

spicer cross reference

Spicer cross reference is an essential tool used by mechanics and automotive enthusiasts to identify compatible replacement parts for their vehicles, particularly when it comes to driveline components. Spicer, a well-respected brand in the automotive industry, specializes in manufacturing high-quality parts such as universal joints, yokes, and driveshaft assemblies. Understanding how to utilize a Spicer cross reference can save time, reduce costs, and ensure that you are using the right parts for your vehicle's needs. This article will delve into the importance of the Spicer cross reference, how it works, and tips for effectively utilizing it.

What is a Spicer Cross Reference?

A Spicer cross reference is a comprehensive guide that allows users to find equivalent parts across different manufacturers. When a specific part number is inputted, the cross reference will provide a list of alternative parts that can be used instead. This is particularly useful in situations where:

- The original part is discontinued or hard to find.
- The cost of the original part is prohibitively expensive.
- There is a need for an upgraded or different specification part.

Understanding this cross-reference capability is crucial for anyone involved in vehicle maintenance, as it enables informed decisions regarding part replacements.

Why Use a Spicer Cross Reference?

Using a Spicer cross reference can provide several benefits:

1. Cost-Effectiveness

Finding alternative parts can often lead to significant savings. Many aftermarket parts manufacturers produce compatible parts at a lower cost than OEM (original equipment manufacturer) options. The Spicer cross reference can point you towards these cost-effective alternatives without compromising quality.

2. Availability

Certain parts may become scarce due to various reasons, including vehicle age or production

discontinuation. The Spicer cross reference provides options, ensuring that you can find compatible parts when the original ones are not available.

3. Performance

Sometimes, the best option for a replacement part may not be the OEM part but rather an upgraded aftermarket product. The Spicer cross reference can help you identify these performance-enhancing alternatives.

How to Use a Spicer Cross Reference

Using a Spicer cross reference effectively involves a few straightforward steps. Here's how you can go about it:

Step 1: Identify the Part Number

Before you can utilize the cross reference, you need to know the specific part number of the Spicer component you are looking to replace. This number can usually be found on the part itself or in the vehicle's service manual.

Step 2: Access the Cross Reference Tool

Spicer provides various resources for cross-referencing parts. These can be accessed online through the official Spicer website or through automotive parts retailers that feature Spicer products. Some tools might require you to enter the part number directly.

Step 3: Input the Part Number

Once you have the right tool, input the part number you've identified. The tool will generate a list of compatible parts, including their part numbers, descriptions, and sometimes even links to where you can purchase them.

Step 4: Evaluate the Options

With the list of compatible parts in hand, evaluate each option. Consider factors such as:

- Price

- Brand reputation
- Warranty and return policy
- Reviews and ratings from other users

Selecting the right part involves balancing cost with quality and performance.

Common Spicer Parts and Their Cross References

Spicer manufactures a wide variety of components, and understanding some common parts and their cross references can help streamline your search. Below are a few examples:

1. Universal Joints

Universal joints (u-joints) are critical for transferring torque in driveline systems. Common Spicer u-joint part numbers and their cross-references include:

- Spicer 5-153X
- Cross Reference: Neapco 4-153X, Moog 3-153
- Spicer 5-460X
- Cross Reference: Neapco 4-460X, Moog 3-460X

2. Driveshaft Assemblies

Driveshaft assemblies are another key component that often requires replacement. Some common part numbers include:

- Spicer 2-2-3169
- Cross Reference: AAM 68003658, Dorman 936-200
- Spicer 2-2-3167
- Cross Reference: AAM 68003656, Dorman 936-199

3. Yokes

Yokes connect the driveshaft to the differential or transmission. Common Spicer yoke part numbers are:

- Spicer 2-2-1897

- Cross Reference: AAM 68003634, Dorman 938-100
- Spicer 2-2-1842
- Cross Reference: AAM 68003612, Dorman 938-302

Tips for Effective Use of a Spicer Cross Reference

To maximize the benefits of the Spicer cross reference, consider the following tips:

1. Keep Updated on Part Numbers

Part numbers can change over time, especially with newer vehicle models. Always ensure you are using the most current part number for accurate cross-referencing.

2. Consult Professionals

If you are unsure about which part to choose, consulting a professional mechanic can provide valuable insights. They can help you understand which alternatives may work best for your specific needs.

