Development of systems to provide clean water through advanced filtration techniques.

4. Transportation

- Proposals for anti-gravity vehicles using Plasma Technology.
- The vision of a future with sustainable, fast, and efficient transportation systems.

Innovations and Products

The Keshe Foundation has developed several products and technologies based on its research in Plasma Science. Some of the notable innovations include:

- Magrav Power Units: These devices are designed to provide energy to homes and businesses, claiming to reduce or eliminate reliance on traditional electrical grids.
- Health Pens: Portable devices that use Plasma technology for pain relief and healing.
- Water Purification Systems: Technologies aimed at providing clean drinking water by removing contaminants at a molecular level.

Community and Educational Outreach

The foundation places a strong emphasis on education and community involvement. It has set up various programs to promote learning:

1. Workshops and Seminars: Regular events to educate individuals about Plasma Science and its applications.

2. Online Courses: A range of courses available for anyone interested in learning about the foundation's technologies.
3. Global Network of Supporters: The foundation encourages individuals to participate in local groups and initiatives to promote its principles.

Controversies Surrounding the Keshe Foundation

Despite its ambitious goals, the Keshe Foundation has faced criticism and skepticism from various quarters. Some of the main concerns include:

- Scientific Validity: Critics argue that many of the foundation's claims lack rigorous scientific backing and peer-reviewed research.
- Business Practices: The foundation has been accused of being more of a commercial entity than a genuine scientific organization, with some products marketed without sufficient evidence of effectiveness.
- Public Perception: The unconventional nature of the foundation's claims has led to mixed reactions, with some viewing it as a potential breakthrough and others as pseudoscience.

Responses to Criticism

In response to the controversies, the Keshe Foundation has emphasized its commitment to transparency and education. It argues that:

1. Open Knowledge Sharing: The foundation provides free access to its research and findings, promoting an open-source approach to technology.
2. Encouragement of Innovation: The organization encourages independent research and experimentation by individuals and institutions.
3. Focus on Humanitarian Goals: The foundation reiterates its mission to improve the quality of life for all, positioning itself as a force for good.

Impact on Society

The Keshe Foundation has had a notable impact on various sectors, including energy, health, and agriculture. Its emphasis on free knowledge and humanitarian efforts has attracted a diverse following.

- Energy Transition: The foundation's proposals for sustainable energy sources resonate with global efforts to combat climate change.
- Health Innovations: The potential for new health technologies could contribute to advancements in medical science and patient care.
- Agricultural Development: Innovations in agriculture could help address food security issues in various regions.

Future Prospects

Looking ahead, the Keshe Foundation aims to continue its mission of promoting Plasma Science and its applications. Future initiatives may include:

1. Collaborations with Research Institutions: Partnering with universities and research centers to validate and advance its technologies.
2. Expanded Educational Programs: Increasing the accessibility of its courses and workshops to reach a broader audience.
3. Global Outreach: Expanding its presence in different countries to spread knowledge and foster community-driven projects.

Conclusion

The Keshe Foundation represents a unique and ambitious approach to science and technology, with its foundation in Plasma Science and a mission to improve the world. While it has faced criticism and skepticism, its commitment to free knowledge, humanitarian goals, and innovative technologies continues to attract interest. As the foundation moves forward, its impact on energy, health, and agriculture remains a topic of significant discussion, with the potential to inspire future generations of thinkers and innovators.

Frequently Asked Questions

What is the Keshe Foundation?

The Keshe Foundation is a non-profit organization founded by Mehran Tavakoli Keshe that focuses on promoting advanced technologies related to plasma science and energy, aiming to improve health, environment, and energy solutions.

What are the main technologies developed by the Keshe Foundation?

The Keshe Foundation has developed various technologies including plasma reactors, health devices, and energy systems that aim to harness and utilize plasma for various applications such as energy generation and medical treatments.

How does the Keshe Foundation propose to solve global energy issues?

The Keshe Foundation proposes to solve global energy issues by introducing free and clean energy systems based on plasma technology, which can operate independently of traditional fossil fuels and grid systems.

What is the Plasma Technology taught by the Keshe Foundation?

Plasma Technology refers to the use of plasma state of matter to create new energy and health solutions, as taught by the Keshe Foundation through workshops, courses, and online resources.

Can Keshe Foundation technologies be used for personal health benefits?

