On December 14, 2010, Customs and Border Patrol Agent Brian Terry, a United States Marine, was killed while on patrol just miles from the Mexican border. The firearms found at the scene were semi-automatic rifles that were allowed to walk as part of Operation Fast and Furious. Congressional Republicans have investigated Fast and Furious since January 2011. Over the course of the investigation, the Justice Department has provided false information, stonewalled document requests, produced scores of blacked-out pages and duplicate documents, and refused to comply with two congressional subpoenas. In August 2012, the U.S. House of Representatives Office of General Counsel filed suit against the Justice Department. On January 19, 2016, United States District Judge Amy Berman Jackson issued her opinion and ordered DOJ release documents previously withheld under the President's executive privilege claim. operationdisclosureofficialcom: iProperty William Barrett, Christopher Price, Thomas Hunt, 2008-01-07 In today's turbulent global economy, companies establish competitive advantage by creating the most exciting ideas and taking them to market. To sustain this competitive advantage and thrive long term, innovative companies must use intellectual property to protect their valuable ideas. iProperty explores the intellectual property strategies and tactics used by successful companies to protect ideas. It answers the question, If I'm serious about strategically deploying intellectual property in a way that benefits my bottom line, what should I do on Monday morning to make that happen? Too often, books dealing with strategy remain high-level and vague, while intellectual property books frequently bog the reader down in the intricacies of patent laws and regulations. Avoiding these extremes, iProperty emphasizes the concrete details involved in actual implementation and provides executives, managers and attorneys with practical advice for

developing and executing a strategic intellectual property plan that will yield a measurable return on investment.

Material on recent reforms to the European Convention system and to domestic judicial review is also included. It will be especially useful for students who may be feeling bemused by the rapid rate of change in this subject.

operationdisclosureofficialcom: Mediatised Terrorism Saira Ali, 2022-10-21 This book offers an East-West comparative analysis of mediatised terrorism. This is the first country-specific analysis of the mediatisation of terrorism, with Pakistan and Australia representing the two worlds, respectively. Caught up in the '9/11 effect', Australia is known for its anti-terror 'hyper-legislation', despite the implausible nature of the threat. In contrast, Pakistan is plagued by terrorism, yet the military establishment favours a duplicitous policy of fighting militant groups selectively. To understand how the two diverse cultural sites, with their very different experiences of terrorism, make sense of this unpredictable threat, the book uses Beck's World Risk Society theory as a conceptual framework to examine the production and construction of news narratives around the risk of terrorism in both countries through textual analysis of local news stories and in-depth interviews with Australian and Pakistani journalists. Narratives about 'global terrorism' are mostly 'Western', with fear of its impact on 'Western' democracy and civilisation. This book aims to fill the gap and present a nuanced understanding of global terrorism by examining the characteristics of the phenomenon in a Western as well as an Eastern location and the ways in which the risk of terrorism is being played out in the two worlds. This book will be of much interest to students of critical terrorism studies, media studies, Asia-Pacific politics, and International Relations.