3. Utilize Online Forums and Communities

Automotive forums and communities can be excellent resources for information on part replacements. Engaging with fellow enthusiasts or professionals can provide you with recommendations and experiences that can aid in your decision-making.

4. Cross-Reference Multiple Sources

Don't rely solely on one source for your cross-referencing needs. Check multiple platforms, including online retailers and manufacturer databases, to ensure you are getting the most comprehensive list of options.

Conclusion

In conclusion, the **Spicer cross reference** is an invaluable resource for anyone involved in vehicle maintenance or repair. By understanding how to effectively use this tool, you can save money, access hard-to-find parts, and even improve your vehicle's performance with the right replacements. With a little effort and the right information, you can navigate the complexities of auto parts with confidence. Whether you are a professional mechanic or a DIY enthusiast, mastering the Spicer

cross reference will enhance your ability to keep your vehicle running smoothly.

Frequently Asked Questions

What is a Spicer cross reference?

A Spicer cross reference is a tool or resource that helps identify equivalent parts or components manufactured by Spicer, often used in automotive and industrial applications.

Why is using a Spicer cross reference important?

Using a Spicer cross reference is important for ensuring compatibility and proper fitment of parts, especially when replacing or repairing drivetrain components.

Where can I find a Spicer cross reference guide?

A Spicer cross reference guide can typically be found on the official Spicer website, through authorized distributors, or in automotive repair manuals.

How do I use a Spicer cross reference to find parts?

To use a Spicer cross reference, you will need the part number of the original component; you can then search for it in the cross reference database to find equivalent Spicer parts.

Are there online tools for Spicer cross referencing?

Yes, there are several online tools and databases that provide Spicer cross referencing services, making it easier to find compatible parts.

Can I use a Spicer cross reference for aftermarket parts?

Yes, Spicer cross references can often be used to find equivalent aftermarket parts, but it's essential to verify compatibility and quality.

What types of parts can be cross-referenced using Spicer?

Spicer cross referencing is commonly used for drivetrain parts such as u-joints, differentials, axles, and driveshafts.

Is there a cost associated with accessing Spicer cross reference tools?

Most Spicer cross reference tools are available for free, but some specialized databases or services may require a subscription or fee.

How accurate are Spicer cross reference recommendations?

Spicer cross reference recommendations are generally accurate, but it's always advisable to double-check specifications and compatibility before making a purchase.

Who can benefit from using a Spicer cross reference?

Mechanics, automotive technicians, parts distributors, and vehicle owners can all benefit from using a Spicer cross reference for finding and sourcing compatible parts.

spicer cross reference: **Companion Spider** Clayton Eshleman, 2010-03-01 Companion Spider is the accumulated work of a poet and translator who goes more deeply into the art and its process and demands than anyone since Robert Duncan. Clayton Eshleman is one of our most admired and controversial poets, the translator of such great international poets as César Vallejo, Aimé Césaire and Antonin Artaud, and founder and editor of two important literary magazines, Sulfur and Caterpillar. As such, Eshleman writes about the vocation of poet and of the poet as translator as no one else in America today; he believes adamantly that art must concern itself with vision, and that poets learn best by an apprenticeship that is a kind of immersion in the work of other poets. Companion Spider opens with a unique eighty page essay called Novices: A Study of Poetic Apprenticeship addressed to the poet who is just starting out. Subsequent sections take up the art of translation, poets and their work, and literary magazine editing. The title is drawn from an extraordinary visionary experience which the author had, which becomes a potent metaphor for the creative process. Through the variety of poets and artists to whom he pays homage, Eshleman suggests a community which is not of a single place or time; rather, there is mutual recognition and responsiveness, so that the reader becomes aware of a range of artistic practices s/he might explore

The principal source for this book are the papers of Sir James Steaurt Colonel of the regiment for almost all of the period in question supplemented by other regimental records, Horse Guards paperwork, and letters and memoirs, allowing both an official understanding of events, and several threads of human interest which develop through the narrative. The book is

divided into two halves, first providing an overview of the regiment and the role of Steuart as Colonel, before moving onto an account of the regiment on home service during the early years of the Napoleonic Wars and then on active service in the Peninsular War and at Waterloo. This concludes with a discussion of the lessons learnt during the war, as particularly exemplified by the 12th being one of the regiments selected for conversion to lancers in the aftermath of Waterloo.