Yes, the Keshe Foundation offers various health devices and protocols based on plasma technology that are claimed to promote healing and well-being, although scientific validation is ongoing.

What is the stance of the scientific community on Keshe Foundation's claims?

The scientific community has been skeptical of the claims made by the Keshe Foundation, with many experts calling for more rigorous peer-reviewed research to validate the effectiveness of its technologies.

Are there any practical applications of Keshe Foundation technology today?

Some practitioners and enthusiasts claim to use Keshe Foundation technologies in various fields, such as agriculture and alternative health treatments, but widespread adoption and formal validation remain limited.

How does the Keshe Foundation approach education and knowledge sharing?

The Keshe Foundation promotes education and knowledge sharing through free online courses, workshops, and conferences to disseminate information about plasma technology and its potential applications.

What is the vision of the Keshe Foundation for the future?

The Keshe Foundation envisions a world where advanced technologies based on plasma science lead to sustainable energy solutions, improved health, and global peace, empowering individuals and communities.

How can individuals get involved with the Keshe Foundation?

Individuals can get involved with the Keshe Foundation by participating in workshops,

accessing online educational resources, joining community initiatives, or exploring the use of its technologies in their own lives.

Keshe Foundation

keshe foundation: *FREE ENERGY, FREE LIFE* Guillaume Lessard, 2025-05-06 Free Energy, Free Life The Forbidden Science of Nikola Tesla and the Path to Total Financial Freedom What if everything you were taught about energy, scarcity, and wealth was a lie? In this groundbreaking exposé, tech visionary Guillaume Lessard reveals the hidden story of Nikola Tesla's suppressed inventions and how unlocking their potential can lead to a world of limitless energy and personal financial liberation. From Tesla's legendary Wardenclyffe Tower to today's experimental magnetic generators, Free Energy, Free Life uncovers: □ The real reasons Tesla's breakthroughs were silenced □ How free energy technology works and how it is already being developed in secret □ Step by step explanations of tools, parts, and practical replications you can build □ A global network of inventors, projects, and communities bringing free energy to life □ Strategies to harness these innovations to break free from the nine to five and achieve financial independence This is not science fiction. It is suppressed science. And now is the time to learn the truth. Perfect for entrepreneurs, engineers, innovators, and dreamers who want to challenge the system and build a better world. No budget? No problem. All you need is this book, curiosity, and the courage to believe. □ Includes appendices, resource links, legal guidance, and hands-on startup guides to begin your own free energy journey. The revolution will not be televised. It will be electrified.

keshe foundation: *Coming Out of the Illusion* Christopher Link, 2020-04-13 There comes a time when being terribly lost without a clue and having the proverbial black cloud over one's head must come to an end. It doesn't matter how screwed up your life has been with a rough childhood or now as an adult. I have learned that our life experiences, no matter how terrible, don't have to shape who we are or who we become. For instance, I personally was in and out of foster homes from about age four to eighteen. I had to overcome tremendous obstacles to bring this book to you! The number one lesson for everybody is: When you get knocked down, get up again and stand a little taller than you did before until your foundation is unbreakable!! "Something More"... where is it? I think everybody at one point or another has asked themselves this. Looking up at the stars in wonderment at a very young age is where it all begins. All beings are aware of their surroundings and figure out really quickly something is wrong here on this beautiful planet Earth. There are plenty of indicators, such as: Violence and war, domination and hate, racial profiling and human suppression, working for survival and fighting over resources and or the need for money/debt creation. These things are part of our collective third dimensional consciousness and are no longer necessary as we advance/mature together. . . . So, what are we looking for? What is the true reality? How can we better ourselves? How do we awaken to and find our true self again? Where is the love, joy, grace, morals, compassion, unity we know are the truth behind this existence? The most important question for us all, to ask ourselves is: How do we break through the false reality that we have created for ourselves and the planet and keep our light shining, never to be hidden under veils of illusion again? We will explore this thing called life through our own self-realization, together, and find some answers to these questions!

keshe foundation: *The Future of Agriculture* Keshe Foundation, KFM Australia, 2021 This book provides a window into Plasma Science and how it can be used to explain everything we see in nature as an interaction of the magnetic fields that make up our reality. Magnetic fields and the flow between all entities which are made from these fields, can explain our world and so, allows us to implement these theories into practice. Creation and manipulation of the magnetic and gravitational field forces allows us to work to bring balance and harmony to all living beings. Regenerative

Agriculture using Plasma is a part of an ethos of creating a better future for all beings of this beautiful planet we call home. -- page 3.

keshe foundation: The Worldwide List of Alternative Theories and Critics Jean de Climont, 2020-11-01 This Worldwide List of Alternative Theories and Critics (only available in English language) includes scientists involved in scientific fields. The 2023 issue of this directory includes the scientists found in the Internet. The scientists of the directory are only those involved in physics (natural philosophy). The list includes 9700 names of scientists (doctors or diploma engineers for more than 70%). Their position is shortly presented together with their proposed alternative theory when applicable. There are nearly 3500 authors of such theories, all amazingly very different from one another. The main categories of theories are presented in another book of Jean de Climont *THE ALTERNATIVE THEORIES*

keshe foundation: Dogs at Large Daniel Rose, 2018-05-10 Dogs at Large weaves together the struggles of two women as they confront the slings and arrows of our Matrixed world. Because they live in the information age, they have turned to the Internet for guidance with their current conflicts. Here they discover a double edged sword for, although information may be powerful, too much can be overwhelming. They soon realize that a fine line exists in cyberspace ranging from the usual array of charlatans and false prophets to a remarkable community of like-minded people whose goal is to save the planet. It is to the latter that this book is dedicated. On one level this is a story about how we go to bat for what we love the most. On another, it is as multi-dimensional as the changes that are in store for the human race. To sum it all up: God is truly alive; magic is truly afoot.

keshe foundation: Integrated Space for African Society Annette Froehlich, 2019-09-18 This book provides an overview of the space sector in African countries, from a legal and policy point of view, analysing how the African Union's Space Policy and Strategy (ASPS) is implemented and highlighting the various space activities in each country. Against this backdrop, it investigates the ASPS, identifying its policy goals identified and discussing its strategy. Moreover, it explores the on-going regional cooperation programmes, the continent's leading space actors and their roles, and the space-related regional fora and organizations, reflecting on various initiatives, including the African Leadership Conference on Space Science and Technology for Sustainable Development (ALC), the Regional African Satellite Communications Organisation (RASCOM), and the African Resource Management Satellite Constellation (ARMS-C). As such, it is a valuable source of information on space capacities in African countries.

keshe foundation: Planetopener Dirk Schemberg, 2024-04-01 Nikola brings alternating current to the earth and lights up the night. Albert discovers the physical basis for, among other things, the atomic bomb. Only Nikola's reincarnation Mehran discovered universal solutions for wireless energy transmission, transport, health and nutrition. This means that the pressing problems of our time have been solved. Some time later, Dirk, as the reincarnation of Albert, globally neutralized much of the damage caused by Albert's foundations.

keshe foundation: Planetenöffner Dirk Schemberg, 2024-03-29 Nikola bringt der Erde den Wechselstrom und erleuchtet die Nacht. Albert entdeckt die physikalischen Grundlagen unter anderem für die Atombombe. Erst Nikolas Reinkarnation Mehran entdeckt universelle Lösungen für drahtlose Energieübertragung, Transport, Gesundheit und Ernährung. Somit sind durch ihn die drängenden Probleme unserer Zeit behoben. Dirk, als Reinkarnation von Albert, hat dann einige Zeit später, einen Großteil des Schadens, der durch Alberts Grundlagen entstanden ist, wieder global neutralisiert.

keshe foundation: Addicted to the Sun Captain Leo Walton, 2021-03-24 As a direct result of an accidental electrocution while working on the 220 AC shore power system aboard his boat, Captain Leo Walton had an event which changed his life forever. Not only did the powerful electricity catapult him physically twelve feet, it entered his left hand using his own nerves as a conduit to enter his brain causing a severe traumatic brain injury. In less than a second, he fell into unconsciousness and began a journey that he did not choose or volunteer. For a period of three weeks, alone, he cycled in and out of consciousness, not realizing that the damage to his brain