spicer cross reference: *The List* Amy Siskind, 2018-03-27 The shocking first-draft history of the Trump regime, and its clear authoritarian impulses, based on the viral Internet phenom *The Weekly List*. In the immediate aftermath of Donald Trump's election as president, Amy Siskind, a former Wall Street executive and the founder of *The New Agenda*, began compiling a list of actions taken by the Trump regime that pose a threat to our democratic norms. Under the headline: Experts in authoritarianism advise to keep a list of things subtly changing around you, so you'll remember, Siskind's *Weekly List* began as a project she shared with friends, but it soon went viral and now has more than half a million viewers every week. Compiled in one volume for the first time, *The List* is a first draft history and a comprehensive accounting of Donald Trump's first year. Beginning with Trump's acceptance of white supremacists the week after the election and concluding a year to the day later, we watch as Trump and his regime chips away at the rights and protections of marginalized communities, of women, of us all, via Twitter storms, unchecked executive action, and shifting rules and standards. *The List* chronicles not only the scandals that made headlines but just as important, the myriad smaller but still consequential unprecedented acts that otherwise fall through cracks. It is this granular detail that makes *The List* such a powerful and important book. For everyone hoping to #resistTrump, *The List* is a must-have guide to what we as a country have lost in the wake of Trump's election. #Thisisnotnormal

spicer cross reference: *Queer Exoticism* Judith S. Kaufman, Tamara Powell, 2020-06-01 *Queer Exoticism: Examining the Queer Exotic Within* joins the growing bibliography of queer postcolonial and queer race studies. The authors assembled here examine the queer tendency to visit decidedly different and unusual subjects of desire in an effort, partially at least, to find oneself. The identity quest that is inherent in the search for the exotic often results in something quite the opposite of foreign since it forms and articulates that which is ourselves. Thus experiencing the exotic becomes a path to self-knowledge, not unlike the work of therapy wherein the examination of elements that appear at first peculiar or unfamiliar end up opening channels to self-discovery. In this way, the gaze outward turns inward to exhibit an inner exoticism that, at times, is at once, always and already, inner and outer. These essays also focus on various questions of imperialism, race, exoticism, along with other aspects of the exotic. Going beyond Said's sense of orientalism, this volume examines the otherness of oneself and the notion of desire for the Other as something different from purely an act of domination and colonization, thereby refusing perceptions of ascendancy. Inasmuch as they represent various geographic and cultural groups, the studies lend themselves to a variety of different methodologies and analytical approaches.

spicer cross reference: *The Cult of Trump* Steven Hassan, 2020-09-01 *As featured in the streaming documentary #UNTRUTH—now with a new foreword by George Conway and an afterword by the author* A masterful and eye-opening examination of Trump and the coercive control tactics he uses to build a fanatical devotion in his supporters written by “an authority on breaking away from cults...an argument that...bears consideration as the next election cycle heats up” (Kirkus Reviews). Since the 2016 election, Donald Trump's behavior has become both more disturbing and yet increasingly familiar. He relies on phrases like, “fake news,” “build the wall,” and continues to spread the divisive mentality of us-vs.-them. He lies constantly, has no conscience, never admits when he is wrong, and projects all of his shortcomings on to others. He has become more authoritarian, more outrageous, and yet many of his followers remain blindly devoted. Scott Adams, the creator of Dilbert and a major Trump supporter, calls him one of the most persuasive people living. His need to squash alternate information and his insistence of constant ego stroking are all characteristics of other famous leaders—cult leaders. In *The Cult of Trump*, mind control and licensed mental health expert Steven Hassan draws parallels between our current president and people like Jim Jones, David Koresh, Ron Hubbard, and Sun Myung Moon, arguing that this presidency is in many ways like a destructive cult. He specifically details the ways in which people are influenced through an array of social psychology methods and how they become fiercely loyal and obedient. Hassan was a former “Moonie” himself, and he presents a “thoughtful and well-researched analysis of some of the most puzzling aspects of the current presidency, including

the remarkable passivity of fellow Republicans [and] the gross pandering of many members of the press” (Thomas G. Gutheil, MD and professor of psychiatry, Harvard Medical School). The Cult of Trump is an accessible and in-depth analysis of the president, showing that under the right circumstances, even sane, rational, well-adjusted people can be persuaded to believe the most outrageous ideas. “This book is a must for anyone who wants to understand the current political climate” (Judith Stevens-Long, PhD and author of Living Well, Dying Well).