and the left side of his body would demand of him to relearn how to speak, to walk, to read, to feel, and literally to be lost struggling to find himself. As he recovered, having been a successful marine forensics investigator, he became obsessed with his own recovery. Learning quickly how fast it is today in the factory of medicine that exists in America, he found himself on six prescription medications, some psychotic in nature to replace the chemical compounds his crippled pineal and pituitary glands could no longer provide. Suffering the losses of business, marriage, and the ability to care and provide for himself, he fell into cycles of anger and despair to the point of a well-planned and luckily uncompleted suicide. Having developed significant physical, emotional, and psychological symptoms, he learned of a renegade bio-electric energy known by the ancients as a sudden Kundalini awakening that he determined was the cause of his suffering. Without any great success with modern western medicine, he became an explorer of alternative methods and found himself investigating many ancient methods of healing such as yoga, reiki, qi gong, and meditation, which in time, sungazing became his primary focus. This volume details three experiments taken from Captain Leo's personal and detailed journals about his two sungazing experiments requiring nineteen months and three hundred forty-four days, totaling an incredible a hundred fifty-three hours of staring naked-eyed at the sun, gaining the superhuman ability to stare at the sun for forty-five minutes duration. Now convinced his theories were correct, as a result of his sungazing experiments and information he learned from a thorough investigation of Nikola Tesla's life and habits, this led him to duplicate Tesla's habits and participate once more in an experiment to see how long he could go without eating food and remain alive and healthy. This led to a tenacious ninety days living as a breatharian to prove his beliefs. Learn why Captain Leo affectionately named this The Book of Miracles.

keshe foundation: The Universal Order of Creation of Matters Keshe Foundation Manufacturing Italy srl, 2012

keshe foundation: Ny Bevidsthed, Ny Virkelighed Elsebeth Karsholt, 2024-09-26 En ny bevidsthed er ved at åbne til et nyt liv på jorden. Den åbner til en bagvedliggende ikke-fysisk energiverden, fuld af skabende energi, visdom, inspirationskraft og magi. Den er udtryk for vores åndelige dimension, hvor hjertets visdom er i centrum. Bogen udfolder en forståelse af denne ikke-fysiske verden af energi og bevidsthed, og ser den som den universelle sammenhængskraft. Bogens meditative øvelser træner en sansning af denne energiverden i kroppen, i naturen, i universet og i den indre jord. Øvelsernes fokus er integration af vores fysiske og ikke-fysiske væren.

keshe foundation: Tendenzen 3000 Dr. Peter Echevers H., 2013-09-14 Das Buch „Tendenzen 3000 – quo imus “ von Dr. Peter Echevers H. untersucht in 50 Einzelbereichen die gesamte Entwicklung weltweit. Wie ist die Jetztsituation entstanden, welche Tendenzen lassen sich für die Zukunft erwarten, wirtschaftlich, technisch, ökologisch. Anhand der Ergebnisse der 50 einzelnen Perspektiven wagt das Buch einzuschätzen, gegen welche Entwicklungen wir uns nicht gegen anstemmen können, wo Handlungsbedarf liegt, was in unserer eigenen Natur begraben liegt, was sich nur mit Mühe verändern lassen könnte, welche Tendenzen darauf hindeuten, dass gewisse Entwicklungen nicht mehr aufzuhalten sind. Letztlich versucht Echevers in seinem Buch einen Blick in die Zukunft der Menschheit zu werfen unter Berücksichtigung der 50 Tendenzen. Was geschieht gerade im Moment, um diese Zukunft zu ermöglichen, welche Forschungen und Entwicklungen sollten mit Hochdruck weiter betrieben werden, wie könnte das finanziert werden und welche Möglichkeiten eröffnen sich dann für eine mögliche Zukunft für alle Menschen. Das Buch kommt zu einer brillanten, Hoffnung beinhaltenden Schlussfolgerung. ISBN 978-1-300-67248-7

keshe foundation: Synergien im Heilwesen Franz Guenter Leicht, 2016 Dieses Buch befasst sich mit der Synergie von klassischer Medizin, Naturheilkunde, alternativen Heilmethoden und alternativen Therapien sowie den Berufen der neuen Zeit im Heilwesen. Immer mehr Menschen wissen um die Wirkung geistiger Energien über die unsichtbaren feinstofflichen Ebenen auf die sichtbare grobstoffliche Ebene, bekommen darin immer mehr Einblicke und erfahren an sich Heilungen. Sie entfalten Talente und Gaben, die sie mit zunehmendem Erfolg bei sich selbst und anderen Menschen anwenden, woraus sich neue Berufe im Heilwesen (Bereich der Bioenergetik,

Psychoenergetik, Geistheilung usw.) herauskristallisieren. Das Ziel dieser Ausarbeitung ist, einen möglichst großen Teil von Hilfesuchenden und Hilfeleistenden im Bereich des Heilwesens dazu zu bringen, sich mit den verborgenen Ursachen von Krankheitssymptomen und speziell mit den Symptomen der neuen Zeit vertraut zu machen. Dadurch können wir bessere Entscheidungshilfen bei der Behandlung von Krankheitssymptomen bekommen

keshe foundation: Sangue Rh Negativo Alexandre Alves, 2015-04-18 Existe alem do que possamos enxergar um mundo onde impera a dúvida, medo, sofrimento, pobreza, a constante dificuldade financeira, inacessibilidade, desigualdade, infelicidade, egoísmo, individualismo, ganância doenças fisiológicas e mentais principalmente. Enquanto que as verdades ocultadas que podem mudar tudo, para o grande rebanho (não iniciados nas sociedades secretas que conhecem as verdades), parece ser algo inatingível, difícil de acreditar, às vezes impossível. Mas se persistirem, buscarem e não desistirem nunca, esses conhecimentos pode e sem duvidas vão transformar seu mundo. Lembre-se que das poucas verdades ocultadas para a grande massa, esta a que revela que quem buscar as verdades... (ocultadas): Conheceréis a verdade, e a verdade vos libertará . E não se iluda achando que simplesmente pelo fato de ler livros sagrados perceberão verdades, pois as mesmas em todos os livros sagrados como a Tora e a Bíblia estão codificadas. Com a ajuda desse livro informações que pouco provavelmente chegou ou chegara perto de suas mais brilhantes percepções, lhe conduzira a conhecimentos imprescindíveis sobre manipulações mundiais que escravizam a grande massa populacional mundial e o caminho para seu desenvolvimento mental de forma tão avassaladora que tudo o que você considerava impossível simplesmente se fará mais que possível em sua vida. E é exatamente isso que diligentes das sociedades secretas tanto temem. Pois acreditam que a Centelha do Divino só pode servir aos escolhidos (iniciados), eles próprios. Você desvendara segredos como o do Sangue RH Negativo que só existe em 15 % da população mundial e porque não existem monarcas de sangue RH Positivo. Para que buscar fontes de luz externa nas organizações religiosas manipuladoras, se você tem LUZ divina? Mergulhe nesse verdadeiro ARSENAL de conhecimentos e perceberá que TUDO QUE PARECE SER NÃO É E TUDO QUE É PARECE NÃO SER. Liberte-se... As informações são muito relevantes e imprescindíveis se seu desejo for obter os tão desejados conhecimentos ocultados pela elite dominante. Devo alerta-lo ainda que parte significativa das informações dispostas nesse livro dificilmente são encontradas na internet, pois quando postadas são deliberadamente retiradas. É difícil até para os já despertos que aprendem técnicas apuradas de pesquisa. Pois conhecimento é poder. Espero, portanto que consiga despertar ainda mais.

keshe foundation: The Girl with No Reflection Keshe Chow, 2024-08-06 A young woman chosen as the crown prince's bride must travel to the royal palace to meet her new husband—but her world is shaken when she discovers the dark truth the royal family has been hiding for centuries—in this lush fantasy debut perfect for fans of Song of Silver, Flame Like Night and Violet Made of Thorns. Princess Ying Yue believed in love...once upon a time. Yet when she's chosen to wed the crown prince, Ying's dreams of a fairy tale marriage quickly fall apart. Her husband-to-be is cold and indifferent, confining Ying to her room for reasons he won't explain. Worse still are the rumors that swirl around the imperial palace: whispers of seven other royal brides who, after their own weddings, mysteriously disappeared. Left alone with only her own reflection for company, Ying begins to see things. Strange things. Movements in the corners of her mirror. Colorful lights upon its surface. And when, on the eve of her wedding, she unwittingly tears open a gateway, she is pulled into a mirror world. This realm is full of sentient reflections, including the enigmatic Mirror Prince. Unlike his real-world counterpart, the Mirror Prince is kind and compassionate, and before long Ying falls in love—the kind of love she always dreamed of. But there is darkness in this new world, too. It turns out the two worlds have a long and blood-soaked history, and Ying has a part to play in the future of them both. And the brides who came before Ying? By the time they discovered what their role was, it was already too late.
